This Is Thailand - Marek Lenarcik 2013-05-31
"This is Thailand" is the riveting real-life account of Marek Lenarcik's blind leap from the safe, comfortable and utterly bullshit, corporate world of Dublin to the charming, exotic beaches of Thailand. With rose-tinted glasses firmly in place, Marek fully expects to find a land of exotic fruits, beautiful women

and an easy-going tropical lifestyle. Which he does. At first. Traveling from Phuket to Bangkok and throughout Thailand's exotic locales, Marek's desire to experience all the forbidden fruits Thailand has to offer leads him to Piam, a gorgeous, kind, independent Thai girl who, he is convinced, might well be the one. But as he immerses himself deeper into this strange country, replete with often inexplicable thought-

patterns, worldviews and customs, Marek begins to discover a much darker, more complex side to the Land of Smiles and its inhabitants. Soon, Piam begins to reveal her true colours. It soon dawns on him that, despite his best intentions (most of the time), he has been ensnared -- as have many men before him -- by the dreaded Honey Trap. The stormy relationship that ensues provides a fascinating backdrop to the insights into Thailand's unique culture that stem from Marek's efforts to come to terms with the reality of the country and the people who call it home.

Cartography - Katherine Schifani 2022-06
Cartography describes Katherine Schifani's time deployed in Iraq as a counterterrorism advisor with U.S. Special Forces in 2011. It is the story of one woman mapping the terra incognita of Iraq with questionable interpreters, nonexistent

guidance, and an unclear purpose. It's the story of a gay woman serving under the military's Don't Ask, Don't Tell policy who realizes that the policy repeal she has long awaited is so overshadowed by a hostile environment that remaining closeted is more critical than ever. At the heart of Cartography is Schifani's quest to understand the Iraqi landscape and the Special Forces culture of American men she worked alongside as a gay woman and a member of the air force. Her memoir examines both the perils of being undertrained and underequipped to perform the job assigned to her in her role as an advisor and some of the unique situations—good and bad—her gender created in such an irregular combat environment. Schifani's deployment was an exercise in exploration, observation, and navigating a wholly foreign land.

Land Rover Design - Nick Hull
2021-10-20
A landmark new history from
design journalist Nick Hull,
Land Rover Design - 70 years
of Success offers a detailed
insight to the company's design

story, from the early days of
Land Rover in Solihull to the
latest generation of the Range
Rover Velar in 2018. The Land
Rover was born from a
desperate need by the Rover
Company to develop a stop-gap
model to provide cashflow in
the post-war years. The
original aim of a simple 4x4
agricultural tool soon
developed into a multi-purpose
vehicle that became the
mainstay of the British Army
and produced numerous
offshoots for the emergency
services, police, forestry and
aid agencies worldwide. This
book details the personalities
involved in the various projects
since the late 1940s up to
today: the designers, modellers
and studio engineers. It charts
the development of Land Rover
and Range Rover projects in
the UK, particularly those
designed in the Gaydon studio
that opened in 1996, and is still
a key part of JLR's design
resource. From the early days
of chalk drawings and wooden
models to today's digital
renderings and milled clays for

Land Rover's designers and technicians have never been short of creativity. This book tells their story, in their own words, and is a fitting tribute to the spirit and ethos of Land Rover design and engineering. [The Pygmy Hippo Story](#) - Phillip T. Robinson 2017

Though the pygmy hippopotamus has been designated as a flagship species of West African forests (meaning that by raising conservation efforts for a single species, an entire ecological region could benefit), very little research has been published on the animal. They are solitary, nocturnal, and highly evasive, and until recent developments in "camera trap" technology, they were considered the least-photographed large mammal species in the world. The information currently available on this endangered species is scattered, limited, redundant, and often inaccurate, and no major volume exists as a resource for those interested in the conservation effort for the species, until now. Phillip

Robinson and his coauthors provide a treatment of the natural history, biology, and ecology of the pygmy hippo, along with a discussion of the rare animal's taxonomic niche and a summary of the research initiatives involving it up to this point. The authors show the ways in which the pygmy hippo has come into contact with people in West African countries, both in terms of ecological and cultural impact. This creature has been the subject of local folktales, and is treated as almost mythic in some regions. Information on issues related to captivity, breeding, and zoos is provided. The book is heavily illustrated with original photographs and anatomic drawings. The project should be of use to conservation biologists, zoologists and natural history readers, and will be the definitive single-volume account of an animal that the scientific community has designated to be ecologically significant to West Africa.

