There are thousands of followers of non-Judeo-Christian faith groups in American correctional institutions. Research suggests that many of these prisoners began their incarceration with little or no religious calling, but converted during their imprisonment. According to the FBI, some of these prisoners may be vulnerable to terrorist recruitment. The purpose of this study is three-fold: (1) to collect baseline information on non-traditional religions in U.S. correctional institutions; (2) to identify the personal and social motivations for prisoners' conversions to these

faith groups; and (3) to assess the prisoners' potential for terrorist recruitment. The study creates a starting point for more in-depth research on the relationship between prisoners' conversion to non-traditional religions and extremist violence. Figure. This is a print on demand report.

Navy Driver's Handbook - 1980

The Path to War, U.S. Marine Corps Operations in Southeast Asia 1961 to 1965 - George Rhodes Hofmann (Jr.) 2014

Overview: The 2008 National Defense Authorization Act authorized the Secretary of Defense to conduct a program to commemorate the 50th anniversary of the Vietnam War. A Path to War is the first in a series dedicated to the Marine Corps' involvement in Southeast

Asia from the early 1960s until 1975. This commemorative publication covers the period from 1961 to 1965, a time when the Marine involvement in the region deepened from an advisory and supporting role to the amphibious landing near Da Nang in March 1965, which marked the first major commitment of U.S. ground forces to the war in Vietnam. Contains five color maps and numerous black and white photographs.

Grave Misfortune: The USS Indianapolis Tragedy

- Richard A. Hulver
2019-06-03

Dedicated to the Sailors and Marines who lost their lives on the final voyage of USS Indianapolis and to those who survived the torment at sea following its sinking. plus the crews that risked their lives in rescue ships. The USS Indianapolis

(CA-35) was a decorated World War II warship that is primarily remembered for her worst 15 minutes. . This ship earned ten (10) battle stars for her service in World War II and was credited for shooting down nine (9) enemy planes. However, this fame was overshadowed by the first 15 minutes July 30, 1945, when she was struck by two (2) torpedoes from Japanese submarine I-58 and sent to the bottom of the Philippine Sea. The sinking of Indianapolis and the loss of 880 crew out of 1,196 --most deaths occurring in the 4-5 day wait for a rescue delayed --is a tragedy in U.S. naval history. This historical reference showcases primary source documents to tell the story of Indianapolis, the history of this tragedy from the U.S. Navy perspective. It recounts

the sinking, rescue efforts, follow-up investigations, aftermath and continuing communications efforts. Included are deck logs to better understand the ship location when she sunk and testimony of survivors and participants. For additional historical publications produced by the U.S. Naval History and Heritage Command, please check out these resources here:

<https://bookstore.gpo.gov/agency/naval-history-heritage-command> Year 2016 marked the 71st anniversary of the sinking and another spike in public attention on the loss -- including a big screen adaptation of the story, talk of future films, documentaries, and planned expeditions to locate the wreckage of the warship.

Marine Rifle Squad MCIP 3-10A.4i - United States

Marine Corps 2020-02-13
Marine Corps Interim Publication MCIP 3-10A.4i Marine Rifle Squad June 2019 Marine Corps Interim Publication (MCIP) 3-10A.4i, Marine Rifle Squad, contains tactics, techniques, and procedures for rifle squad employment and captures lessons learned from recent decades of conflict. It covers a range of missions that Marine rifle squads deal with today or may deal with tomorrow. Despite this extended coverage, MCIP 3-10A.4i is not intended to be all-encompassing. There are many aspects of rifle squad operations that are not detailed herein because a specific publication already exists for that purpose; to cover it would be redundant. It also does not address force structure and weapon system changes

anticipated over the next several years unless sufficient experimentation and testing have already been conducted to generate best practices that are ready to be codified in doctrine. This publication does serve, however, as the basic warfighting squad publication and is to be used in conjunction with the appropriate infantry platoon, company, and battalion publications, as well as other publications that relate to the conduct of ground operations. This publication is intended for Marine Corps infantry company and below leadership, to include units serving as provisional infantry. It is a foundational document that assists in the preparation and execution of squad-level operations in the current operational environment in order to

