Transcendental Arguments in Moral Theory -
Jens Peter Brune 2017-03-20
Since Barry Stroud's classic paper in 1968,

the general discussion on transcendental arguments tends to focus on examples from theoretical philosophy. It also tends to be pessimistic, or at least extremely reluctant, about the potential of this kind of arguments. Nevertheless, transcendental reasoning continues to play a prominent role in some recent approaches to moral philosophy. Moreover, some authors argue that transcendental arguments may be more promising in moral philosophy than they are in theoretical contexts. Against this background, the current volume focuses on transcendental arguments in practical philosophy. Experts from different countries and branches of philosophy share their views about whether there are actually differences between “theoretical” and “practical” uses of transcendental arguments. They examine and compare different versions of transcendental arguments in moral philosophy, explain their

structure, and assess their respective problems and promises. This book offers all those interested in ethics, meta-ethics, or epistemology a more comprehensive understanding of transcendental arguments. It also provides them with new insights into uses of transcendental reasoning in moral philosophy.

Hegel's India - Aakash Singh Rathore 2017
Presenting all of Hegel's writings on and about India, this work shows how much effort Hegel expended on what he ultimately characterised merely as fantastic, subjective, wild, dreamy, frenzied, absurd, and repetitive. If Indian art, religion, and philosophy, are so grossly inadequate, what explains his life-long fascination in this unparalleled way? This reinterpretation of Hegel argues that Indian thought haunted Hegel, representing a sort of nemesis to his own philosophy.

The SAGE Handbook of Media and Migration

- Kevin Smets 2019-10-31

Migration moves people, ideas and things. Migration shakes up political scenes and instigates new social movements. It redraws emotional landscapes and reshapes social networks, with traditional and digital media enabling, representing, and shaping the processes, relationships and people on the move. The deep entanglement of media and migration expands across the fields of political, cultural and social life. For example, migration is increasingly digitally tracked and surveilled, and national and international policy-making draws on data on migrant movement, anticipated movement, and biometrics to maintain a sense of control over the mobilities of humans and things. Also, social imaginaries are constituted in highly mediated environments where information and emotions on migration are constantly shared on social and traditional media. Both,

those migrating and those receiving them, turn to media and communicative practices to learn how to make sense of migration and to manage fears and desires associated with cross-border mobility in an increasingly porous but also controlled and divided world. The SAGE Handbook of Media and Migration offers a comprehensive overview of media and migration through new research, as well as a review of present scholarship in this expanding and promising field. It explores key interdisciplinary concepts and methodologies, and how these are challenged by new realities and the links between contemporary migration patterns and its use of mediated processes. Although primarily grounded in media and communication studies, the Handbook builds on research in the fields of sociology, anthropology, political science, urban studies, science and technology studies, human rights, development studies, and

gender and sexuality studies, to bring to the forefront key theories, concepts and methodological approaches to the study of the movement of people. In seven parts, the Handbook dissects important areas of cross-disciplinary and generational discourse for graduate students, early career researcher, migration management practitioners, and academics in the fields of media and migration studies, international development, communication studies, and the wider social science discipline. Part One: Keywords and Legacies Part Two: Methodologies Part Three: Communities Part Four: Representations Part Five: Borders and Rights Part Six: Spatialities Part Seven: Conflicts

Codification of Statements on Standards for Accounting and Review Services, Numbers 21 - 25 - AICPA 2020-07-15

This book provides the requirements for performing engagements in accordance with

Statements on Standards for Accounting and Review Services (SSARS). This updated edition includes the authoritative standards and interpretations applicable to preparation, compilation, and review engagements. The guidance and related interpretations will help you apply the standards in specific circumstances. The codification also clearly shows amendments, deleted or superseded content, and conforming changes due to the issuance of other authoritative guidance. The codification contains all SSARSs, including SSARS No. 21, which is now effective, through SSARS No. 25, Materiality in a Review of Financial Statements and Adverse Conclusions. SSARS No. 25 further converges AR-C section 90 with International Standard on Review Engagements (ISRE) 2400 (Revised), Engagements to Review Historical Financial Statements, and minimizes differences with

the auditing standards regarding concepts that are consistent regardless of the level of service performed on the financial statements.

