**The Stone of Life** - David Peacock  
2013

This book is about the archaeology querns and mills, simple stone instruments which are vital to survival in a society which adopts

bread as its staple. They become the 'stones of life', an essential ingredient in the subsistence strategy of settled agriculturalists. It might be expected that as querns and mills are commonplace in archaeology, they would be key artefacts, studied exhaustively. Alas, this is far from the case. They have been woefully neglected, although in the last decade there has been burgeoning interest throughout much of Europe and because of this, it is timely to survey the subject, adopting a broad viewpoint. A study on this scale has not been attempted since the late nineteenth century when Bennett and Elton published their magisterial work on the History of corn milling. The author is Emeritus Professor of Archaeology at the University of Southampton and a

Fellow of the Societies of Antiquaries. He was awarded the Kenyon Medal of the British Academy in 2011 and the Pommerance Medal of the Archaeological Institute of America in 2012. He has had a lifelong interest in querns and mills on which he has published widely. His work includes the discovery of key mill quarries in the Mediterranean - Orvieto in Umbria and Mulargia in Sardinia, while in Britain the Lodsworth quarries remain the only ones to be found by a deliberate search strategy. The reader will be grateful to Chris Green, also a Fellow of the Society of Antiquaries, for the clear and elegant illustrations which enhance the book and elucidate the text.

**The Beaker People** - Mike Parker Pearson  
2019-03-31

This book presents the results of a major project that sought to address a century-old question about the people who were buried with Beakers - the distinctive pottery of Continental origin that was current, predominantly in equally distinctive burials, in Britain from around 2450 BC. Who were these people? Were they immigrants and how far did they move around? What did they eat? What was their lifestyle? How do they compare with Britain's earlier inhabitants and with contemporaries who did not

use Beaker pottery? An international team of leading archaeologists and scientists, led by Professor Mike Parker Pearson, was assembled to address these questions. Overall, new light has been shed on 369 people: 333 Beaker and non-Beaker users from the core 2500-1500 BC period, along with 17 from the Neolithic and 19 from after 1500 BC. While the genetic data provide convincing evidence for immigration by Continental Beaker users, the isotopic data indicate a more detailed picture of movements, mostly of fairly short distances within Britain, by the descendants of the first Beaker users. This lavishly illustrated book presents a body of data that will be vital to studies of Chalcolithic and Early Bronze Age Britain for decades to come.

**This Book Belongs to Aye-Aye -**

Richard Byrne 2014-02-13

Aye-Aye has just joined Miss Deer's Academy for Aspiring Picture-Book Animals. His classmates all look rather more conventionally cute and fluffy than he does. They are the sorts of animals you'd expect to find in a picture book. But Aye-Aye would love to be in a picture book-it's his absolute dream. His naturally kind and cheerful disposition endears him to the other animals, except the rather mean Rabbit Twins. When Miss Deer announces a class competition to find the most helpful animal with the promise of a special prize, Aye-Aye wonders if it might even be the fulfilment of his dream. But skulduggery is afoot. The Rabbit Twins want the prize for themselves and they're prepared to use all sorts of dastardly means to improve their

chances of winning. As the plot unfolds, their deceitful ways in fact do the opposite as, each time, they act as the stimulus for Aye-Aye's kindness to shine through. So will Aye-Aye be the winner? And will the prize turn out to be just what he's always dreamed of? All w

*Eat, Sleep, Cycle* - Anna Hughes

2015-03-12

I have always loved riding my bike; having the freedom to go where I choose, at my own pace. . . the physical pleasure and satisfaction of a hard day's ride, the fresh air, the work out, the fact that it's free. The bike has always been how I get to places. I wanted to see how far I could get. For Anna, a cycling enthusiast, the decision to ride 4,000 miles solo around the coast of the UK wasn't that hard. Following the river from London until it became the sea, then following the sea until it reached the mouth of the Thames again was a beautifully simple idea. But after epic highs, incredible lows, unforgettable scenery, and unpronounceable place names—as well as a hearty battle with some good old British weather—her simple idea turns

into a compelling journey of self-discovery, and an eye-opening insight into what makes the island where she lives so special.

**Hector Protector and As I Went Over the Water** - Maurice Sendak 2001-11-06  
Maurice Sendak has interpreted these old' Mother Goose rhymes in animated sequences that have the aliveness and immediacy of a child's own imaginings. There is little in these verses to suggest the settings, the characterizations, the unforeseen twists and turns of Mr. Sendak's

fantastical picture-stories. They extend the boundaries of the short rhymes and add surprising dimension. The many admirers of Where the Wild Things Are and The Nutshell Library will recognize in Hector Protector and the seafarer of As I Went Over the Water the same pugnaciousness, love of mischief, and derring-do that characterize Max and Pierre. And they will agree that Mr. Sendak has created a true picture book of astounding originality.