accomplish their assigned missions. This publication cancels the following: MCRP 3-10A.4, Marine Rifle Squad, dated 2 December 1991, change 1 dated 24 July 1997, erratum dated 27 November 2002, erratum dated 2 May 2016, and erratum dated 22 February 2018. Reviewed and approved 10 June 2019. Publication Control Number: 146 000025 00 DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited. Notice This is a paperback book version of the "Marine Corps Interim Publication MCIP 3-10A.4i Marine Rifle Squad June 2019". Full version, All Chapters included. This publication (current update) is available (Electronic version) in the official website of the United States Marine Corps. This book is

properly formatted and printed as a perfect sized copy 8.5x11". * The version of this publication is as described above (this article is updated after each new edition). disclaimer: "The use or appearance of United States Marine Corps publications on a non-Federal Government website does not imply or constitute Marine Corps endorsement of the distribution service."

Environmental

Microbiology - Ralph Mitchell 2010-01-08

The bestselling reference on environmental microbiology—now in a new edition This is the long-awaited and much-anticipated revision of the bestselling text and reference. Based on the latest information and investigative techniques from molecular biology and genetics, this Second Edition offers an

in-depth examination of the role of microbiological processes related to environmental deterioration with an emphasis on the detection and control of environmental contaminants. Its goal is to further our understanding of the complex microbial processes underlying environmental degradation, its detection and control, and ultimately, its prevention. Features new to this edition include: A completely new organization with topics such as pathogens in developing countries, effects of genetically modified crops on microbial communities, and transformations of toxic metals Comprehensive coverage of key topics such as bacteria in the greenhouse and low-energy waste treatment

New coverage relating core book content to local, regional, and global environmental problems Environmental Microbiology, Second Edition is essential reading for environmental microbiologists and engineers, general environmental scientists, chemists, and chemical engineers who are interested in key current subjects in environmental microbiology. It is also appropriate as a textbook for courses in environmental science, chemistry, engineering, and microbial ecology at the advanced undergraduate and graduate levels.

USMC User's Guide to Counseling - 1986

World Atlas of Biodiversity - Brian Groombridge 2002
Global biological diversity, ecosystem

diversity.

MCDP 1 Warfighting - USMC 2018-12-05

MCDP 1 WARFIGHTING Since Fleet Marine Force Manual 1, Warfighting, was first published in 1989, it has had a significant impact both inside and outside the Marine Corps. That manual has changed the way Marines think about warfare. It has caused energetic debate and has been translated into several foreign languages, issued by foreign militaries, and published commercially. It has strongly influenced the development of doctrine by our sister Services. Our current naval doctrine is based on the tenets of maneuver warfare as described in that publication. Current and emerging concepts such as operational maneuver from the sea derive their doctrinal

foundation from the philosophy contained in Warfighting. Our philosophy of warfighting, as described in the manual, is in consonance with joint doctrine, contributing to our ability to operate harmoniously with the other Services.

Seafood and Aquaculture Marketing Handbook -

Carole R. Engle

2016-07-20

Aquaculture, the farming of aquatic animals and plants, and other seafood businesses continue to grow rapidly around the world.

However, many of these businesses fail due to the lack of sufficient attention to marketing. The Seafood and Aquaculture Marketing Handbook provides the reader with a comprehensive, yet user-friendly presentation of key concepts and tools necessary for

aquaculture and seafood businesses to evaluate and adapt to changing market conditions. Markets for aquaculture and seafood products are diverse, dynamic, and complex. The Seafood and Aquaculture Marketing Handbook presents fundamental principles of marketing, specific discussion of aquaculture and seafood market channels and supply chains from around the world, and builds towards a step-by-step approach to strategic market planning for successful aquaculture and seafood businesses. This book is an essential reference for all aquaculture and seafood businesses as well as students of aquaculture. The volume contains a series of synopses of specific markets, an extensive annotated bibliography, and webliography for additional sources of

information. Written by authors with vast experience in international marketing of aquaculture and seafood products, this volume is a valuable source of guidance for those seeking to identify profitable markets for their aquaculture and seafood products.