Multiple and Intersecting Identities in Qualitative Research - Betty Merchant 2000-11

This book extends the current discourse on the role of cultural knowledge in qualitative research, especially research conducted by women of color within their own community. Each author reports on her attempts to conceptualize herself as a researcher while simultaneously trying to honor her cultural connectedness and knowledge. As women researchers analyzing the personal and professional contexts in which their research was conducted, the authors argue that their gender, race, religion, and status have played critical roles in their research agendas. They offer a female perspective, though not a feminist critique per se, for

they believe that gender does play a significant role in their research efforts. Equally important, they explore the role that race has played in their research, whether as women of color or white women conducting research among people of color. In reflecting on how their unique positionality allows them to understand relationships across many boundaries, the authors observe how, in most cases, because of their position as women and/or people of color, they have not had some of the traditional problems associated with access to multicultural sites. However, they have encountered other issues and they share how, as researchers, they met and resolved these issues for their particular settings. Each author also discusses how, in addressing these issues, she labored to meet the standards of academia, often at a personal cost. This book challenges existing paradigms by questioning the assumption of

objectivity in research. It is essential reading--informative, provocative, and engaging--for researchers and students in research methods, women's studies, critical theory, and cross-cultural studies.

[A Kingdom in Crisis](#) - Andrew MacGregor Marshall 2015-11-15

'Perhaps the best introduction yet to the roots of Thailand's present political impasse. A brilliant book.' Simon Long, *The Economist* Struggling to emerge from a despotic past, and convulsed by an intractable conflict that will determine its future, Thailand stands at a defining moment in its history. Scores have been killed on the streets of Bangkok.

Freedom of speech is routinely denied. Democracy appears increasingly distant. And many Thais fear that the death of King Bhumibol Adulyadej is expected to unleash even greater instability. Yet in spite of the impact of the crisis, and the extraordinary importance of the royal succession, they have never been comprehensively analysed – until now. Breaking Thailand's draconian lèse majesté law, Andrew MacGregor Marshall is one of the only journalists covering contemporary Thailand to tell the whole story. Marshall provides a comprehensive explanation that for the first time makes sense of the crisis, revealing the unacknowledged succession conflict that has become entangled with the struggle for democracy in Thailand.

Shifting Boundaries of Belonging and New Migration Dynamics in Europe and China - L. Pries 2013-06-28

This book explores the role that boundary

making plays in creating a societal understanding of current migration dynamics and, by extension, in legitimising migration regimes. By comparing most recent developments in Europe and China, it reveals insights on convergent social and political practices of boundary making under divergent conditions.

The European Value System - Jadwiga Koralewicz 1999

Ponderings VII-XI - Martin Heidegger
2017-02-06

Through these broad and sprawling notebooks, Heidegger offers fascinating opinions on Holderlin, Nietzsche, Wagner, Wittgenstein, Pascal, and many others. The importance of the Black Notebooks transcends Heidegger's relationship with National Socialism. These personal notebooks contain reflections on technology, art, Christianity, the history of

philosophy, and Heidegger's attempt to move beyond that history into another beginning.

The Roots of Respect - Giovanni Giorgini
2017-04-10

Despite the increasing concern for the issue of respect for persons displayed over the last decades by political philosophers, human-right thinkers, social and ethical theorists, a comprehensive treatment of the problem at stake from a historical-philosophical perspective is conspicuously absent. The present collection of essays aims to contribute to the fulfillment of this gap by offering a reconstruction of the seminal passages in the history of philosophy which testify to the evolution of the idea of respect for persons and the rich array of conceptual specifications that such an idea acquires across the centuries. By analysis of pivotal texts of ancient and modern contemporary philosophy, the

volume will try to offer an articulated account of respect which, starting from its primeval connection with the search for esteem and the pursuit of human excellence, gradually evolves towards the recognition of the political status of each citizen and culminates into a true politics of human rights. Bringing together the expertise of classicists and scholars specialized in modern and contemporary philosophy, the volume is especially intended for scholars working in the fields of the history of philosophy, ethical and political theory.

Historical Dialogue Analysis - Andreas H. Jucker 1999-07-15

Historical dialogue analysis is a new branch of historical pragmatics. The papers of this interdisciplinary volume contribute to charting the developing field by presenting a survey of recent research from the different traditions of English, German and Romance language studies. Both the introductory paper by the editors and the individual papers deal with fundamental theoretical questions, e.g. the question of types of historical developments in dialogue forms, and methodological problems, e.g. the finding and interpretation of relevant data. The fifteen case studies presented in

this volume provide a wide range of new data. The range of topics includes the pragmatic form of 16th century religious controversies in Germany, forms of polite answers in Early Modern German conversation culture, forms of dialogue in Early Modern English medical writing, learning English through dialogues in the 16th century, structures of bargaining dialogues in Late Medieval French, and reflections of spontaneous dialogue in Early Romance texts.

