Adsorption From Solution - R. H. Ottewill 2012-12-02

Adsorption From Solution discusses the significance of adsorption behavior in thermodynamic terms, with emphasis on the interplay between enthalpic and entropic contributions to the free energy. This book examines the role of simple models and of elementary thermodynamic and statistical mechanical arguments in relation to the concept of surface phase. Organized into 22 chapters, this book starts with an overview of the theoretical model for the solid/liquid interface. This text then proceeds with a discussion of the general thermodynamic treatment of adsorption from mixed solvents, which is designed to apply in situations where adsorbed species may be regarded as distinct from their bulk counterparts. Other chapters discuss the adsorption from solutions of various interfaces of liquid/gas, liquid/liquid, or liquid/solid. The final chapter deals with the roles of adsorption from solution in controlling other phenomena, such as liquid-liquid displacement, wetting, and the forces between colloidal particles. Physicists, chemists, and materials scientists will find this book extremely useful.

NEET Exam Chemistry Question Bank - R P Meena

NEET Exam Chemistry Question Bank: Topic wise and NCERT Based MCQs NEET Chemistry is considered to be the most scoring subject. As it is one of the easiest scoring subjects, it is often ignored and undermined a subject. But if you want to get an edge over others, here is a tip, master NEET Chemistry concepts. Chemistry demands the attention of students in understanding reactions and concrete basic understanding but once done it only gets easier from there. NEET is amongst one the most prestigious medical entrance exams in India. With just a few months left for the examination, it becomes quite challenging for students to cover all the concepts included in the NEET syllabus thoroughly. However, a proper study plan designed as per the latest examination pattern and the syllabus can help students to prepare all the important concepts in shorter time duration. Given below are few useful tips that can assist the students in tackling multiple-choice questions in NEET exam accurately. In most of the multiple choice questions, the options are designed in a very tricky and confusing manner. In most of the cases, all the given options seem to be correct in some aspect. Therefore, the students are advised to read the entire question very carefully. Try to accumulate all

the information provided in the question effectively because in some of the cases you can easily evaluate the Answers from the question itself. If you are muddled by the given options, then, give each option a true and false test. Instead of getting confused, consider all the possibilities and neglect the incorrect options. Hence, in this way, the most appropriate answer could be easily spotted. Topic-wise MCQs for NEET Chemistry · Environmental Chemistry · Organic Chemistry · P Block Elements · States of Matter · Redox Reaction · Chemical Equilibrium · Thermodynamics · Periodic Classification of Elements · s Block Elements · Chemical Bonding Molecular Structure · Structure of Atom · Some Basic Concepts of Chemistry · Hydrocarbons · Some Basic Concepts of Chemistry · Solid State · Structure of Atom · Solutions · Classification of Elements and Periodicity in Properties · Electrochemistry · Chemical Bonding and Molecular Structure · Chemical Kinetics · States of Matter: Gases and Liquids · Surface Chemistry · Thermodynamics · General Principles and Processes of Isolation of Elements · Equilibrium · Redox Reactions · d and f Block Elements · Hydrogen · Coordination Compounds · Haloalkanes and Haloarenes · Some p-Block Elements · Alcohols, Phenols and Ethers · Organic Chemistry- Some Basic Principles and Techniques · Aldehyde, Ketones and Carboxylic Acids · Hydrocarbons · Organic Compounds Containing Nitrogen · Environmental Chemistry · Biomolecules, Polymers and Chemistry in Everyday Life Use a step-wise approach to solve conceptual and complex questions. Several times Matching type Questions are asked where the students are required to find the mismatched or the correctly matched option. Some of the questions asked in the NEET exam are entirely memory-based; therefore, the students are advised to memorize the common names, scientific names, concepts and important definitions. Around 40% of the questions asked in the NEET exam are application-

based. Therefore, students need to focus more on the concepts along with its applications in order to score well in the examination. Chemistry topics broadly can be grouped into – Organic, Inorganic and Physical chemistry. Organic Chemistry is a vast section and holds the maximum weightage. Its concepts and principles are important. One needs to be conversant with properties of groups, conversions, recognizing organic compounds etc. Interlinking between different chapters from organic chemistry can be of great help. The students must primarily focus on reading NCERT textbooks. Several times the questions asked in NEET exam are taken directly from the NCERT textbooks. Initially avoid answering those questions for which you are not confident because your wrong answer may reduce your final score. In order to utilize your time appropriately, divide the three hours of examination time as per your comfort among Physics, Chemistry, and Biology. Initially, focus on attempting all easy questions and later on pick the difficult ones. By this way, your confidence will be elevated and you will also get more time to answer hard questions.