Ordnance Operations (FM 4-30) - Headquarters Department Of The Army 2019-09-17

The purpose of the ordnance corps is to support the development, production, acquisition and sustainment of equipment- including weapons systems and munitions- and to provide explosive ordnance disposal (EOD), during peace and war, to provide superior combat power to the United States (U.S.) Army. The ordnance corps has a rich and robust history of supporting the force

dating back from the American Revolution to present day. The future of our nation and Army will continue to be engaged in an era of "persistent conflict" a period of protracted confrontation among states, non-state, and individual actors increasingly willing to use violence to achieve their political and ideological ends. The ordnance corps must evolve and remain the indispensable sustainment warfighting function in order for the Army to successfully execute simultaneous and protracted operations. Indigenous Peoples' Food Systems & Well-being - Harriet V. Kuhnlein 2013 Throughout the 10 years of this research we have shown the strength and promise of local traditional food systems to improve health and well-being.

Introduction to Climate

Downloaded from id-blockchain.idea.gov.vn on
by guest

Modelling - Thomas
Stocker 2011-05-25

A three-tier approach is presented: (i) fundamental dynamical concepts of climate processes, (ii) their mathematical formulation based on balance equations, and (iii) the necessary numerical techniques to solve these equations. This book showcases the global energy balance of the climate system and feedback processes that determine the climate sensitivity, initial-boundary value problems, energy transport in the climate system, large-scale ocean circulation and abrupt climate change.

Mcdp 5 Planning -
Department of Defense
2017-05-22

This publication describes the theory and philosophy of military planning as practiced by the U.S. Marine Corps. The intent is to

describe how we can prepare effectively for future action when the future is uncertain and unpredictable. In so doing, this publication provides all Marines a conceptual framework for planning in peace, in crisis, or in war. This approach to planning is based on our common understanding of the nature of war and on our warfighting philosophy of maneuver warfare as described in Marine Corps Doctrinal Publication (MCDP) 1, Warfighting.

Handbook of Polyethylene Pipe - 2012-02

Published by the Plastics Pipe Institute (PPI), the Handbook describes how polyethylene piping systems continue to provide utilities with a cost-effective solution to rehabilitate the underground infrastructure. The book will assist in designing

and installing PE piping systems that can protect utilities and other end users from corrosion, earthquake damage and water loss due to leaky and corroded pipes and joints.

Warfighting - Department of the Navy 2018-10

The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

Tactical Employment of Mortars - U. S. Army Training And Doctrine Command 2011-11

This Army and Marine Corps multiservice publication serves as doctrinal reference for the employment of mortar squads, sections, and platoons. It contains guidance on tactics and

techniques that mortar units use to execute their part of combat operations described in battalion-, squadron-, troop-, and company-level manuals. This publication also contains guidance on how a mortar unit's fires and displacement are best planned and employed to sustain a commander's intent for fire support. The target audience of this publication includes mortar squad, section, and platoon leaders, company and battalion commanders, battalion staff officers, and all others responsible for controlling and coordinating fire support during combined arms operations. Training developers also use this manual as a source document for combat critical tasks. Combat developers use this manual when refining and revising

operational concepts for Infantry and reconnaissance mortar organizations. This publication serves as the primary reference for both resident and nonresident mortar tactical employment instruction.

Marine Corps Values - United States Marine Corps 2005

The User's Guide to Marine Corps Values is to be used as a tool to help ensure that the values of the Corps continue to be reinforced and sustained in all Marines after being formally instilled in entry level training. This document is a compendium of discussion guides developed and used by Marine Corps formal schools. The guides are part of the formal inculcation of values in young Marines, enlisted and officer, during the entry level training process. This

guide is designed to be used as a departure point for discussing the topics as a continuation of the process of sustaining values within the Marine Corps. The User's Guide also serves as a resource for leaders to understand the "talk" and the "walk" expected of them as leaders. New graduates of the Recruit Depots and The Basic School have been exposed to these lessons and expect to arrive at their first duty assignments and MOS schools to find these principles and standards exhibited in the Marines they encounter. Leaders must remember that as long as there is but one Marine junior to them, they are honor bound to uphold the customs and traditions of the Corps and to always "walk the walk and talk the talk." We are the "parents" and "older siblings" of the

future leaders of the Marine Corps. America is depending on us to ensure the Marines of tomorrow are ready and worthy of the challenges of this obligation.