Experiments in Ethics - Kwame Anthony Appiah 2010-03-30

In the past few decades, scientists of human nature—including experimental and cognitive psychologists, neuroscientists, evolutionary theorists, and behavioral economists—have explored the way we arrive at moral judgments. They have called into question commonplaces about character and offered troubling explanations

for various moral intuitions. Research like this may help explain what, in fact, we do and feel. But can it tell us what we ought to do or feel? In *Experiments in Ethics*, the philosopher Kwame Anthony Appiah explores how the new empirical moral psychology relates to the age-old project of philosophical ethics. Some moral theorists hold that the realm of morality must be autonomous of the sciences; others maintain that science undermines the authority of moral reasons. Appiah elaborates a vision of naturalism that resists both temptations. He traces an intellectual genealogy of the burgeoning discipline of "experimental philosophy," provides a balanced, lucid account of the work being done in this controversial and increasingly influential field, and offers a fresh way of thinking about ethics in the classical tradition. Appiah urges that the relation between empirical research and morality,

now so often antagonistic, should be seen in terms of dialogue, not contest. And he shows how experimental philosophy, far from being something new, is actually as old as philosophy itself. Beyond illuminating debates about the connection between psychology and ethics, intuition and theory, his book helps us to rethink the very nature of the philosophical enterprise.

Portals to the Past and to the Future - Jürgen Seefeldt 2003

Naw Much of a Talker - Pedro Lenz
2013-08-12

Known only as 'the goalie', the novel's narrator is always taking the blame. He's just been released from jail, having kept schtum during a drugs bust at his local pub. The goalie is a sucker for a good story, he lives and breathes them, is forever telling stories to himself and anyone who'll listen. He returns to his hometown broke, falling in

love with Regi, a barmaid. On a trip together to Spain, to hook up with his shady mates, Regi realises that this obsession with storytelling has its downsides, the goalie all too ready to believe the yarns his so-called friends spin. Naw Much of a Talker is a charming, hilarious tour through the goalie's anecdotes. Storytelling is his way of avoiding problems and conflict, his crowning achievement and tragic flaw. Regi concludes that it isn't a woman the goalie needs, but an audience. Inspired by a six month residency in Glasgow, Pedro Lenz harnesses his considerable powers as a performer and oral storyteller in this powerful and unforgettable celebration of the rhythms and musicality of the spoken word.

Democracy and Civil War in Spain

1931-1939 - Martin Blinkhorn 2008-02-20

In the 1930s Spain underwent a period of intense and bloody upheaval that culminated in three years of civil war and the triumph of the Nationalist rebels under General Franco. Hundreds of thousands of Spanish - and non-Spanish - people died in their struggle against what was seen as the greatest evil of the time: fascism and its commitment to the defeat of democracy. Fifty years on, with the coming of a new democracy to Spain, previously inaccessible research materials have become available to historians; old orthodoxies have been challenged and the continuing debate concerning the origins of the Spanish Civil

War has been lively. In the light of this renewed interest Martin Blinkhorn has provided a lucid and readable introduction to events in Spain in the 1930s.

Russian Dissenters - Frederick Cornwallis Conybeare 1921

Overcoming School Refusal - Joanne Garfi 2018-01-31

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her

experiences and expertise are available in this easy-to-read practical book.

Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school.

Areas covered include:

- types of school refusers
- why children refuse to go to school
- symptoms
- short term and long term consequences
- accurate assessment
- treatment options
- what parents can do
- what schools can do
- dealing with anxious high achievers
- how to help children on the autism spectrum with school refusal

Islamic Organizations in Europe and the USA - M. Kortmann 2013-11-08

This volume explores the variety of forms, strategies and practices of Islamic organizations in Europe and the United States. It focuses on the reactions of organized Muslims at local, national, and

transnational levels to the on-going debates on their integration into society and the structures of state-church relations.

The Austrian Mind - William M. Johnston 2023-09-01

Part One of this book shows how bureaucracy sustained the Habsburg Empire while inciting economists, legal theorists, and socialists to urge reform. Part Two examines how Vienna's coffeehouses, theaters, and concert halls stimulated creativity together with complacency. Part Three explores the fin-de-siecle world view known as Viennese Impressionism. Interacting with positivistic science, this reverence for the ephemeral inspired such pioneers as Mach, Wittgenstein, Buber, and Freud. Part Four describes the vision of an ordered cosmos which flourished among Germans in Bohemia. Their philosophers cultivated a Leibnizian faith whose eventual collapse haunted Kafka and Mahler. Part

Five explains how in Hungary wishful thinking reinforced a political activism rare elsewhere in Habsburg domains. Engage intellectuals like Lukacs and Mannheim systematized the sociology of knowledge, while two other Hungarians, Herzl and Nordau, initiated political Zionism. Part Six investigates certain attributes that have permeated Austrian thought, such as hostility to technology and delight in polar opposites.

