Computer Applications in Reading - Jay S. Blanchard 1987

Intended as a reference for researchers, teachers, and administrators, this book chronicles research, programs, and uses of computers in reading. Chapter 1 provides a broad view of computer applications in education, while Chapter 2 provides annotated references for computer based reading and language arts programs for children and adults in classroom and clinic settings, including LOGO, cloze procedure, language experience approach, special education, spelling, Native American education, and English as a second/foreign language. Chapter 3 introduces the reader to software evaluation guidelines and criteria, including references about the development of computer based reading programs and projects. Chapter 4 reviews computer based research on teaching reading, reading assessment, and psychological and physiological aspects of the reading process. Chapter 5 presents references on word processing, writing, and reading, and Chapter 6 offers explanations for the puzzling questions surrounding computer based readability and text analysis. References to computer based activities in reading readiness and beginning reading are presented in chapter 7, while chapter 8 discusses computer managed reading instruction. Chapter 9 details advances in computer based speech technology and reading instruction and the focus in chapter 10 is on text legibility and computers. Chapter 11 provides references about recent developments with CD ROMs (Compact Disk Read Only Memory) and CDIs (compact disk interactive), and chapter 12 summarizes by speculating on the importance of other emerging applications in computer based reading, such as simulations, artificial intelligence, programming and authoring systems, telecommunications and satellite communications, and robots. Two appendixes list companies that produce software and describe integrated learning systems that contain reading and language arts software. (SKC)

Brandeis University - Abram Leon Sachar 1995

In this engaging account, the first president of Brandeis tells how many formidable obstacles to launching a new university without initial capital endowment or any hope of alumni support for at least a generation were overcome; how academic goals were drafted, distinguished faculty recruited, and chairs endowed; and how a dilapidated campus was expended into a well-organized plant of some 90 buildings. In this revision of the 1976 edition, Abram L. Sachar expands the scope of his commentary and imbues it with a critical depth and objectivity that comes from 20 additional years of active involvement in the service of the university.

**Giant City State Park and the Civilian Conservation Corps** - Kay Rippelmeyer 2010-03-02

Many recognize Giant City State Park as one of the premier recreation spots in southern Illinois, with its unspoiled forests, glorious rock formations, and famous sandstone lodge. But few know the park's history or are aware of the remarkable men who struggled to build it. Giant City State Park and the Civilian Conservation Corps: A History in Words and Pictures provides the first in-depth portrait of the park's creation, drawing on rarely seen photos, local and national archival research, and interviews to present an intriguing chapter in Illinois history. Kay Rippelmeyer traces the geological history of the park, exploring the circumstances that led to the breathtaking scenery for which Giant City is so well known, and providing insightful background on and cultural history of the area surrounding the park. Rippelmeyer then outlines the effects of the Great Depression and the New Deal on southern Illinois, including relief efforts by the Civilian Conservation Corps, which began setting up camps at Giant City in 1933. The men of the CCC, most of them natives of southern and central Illinois, are brought to life through vividly detailed, descriptive prose and hundreds of black-and-white photographs that lavishly illustrate life in the two camps at the park. This fascinating book not only documents the men's hard work— from the clearing of the first roads and building of stone bridges, park shelters, cabins, and hiking and bridle trails, to quarry work and the raising of the lodge's famous columns— it also reveals the more personal side of life in the two camps at the park, covering topics ranging from education, sports, and recreation, to camp newspapers, and even misbehavior and discipline. Supplementing the photographs and narrative are engaging conversations with alumni and family members of the CCC, which give readers a rich oral history of life at Giant City in the 1930s. The book is further enhanced by maps, rosters of enrollees and officers, and a list of CCC camps in southern Illinois. The culmination of three decades of research, Giant City State Park and the Civilian Conservation Corps provides the most intimate history ever of the park and its people, honoring one of Illinois' s most unforgettable places and the men who built it.

**Prison Religion** - Winnifred Fallers Sullivan 2011-09-06

More than the citizens of most countries, Americans are either religious or in jail--or both. But what does it mean when imprisonment and evangelization actually go hand in hand, or at least appear to? What do "faith-based" prison programs mean for the constitutional separation of church and state, particularly when prisoners who participate get special privileges? In Prison Religion, law and religion scholar Winnifred Fallers Sullivan takes up these and other important questions through a close

examination of a 2005 lawsuit challenging the constitutionality of a faith-based residential rehabilitation program in an Iowa state prison. *Americans United for the Separation of Church and State v. Prison Fellowship Ministries*, a trial in which Sullivan served as an expert witness, centered on the constitutionality of allowing religious organizations to operate programs in state-run facilities. Using the trial as a case study, Sullivan argues that separation of church and state is no longer possible. Religious authority has shifted from institutions to individuals, making it difficult to define religion, let alone disentangle it from the state. *Prison Religion* casts new light on church-state law, the debate over government-funded faith-based programs, and the predicament of prisoners who have precious little choice about what kind of rehabilitation they receive, if they are offered any at all.

**The Cornell Widow** - 1901**The New York Times Book Review** - 1957*The New York Times Magazine* - 1970**Spatial Decision Support Systems** - Ramanathan Sugumaran 2010-11-15

Although interest in Spatial Decision Support Systems (SDSS) continues to grow rapidly in a wide range of disciplines, students, planners, managers, and the research community have lacked a book that covers the fundamentals of SDSS along with the advanced design concepts required for building SDSS. Filling this need, *Spatial Decision Support Systems: Principles and Practices* provides a comprehensive examination of the various aspects of SDSS evolution, components, architecture, and implementation. It integrates research from a variety of disciplines, including the geosciences, to supply a complete overview of SDSS technologies and their application from an interdisciplinary perspective. This groundbreaking reference provides thorough coverage of the roots of SDSS. It explains the core principles of SDSS, how to use them in various decision making contexts, and how to design and develop them using readily available enabling technologies and commercial tools. The book consists of four major parts, each addressing different topic areas in SDSS: Presents an introduction to SDSS and the evolution of SDSS Covers the essential and optional components of SDSS Focuses on the design and implementation of SDSS Reviews SDSS applications from various domains and disciplines—investigating current challenges and future directions The text includes numerous detailed case studies, example applications, and methods for tailoring SDSS to your work environment. It also integrates sample code segments throughout. Addressing the technical and organizational challenges that affect the success or failure of SDSS, the book concludes by considering future directions of this rapidly emerging field of study.

**Saturday Review** - 1968**National Compendium of Televised Education** - Lawrence E. McKune 1967**Sing Me a Story** - Jane Rosenberg 2008-09-16

"Engaging. . . The text and illustrations exude the glamour, passion, and lyricism of opera."—Publishers Weekly Jane Rosenberg's delightful retellings for children of the greatest operas—whether the tales are read as introductions to a opera or to relive a production already seen, art and text combine to give a clear understanding of plot, scene, and character.

Young children in particular will enjoy reading the stories—or having them read—both as lovely fairy tales and to help them share in the magic of a real dramatic performance. Here are the gaiety of *The Barber of Seville* and the lavish spectacle of *Aida*. Sets, costumes, and lighting are re-created to give the true flavor of authentic productions and to approximate, as fully as possible, the experience of attending the opera oneself.
