Sensory Panel Management - Lauren Rogers
2017-10-26

Covering all aspects of sensory panel management, this volume describes the different types of sensory panels (for example panels for quality control, descriptive analysis and discrimination

tests), discusses the issues involved with sensory testing, and gives detailed information about sensory panel recruitment, training and on-going management. Sensory Panel Management gives both theoretical and practical information from deciding what type of

panel to recruit and how to conduct panel training, to creating the best sensory team and how to deal with any issues. Downloads of several of the documents included in the book are available from <http://www.laurenrogers.com/sensory-panel-management.html> The book is divided into three main sections. The first section looks at the recruitment of sensory panels, covering the process from both a scientific and a human resources angle. The second section deals with the training of a sensory panel. Initial training, as well as method and product specific training is covered. Example session plans for running panel sessions for quality control, discrimination tests, descriptive profiling, temporal methods and consumer tests are included within the specific chapters. Refresher and advanced training such as training panelists to take part in gas chromatography-olfactometry are also included. The third

section examines the performance of sensory panels. Chapters within this section explore performance measures and ways of preventing (and dealing with) difficult situations relating to panellists. A final chapter looks at the future of sensory panels. Throughout the book there are short case study examples demonstrating the practical application of the methods being discussed. Sensory Panel Management is a key reference for academics, technical and sensory staff in food companies. Lauren Rogers is an independent sensory science consultant in the UK with more than twenty years of practical experience. She has worked on a wide variety of projects, including shelf life studies, product and flavor optimization, new flavor development and in-depth brand analyses. She is a member of the Society of Sensory Professionals, the Institute of Food Science and Technology's Sensory Science Group,

the Sensometric Society and is also a member of the ASTM Sensory Evaluation Committee (E18). Discusses sensory panels for testing food and non-food based products Covers best practices for recruitment, selection and training of panels Provides examples of training plans for sensory panels Encompasses experimental design and data analysis of panel results Organized in modular format for practical uses

How to pass the APC - Austen Imber
2013-11-05

Graduates undertaking the RICS Assessment of Professional Competence (APC) often find that, in addition to the general information provided by the RICS, guidance is needed on specific areas of their work as general practice surveyors. *How to Pass the APC: Essential Advice for General Practice Surveyors* has been built around the needs of general practice surveyors, and guides you through the APC process in line with your own competencies - including valuation, marketing, landlord and tenant, estate management, rating, and planning and development work, together with more specialist areas. The author highlights the essentials, showing you how to approach the presentation and interview, providing a bank of examples of real APC questions, together with illustrative responses to demonstrate how the interview process works. Accessible and easy to use, this book gives you comprehensive coverage of the

fundamental elements and is a must read for anyone taking the APC.

Human Development and Capacity

Building - Maria Fay Rola-Rubzen

2016-02-05

Capacity building looks at developing the infrastructure, institutions and people and is critical to the development and participation of humans in the economy and society.

Capacity building ranges from schools, roads and hospitals through to health and welfare systems, education, communication and information sharing, participation and voice, governance and opportunity. This book aims to outline the nature and scale of the capacity building challenges facing countries in the Asia Pacific region. Human Development and Capacity Building presents case studies from selected countries with an emphasis on rural development and programs that enhance

opportunity and participation in the economy. It focuses on issues arising from women development in Pakistan, indigenous union voice in the French Pacific, job creation programs in Indonesia and the role of international aid and labour agencies in capacity building in Myanmar. The rich coverage will be of invaluable use to those interested in capacity building.