Under Two Flags - Ouida 1871

Colonial Cambodia's 'Bad Frenchmen' - Gregor Muller 2006-04-07

Colonial Cambodia's "Bad Frenchmen" provides a captivating analysis of the gradual establishment of French colonialism in the late nineteenth century. Drawing on new materials from French, Vietnamese and Cambodian archives, it reconstructs a time during which France struggled to give

meaning and substance to its Protectorate over Cambodia. It traces the lives of failed colonists – most notably Thomas Caramen, who all constituted a challenge to the colonial enterprise by muddling its social, cultural and racial boundaries. In its consideration of the critical role played by these colonists, this compelling book shifts away from governor-generals, grand discourses and the simple view of colonialism as ‘colonizers’ versus ‘colonized’, to explore how things actually worked themselves out on the ground. It examines in particular the 'civilizing mission' and educational initiatives; the slow destruction of the indigenous justice system; the policing of sexual relations between colonisers and colonized; the theft of Cambodian land and taxes by the colonizing power; and the brutal repression of resistance wherever and whenever it appeared. Overall, Muller reveals the crucial

role played by indigenous middlemen and marginal Europeans in the rise of the colonial state, and tells the fascinating tale of a Frenchman who came to represent everything that the colonial state dreaded.

Lied und Populäre Kultur - Song and Popular Culture - Max Matter 2008

Global social work - Carolyn Noble, 2014-06-30

Global social work: crossing borders, blurring boundaries is a collection of ideas, debates and reflections on key issues concerning social work as a global

profession, such as its theory, its curricula, its practice, its professional identity; its concern with human rights and social activism, and its future directions. Apart from emphasising the complexities of working and talking about social work across borders and cultures, the volume focuses on the curricula of social work programs from as many regions as possible to showcase what is being taught in various cultural, sociopolitical and regional contexts. Exploring the similarities and differences in social work education across many countries of the Americas, Asia, Europe and the Pacific, the book provides a reference point for moving the current social work discourse towards understanding the local and global context in its broader significance.

Commodifying Marxism - Kasian Tēchaphīra 2001

In this study of the formation of modern Thai radical culture, Tejapira reveals a process of

cultural and political interaction which results in a mutual transformation of exogenous Marxism/communism and indigenous Thai culture. The study draws on data from a number of primary and secondary sources, including memoirs from and interviews with leftist intellectuals, contemporary radical publications, and a number of unpublished Masters' dissertations in the Thai language. The book traces the introduction of Sino-Vietnamese Marxism/communism into Siam during the absolute monarchy in the late 1920s until the late 1950s when, under the military regime, it emerges as a particularly Thai cultural phenomenon. The exogenous ethnic character of the early Siamese communist movement made it an easy target for the conservative nationalist/royalist ideology of Thai-ness and socialism had been pre-judged as utopian even before its actual arrival in Thailand. After the fall of the

absolute monarchy in 1932, both the lookjin communists (lookjin refers to Thai-born people of Chinese descent) and the left-wing People's Party tried separately to overcome this double-layered cultural resistance to radical ideas, but with only partial success. But the Japanese invasion and the resultant Phibun-Japanese alliance during the Second World War provided both groups with an opportunity to create a popular underground resistance movement and to earn a legitimate and legal foothold in the Thai policy after the War. Marxism/communism entered the post-war Thai cultural market in the form of printed commodities, whose demand, supply and reproduction ebbed and flowed with the volatile and violent tide of international and domestic events during the subsequent decade. More specifically, it was paradoxically diffused but dissolved by capitalist publishing, censored yet promoted by anti-communist authoritarian regimes,

and confined to but freed in prisons. Through this process emerged a substantial group of (primarily) ethnic Thai radical intellectuals who proceeded to translate Marxism/communism into the Thai language and rhyming verse.

Contemporary Germany - Derek R. Lewis
2001-10-25

Studying German? Spending a year abroad in Germany? Or maybe going to work there? Then you'll need this handbook to contemporary Germany and the German language. Packed with essential information on politics, the economy and institutions, it

covers the basics that are taken for granted by most Germans. Intended for readers without specialist knowledge in any of the subjects covered, this is an invaluable handbook for English-speaking students of German. Each chapter contains a German/English glossary giving guidance on the use of specialist terms in context. Covering German history, politics, the economy, education, the media and the state, the handbook provides a vast amount of information especially geared to student needs.