*Leepike Ridge* - N. D. Wilson  
2008-07-22

Before he wrote the bestselling 100 Cupboards trilogy and Ashtown Burials

series, N. D. Wilson delighted readers with his first unforgettable action-adventure story of survival. . . Thomas Hammond has always lived next to Leepike Ridge, but he never imagined he might end up lost beneath it! The night Tom's schoolteacher comes to dinner and asks Tom's mother to marry him, Tom slips out of the house and escapes down a nearby stream on a floating slab of packing foam. The night and stars lull Tom to sleep, and when he wakes, he has ridden his foam raft all the way to the ridge, where the stream dives underground. Flung over rapids and tossed through chasms, Tom finally hits shore, sore but alive. What Tom finds under Leepike Ridge—a dog, a flashlight, a castaway, a tomb, and buried treasure—will answer questions he hadn't known to ask, and change

his life forever. Now, if only he can find his way home again. . . . In the grand tradition of Robinson Crusoe, Hatchet, and Tom Sawyer, N. D. Wilson's first book for young readers is a remarkable adventure, a journey through the dark and back into the light. A New York Public Library 100 Titles for Reading and Sharing "This is a ripping good adventure yarn. . . . Here's the perfect remedy for any summer that's been disappointingly short on thrills."—The Bulletin of the Center for Children's Books, Starred "Wilson's debut is a literate, sometimes humorous page-turner in the classic tradition. Well-read adventure lovers are in for a treat looking for echoes of The Odyssey and Tom Sawyer."—Kirkus Reviews "Tom's adventures have several literary ancestors, including

Tom and Huck in the cave, and the inventive Swiss Family Robinson, but this is solidly set in the present, standing on its own with well-crafted suspense and fascinating survival detail. . . . [M]iddle-grade readers will also relish the physicality of the journey: underwater swims, tight passages, and rock climbing. . . . [An] appealing and easy-to-booktalk package.”–Booklist “Wilson sets the scene vividly, from Tom’s home to the labyrinth of tunnels and caverns under the mountain, and the central characters’ emotional lives develop both naturally and affectingly. [Readers] will appreciate both the fast-paced adventure and Tom’s determination to make the impossible journey back home.”–The Horn Book Magazine “Wilson’s rich imagination and his quirky characters are a true

delight.”–School Library Journal

**Kumba Africa** - Sampson Ejike Odum  
2020-11-03

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the

soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa

today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African

traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

**Remembering the First World War** -  
Bart Ziino 2014-12-05

Remembering the First World War brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary increase in global popular and academic interest in the First World War, both as an event and in the ways it is remembered. The book discusses this phenomenon across three key areas. The first section looks at family history, genealogy and the First World War, seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels, as well as popular media and the continuing role of the state and its agencies. The second part discusses practices of remembering and the more public forms of representation and negotiation

through film, literature, museums, monuments and heritage sites, focusing on agency in representing and remembering war. The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics. What, for instance, does it mean to wear a poppy on armistice/remembrance day? How do symbols like this operate today? These chapters will investigate these aspects through a series of case studies. Placing remembrance of the First World War in its longer historical and broader transnational context and including illustrations and an afterword by Professor David Reynolds, this is the ideal book for all those interested

in the history of the Great War and its aftermath.

**Fresh from the Farm 6pk** - Rigby 2006

*Yvain* - Chretien de Troyes 1187-09-10  
The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet

provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Hoffman's Hunger - Léon de Winter

2007

Felix Hoffman's hunger is both physical and emotional. A Dutch diplomat with a chequered career behind him, he is now Ambassador in Prague in the late 1980s; his final posting. In Kafka's haunted city, Hoffman desperately feeds his bulimia and spends his insomniac nights studying Spinoza and revisiting the traumas of his past. A child survivor of the Holocaust, Hoffman married and had beloved twin daughters, but a double tragedy has befallen his family; one daughter died as a young girl of leukaemia, the other, who became a heroin addict, has committed suicide. This has wrecked Hoffman's marriage and his life; he has not had one decent night's sleep since the death of his daughter over twenty years ago, and

his constant physical hunger reflects his emotional hunger for truth and understanding. When Carla, a Czech double agent, gets into Hoffman's bed, political and emotional mayhem ensues. Hoffman's past and his present predicament are inextricably bound up with the tormented history of Europe over the fifty years since the Second World War. Like Europe, he is at a crossroads, and the signs point to an uncertain future.

**Glacimarine Environments** - J. A. Dowdeswell 1990

This volume examines the processes responsible for sedimentation in modern glaciomarine environments, and how such modern studies can be used

as analogues in the interpretation of ancient glaciomarine sequences. Sediments released from glaciers grounded in tidewater, floating ice shelves, ice tongues, icebergs and sea ice form complex sequences governed by glaciological, oceanographic, sedimentary and biogenic controls. Ten per cent of the world's oceans and epicontinental seas contain such active glaciomarine environments, but during Cenozoic glacial periods this area was doubled. This book will, therefore, be of relevance to all scientists concerned with high and middle latitude marine environments. The early chapters are concerned largely with processes of sedimentation in modern glaciomarine environments; examples are drawn from Alaska, the Canadian Arctic, Svalbard and

Antarctica. Studies of ancient sequences, both Cenozoic and pre-Cenozoic, from the Barents Sea,

Greenland, Sweden, Alaska and the northwest European continental shelf, form the latter part of the book.