Japan and the Global Automotive Industry - Koichi Shimokawa 2010-06-03

The Japanese automotive industry enjoyed spectacular success in the 1980s. This was largely due to the so-called 'Lean Production System' - the combination of an efficient production system, an effective supplier system, and a product development system. In the 1990s the industry fell on hard times because of the Japanese asset price bubble and extreme currency appreciation. In this book, eminent industry

specialist Koichi Shimokawa draws on his thirty years of research and fieldwork with Japanese and American firms, to show how the Japanese automotive industry has managed to recover from this difficult period. He shows how firms like Toyota were able to transfer Japanese systems to overseas plants and how they have changed in order to compete in increasingly globalized markets. In addition, the book also addresses the two major challenges to the current industry model: the rise of China and the environmental and energy supply situation.

Youth, Class and Everyday Struggles - Steven Threadgold 2017-09-13
The concept of everyday struggles can enliven our understanding of the lives of young people and how social

class is made and remade. This book invokes a Bourdieusian spirit to think about the ways young people are pushed and pulled by the normative demands directed at them from an early age, whilst they reflexively understand that allegedly available incentives for making the 'right' choices and working hard - financial and familial security, social status and job satisfaction - are a declining prospect. In *Youth, Class and Everyday Struggles*, the figures of those classed as 'hipsters' and 'bogans' are used to analyse how representation works to form a symbolic and moral economy that produces and polices fuzzy class boundaries. Further to this, the practices of young people around DIY cultures are analysed to illustrate struggles to create a satisfying and meaningful existence while negotiating between study, work and creative passions. By thinking through different modalities of struggles, which revolve around meaning making and identity, creativity and authenticity, Threadgold

brings Bourdieu's sociological practice together with theories of affect, emotion, morals and values to broaden our understanding of how young people make choices, adapt, strategise, succeed, fail and make do. *Youth, Class and Everyday Struggles* will appeal to undergraduate and postgraduate students, as well as postdoctoral researchers, of fields including: Youth Studies, Class and Inequality, Work and Careers, Subcultures, Media and Creative Industries, Social Theory and Bourdieusian Theory.

His bitter rival for 40 years, Jealousman, looks forward to finally being the sole village hero once again. Suddenly, the paroled Pastor Limelight Mmonadilo of the defunct Ten Commandments Ministries attains popularity by mobilising the village leadership into preserving and celebrating Leroy's legacy for purposes of employment creation, amidst the grinding global economic recession. Jealousman, believing that his own legacy is more worthy of celebration and preservation,

gets determined to bring Pastor Mmonadilo's project to its knees. For a while he tries to do this in an uncharacteristically subtle manner. Meanwhile, a group of city-based professionals motivate the formation of a company for tourism business in Morwa. This intensifies the rivalry between Jealousman and Pastor Mmonadilo. Father Sebastian Modiga of the Roman Catholic Church channels the negative energy between the two men into unleashing a "holy war" and "final solution" against the allegedly predatory charismatic or "Fire" church in Botswana.

The Translator - Daoud Hari 2008-06-05

Daoud Hari lost a way of life in Darfur. But amidst the carnage and turmoil, he found a new calling... As a Zaghawa tribesman in the Darfur region

Downloaded from id-blockchain.idea.gov.vn on

of Sudan, Daoud Hari grew up racing camels across the desert, attending gloriously colourful weddings and, when his work was done, playing games under the moonlight. But in 2003, helicopter gunships swooped down on Darfur's villages and shattered that way of life for ever. Soon, Sudanese government-backed militias, attacking on horseback, came to murder, rape and burn. To drive the tribesmen from their lands. When Hari's village was attacked and destroyed, his family was decimated and dispersed. He escaped, and

together with a group of friends roamed the battlefield deserts, helping the weak and vulnerable find food, water and a path to safety. And when international aid groups and reporters arrived, Hari gave his services as a translator and guide. To do so was to risk his life, for the Sudanese government had outlawed journalists, punishing aid to 'foreign spies' with death. Yet Hari did so time and again. Until, eventually, his luck ran out and he was captured... The Translator is a harrowing tale of selfless courage in terrifying conditions.