Teaching, reinforcement, and sustainment of these lessons can take place in the field, garrison, or formal school setting. Instructional methodology and media may vary depending on the environment and location of the instruction. However, environment should not be considered an obstacle to the conduct or quality of the instruction. This guide has been developed as a generic, universal training tool that is applicable to all Marines regardless of grade. Discussion leaders should include personal experiences that contribute to the development of the particular value or

leadership lesson being di

Global Ocean Science Report -

Intergovernmental Oceanographic Commission
2020-12-14

The world ocean is a life-supporting system for humanity, yet it remains largely unknown. Based on data collected from around the world, the Global Ocean Science Report 2020 offers a global record of how, where and by whom ocean science is conducted. It monitors our capacity to understand the ocean and seize new opportunities. More generally, the Report underlines the essential role of ocean research and international cooperation for all key issues of the 21st century.

Biology and Culture of Asian Seabass Lates

Calcarifer - Dean R. Jerry
2013-10-26

This book covers the

biology, ecology, genetics and aquaculture of the Asian Seabass or barramundi (*Lates calcarifer*), a commercially and recreationally valuable species. It brings together in the one place reviews written by world experts in Asian seabass taxonomy, genetics, nutrition, ecology, aquaculture, reproductive and developmental biology, climate change impacts, harvest quality and health management.

Department of Defense Dictionary of Military and Associated Terms - 1973

Motor Vehicle Technology for Mechanics - P.P.J. Read 2000-04-13

An introductory text providing explanations of motor vehicle technology. Each chapter in the book takes the reader through the details of each

component system, and also includes checklists for fault finding and maintenance, and a number of practical projects.

Transcultural Diplomacy and International Law in Heritage Conservation -

Olimpia Niglio 2021

This book provides a substantial contribution to understanding the international legal framework for the protection and conservation of cultural heritage. It offers a range of perspectives from well-regarded contributors from different parts of the world on the impact of law in heritage conservation. Through a holistic approach, the authors bring the reader into dialogue around the intersection between the humanities and legal sciences, demonstrating the reciprocity of interaction in programs and projects to enhance

cultural heritage in the world. This edited volume compiles a selection of interesting reflections on the role of cultural diplomacy to address intolerances that often govern international relations, causing damage to human and cultural heritage. The main purpose of this collection of essays is to analyse the different cultural paradigms that intervene in the management of heritage, and to advocate for improvements in international laws and conventions to enable better cultural policies of individual nations for the protection of human rights. The editors submit that it is only through open dialogue between the humanities and jurisprudence that the international community will be able to better protect and value sovereignty, and promote

cultural heritage for the development of a better world. This collection is relevant to scholars working in areas relating to law, management and policies of cultural heritage conservation and protection.

Culture General Guidebook for Military Professionals - Kerry

Fosher 2019-07-19

Understanding people, whether "knowing the other" or "knowing oneself, is not the kind of straightforward task with which military trainers and leaders are familiar. In fact, we often attempt to avoid the problem all together and look for technological solutions to human problems. This is in part a natural consequence of the U.S. military having held a decisive technical and industrial advantage on the battlefield for the past century. Yet in

this advantage lies a corresponding weakness when faced with problems that cannot be solved by technology. Although our theory of war emphasizes that the human dimension of war is the most critical element, we often fail to sufficiently account for it in our training and planning. At the core of understanding people is culture, a concept that is both useful and ambiguous. In order to overcome our natural aversion to ambiguity and uncertainty, we must admit that a deliberate and persistent effort is required to develop competence in the art of understanding people through culture. This guidebook, an important step in adopting such a methodical approach to culture in operations, presents an evolutionary approach to understanding the human dimension. The concepts

and skills presented here under the umbrella of Culture General provide leaders, trainers, and educators a pragmatic toolkit to prepare service members for global employment. The absolute diversity of spoken languages in the world, estimated to be around 6,900 by some methods, and cultures guarantee that no nation's military will ever be perfectly prepared to operate in foreign environments. Nonetheless, the deliberate application of Culture General knowledge and skills to specific cultures and regions will produce forces as prepared as possible to deal with the complexities of the current operating environment both as individuals and as units. We should take satisfaction in the idea that this guidebook positions us well to

extend the Culture General approach more broadly across the services. Based on a solid interdisciplinary foundation and grounded in accepted social science methods, this guidebook provides a bridge to more effective operations across the range of military operations.

Regulations for the Order and Discipline of the Troops of the United States - United States. War Department. Inspector General's Office 1794

Fundamentals of Gas Turbines - William W. Bathie 1996
Presents the fundamentals of the gas turbine engine, including cycles, components, component matching, and environmental considerations.

