Nicopolis Ad Istrum - A. G. Poulter 2007

This, the third and final monograph, completes the description of the excavations carried out by the British team, part of the Anglo-Bulgarian archaeological programme on the site of Nicopolis ad Istrum in northern Bulgaria, one of the best-preserved ancient cities of the Roman Empire. The site provided a unique opportunity to compare the changing layout and economy of an urban centre from the Roman to the late Roman and the early Byzantine periods (c. AD 100-600). The excavations, geophysics, coins and wall-plaster were published in volume 1. Volume 2 describes the evidence for economic changes between the Roman and early Byzantine periods and contains full reports on the pottery and the glass. This volume includes full descriptions of all small-finds (ceramic copper-alloy and iron objects, glass, lamps, sculpture, architecture and flints) each object provided with a description of its archaeological context and the date of deposition. The second half of the volume identifies the environmental and economic differences between the three main periods in the history of the site. Reports include quantified assemblages of zooarchaeological finds (large and small mammals), fish, birds, archaeobotanical remains, mollusca and human skeletons as well as the results of metallurgical analysis: copper-alloy, iron and 'natural' steel. Not only is this range and quantity of finds in these reports unparalleled in the Balkans, they represent a valuable resource for the material culture of the Roman and late Roman periods coming, as they do, from a part of the Roman Empire which has produced very few comparable assemblages. Of no less importance are the quantified bioarchaeological data which offers a unique insight into the changing morphology and economy of a Roman, late Roman and early Byzantine city.

Comics as History, Comics as Literature
- Annessa Ann Babic 2015-08-15

This anthology hosts a collection of essays examining the role of comics as portals for historical and academic content, while keeping the approach on an international market versus the American one. Few resources currently exist showing the cross-disciplinary aspects of comics. Some of the chapters examine the use of Wonder Woman during World War II, the development and culture of French comics, and theories of Locke and Hobbs in regards to the state of nature and the bonds of community. More so, the continual use of comics for the retelling of classic tales and current events demonstrates that the genre has long passed the phase of for children's eyes only. Additionally, this anthology also weaves graphic novels into the dialogue with comics.

The manuscript then ponders on working drawing management and other methods. Topics include planning the set, drawing register, drawing office programming, and introducing new methods. Building elements and external features, conventions for doors and windows, symbols indicating materials, electrical, telecommunications, and fire symbols, and non-active lines and symbols are also discussed. According to Lipson, we are at a critical stage in our history. It is clear that there has been a lowering of ethical standards in many sectors of our society. Both promise and peril confront humanity at this time. Along with the ability to annihilate the world, we have acquired the knowledge to improve the quality of life for more people than ever before. The author examines periods in history where similar conditions have existed, seeking to comprehend what is at stake in our present age, and calls for revolution in our ethical practices. Finally, he considers whether the current moral and ethical crisis will be resolved.

The Amazing Colossal Apostle - Robert M. Price 2012

The story of Paul is one of irony, the New Testament depicting him at the martyrdom of Stephen holding the assassins' cloaks. Then this same Paul is transformed into the biblical archetype for someone suffering for their faith. He becomes so entrenched, it would appear that he had walked with the Christians all his life, that he was the one who defined the faith, eventually being called the "second founder of Christianity." But much of what we think we "know" about Paul comes from Sunday school stories we heard as children. The stories

were didactic tales meant to keep us reverent and obedient. As adults reading the New Testament, we catch glimpses of a very different kind of disciple--a wild ascetic whom Tertullian dubbed "the second apostle of Marcion and the apostle of the heretics." What does scholarship tell us about the enigmatic thirteenth apostle who looms larger than life in the New Testament? The epistles give evidence of having been written at the end of the first century or early in the second--too late to have been Paul's actual writings. So who wrote (and rewrote) them? F. C. Baur, a nineteenth-century theologian, pointed persuasively to Simon Magus as the secret identity of "Paul." Robert M. Price, in this exciting journey of discovery, gives readers the background for a story we thought we knew.

Living with a Dead Language - Ann Patty 2016-06-14

"A delightful mix of grammar and growth, words and wonder." - The Washington Post
An entertaining exploration of the richness and relevance of the Latin language and literature, and an inspiring account of finding renewed purpose through learning something new and challenging. After thirty-five years as a book editor in New York City, Ann Patty stopped working and moved to the country. Bored, aimless, and lost in the woods, she hoped to challenge her restless, word-loving brain by beginning a serious study of Latin at local colleges. As she begins to make sense of Latin grammar and syntax, her studies open unexpected windows into her own life. The louche poetry of Catullus calls up her early days in 1970s New York, Lucretius elucidates her intractable drivenness and her attraction to Buddhism, while Ovid's verse conjures a delightful dimension to the flora and fauna that surround her. Women in Roman history, and an ancient tomb inscription

give her new understanding and empathy for her tragic, long deceased mother. Finally, Virgil reconciles her to her new life—no longer an urban exile, but a rustic scholar, writer and teacher. Along the way, she meets an impassioned cast of characters: professors, students and classicists outside of academia who keep Latin very much alive. Written with humor, heart, and an infectious enthusiasm for words, Patty's book is an object lesson in how learning and literature can transform the past and lead to an unexpected future.

Hobson-Jobson - Henry Yule 2013-06-13
'A glossary of colloquial Anglo-Indian words and phrases, and of kindred terms, etymological, historical, geographical and discursive.' Hobson-Jobson is a unique work of maverick scholarship. Compiled in 1886 by two India enthusiasts, it documents the words and phrases that entered English from Arabic, Persian, Indian, and Chinese sources - and vice versa. Described by Salman Rushdie as 'the legendary dictionary of British India' it shows how words of Indian origin were absorbed into the English language and records not only the vocabulary but the culture of the Raj. Illustrative quotations from a wide range of travel texts, histories, memoirs, and novels create a canon of English writing about India. The definitions frequently slip into anecdote, reminiscence, and digression, and they offer intriguing insights into Victorian attitudes to India and its people and customs. With its delight in language,

etymology, and puns, Hobson-Jobson has fascinated generations of writers from Rudyard Kipling to Tom Stoppard and Amitav Ghosh. This selected edition retains the range and idiosyncrasy of the original, and includes fascinating information on the glossary's creation and its significance for the English language. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.