Affordable and Clean Energy - Walter Leal

Filho 2021-01-10
The problems related to the process of industrialisation such as biodiversity depletion, climate change and a worsening of health and living conditions, especially but not only in developing countries, intensify. Therefore, there is an increasing need to search for integrated solutions to make development more sustainable. The United Nations has acknowledged the problem and approved the “2030 Agenda for Sustainable Development”. On 1st January 2016, the 17 Sustainable Development Goals (SDGs) of the Agenda officially came into force. These goals cover the three dimensions of sustainable development: economic growth, social inclusion and environmental protection. The

Encyclopedia of the UN Sustainable Development Goals comprehensively addresses the SDGs in an integrated way. The Encyclopedia encompasses 17 volumes, each one devoted to one of the 17 SDGs. This volume addresses SDG 7, namely "Ensure access to affordable, reliable, sustainable and modern energy for all" and contains the description of a range of terms, which allow a better understanding and foster knowledge. Energy is crucial for achieving almost all others SDGs, from its role in the eradication of poverty through advancements in health, education, water supply and industrialization, to combating climate change. This book presents a set of papers on the state-of-the-art of knowledge and practices about energy sustainable, in terms of

generation and demand energy, considering aspects of innovation, management, sources of energy, performance, society behavior, and infrastructure, among others. Concretely, the defined targets are: Ensure universal access to affordable, reliable and modern energy services Increase substantially the share of renewable energy in the global energy mix Double the global rate of improvement in energy efficiency Enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology Expand infrastructure and upgrade technology for

supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing states and landlocked developing countries, in accordance with their respective programmes of support Editorial Board Md. Social Behavior in Farm Animals - J. L. Keeling

2001

An understanding of social behaviour is increasingly necessary in farm animal husbandry as more animals are housed in groups rather than in individual stalls or pens. There may be economic or welfare reasons for such housing. This book is the first to specifically address this important subject. The chapters fall into three broad subject areas: concepts in social behaviour; species specific chapters; current issues. Authors include leading experts from Europe, North America, Australia and New Zealand. Animal welfare/behaviour issues are becoming increasingly important Combines theoretical and practical details about the social behaviour of our most common farm

**Aquaculture Production
Systems** - James H.
Tidwell 2012-06-26
Aquaculture is an
increasingly diverse
industry with an ever-
growing number of
species cultured and
production systems
available to
professionals. A basic
understanding of
production systems is
vital to the successful
practice of aquaculture.
Published with the World
Aquaculture Society,
Aquaculture Production
Systems captures the
huge diversity of
production systems used
in the production of
shellfish and finfish in
one concise volume that
allows the reader to
better understand how
aquaculture depends upon
and interacts with its

environment. The systems examined range from low input methods to super-intensive systems. Divided into five sections that each focus on a distinct family of systems, Aquaculture Production Systems serves as an excellent text to those just being introduced to aquaculture as well as being a valuable reference to well-established professionals seeking information on production methods.

Fix Bayonets! - John W. Thomason 2022-01-01
This collection of WWI sketches of the Fifth Marine Regiment is "forthright, unsparing, deeply felt but unsentimental, and reads like a house afire" (The Wall Street Journal). From a soldier who was there, here are first-hand accounts of combat and camaraderie during the Great War. In a

series of stories and illustrations, Capt. John W. Thomason captures the bravery and gallantry of the leathernecks fighting the Germans in France—putting readers in the trenches, facing the staccato of rifle fire, feeling the pangs of starvation, and the demoralizing fatigue. This collection is a tribute to the men who lived and breathed the motto "Semper Fidelis", or "Always Faithful", those who made the ultimate sacrifice and those who made it out alive. "Fix Bayonets! is in the company of Tolstoy and Crane and Bierce in the literature of war. Indeed, I should leave Crane out of it . . . The Red Badge of Courage cannot stand the fierce sun of Fix Bayonets!" —Laurence Stallings, American playwright and veteran
"Remains the single

finest account of Americans in battle in World War I.” –The United States World War One Centennial Commission “Thomason brings life and energy to his account—and the spirited drawings—of what he saw.” –The Wall Street Journal

The Ocean and Cryosphere in a Changing Climate - Intergovernmental Panel on Climate Change (IPCC) 2022-04-30

The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is

the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.

[Review of Maritime Transport 2020](#) - United Nations 2021-01-06

This series contains the decisions of the Court in both the English and French texts.
