National Geographic Kids Ultimate Weatherpedia - Stephanie Drimmer 2019

"The most complete weather reference ever."

[Explore Weather and Climate!](#) - Kathleen M Reilly 2012-01-01

What's it like outside? And what are you going to do about it? Every morning, before heading to school or out to play, kids want to know what the weather is going to be like that day. Is it a day for building a snowman, constructing a sandcastle, or planting a garden? Will they be stuck inside because of rain at recess? Or stuck at home because of snow? And what about tomorrow? [Explore Weather and Climate!](#) will help kids understand the "how" and "why" behind the "what." They'll learn how wind, sun, and water combine to form the weather we experience every day. They'll find out why the weather gets extreme. [Explore Weather and Climate!](#) offers engaging text reinforced with 25 hands on projects that include creating a storm in a bottle, touching the clouds, and eating an edible climate map, resulting in an unforgettable understanding of these forces of nature.

National Geographic Little Kids First Big Book of Weather - Karen de Seve 2017-03-14

How does a rainbow form? What causes it to snow? What makes the wind blow? This adorable reference book introduces young children to every aspect of weather and answers the questions curious kids want to know! Always an important topic for young kids, they'll learn how all the various types of weather systems work, from droughts and deserts to snowflakes and blizzards. Stories are accompanied by 100 colorful photos that capture the awe and wonder of our natural world. This charming book is sure to capture kids' imaginations and become a favorite at storytime, bedtime, and anytime.

Storms - Miriam Busch Goin 2018-01-01

There are many kinds of storms, and they can be scary, but this overview helps readers understand how and why they happen—and shows the importance of weather in different parts of the world and out-of-this world on other planets!

Expl on Your Own All Kinds of Snow - David Moore 2009-08-18

[Explore on Your Own: All Kinds of Snow](#)

Planet Earth Collection - Miriam Busch 2014

Collects four books about planet Earth, covering storms, weather, rocks and minerals, and volcanoes.

How Are Rain, Snow, and Hail Alike? - Ellen Lawrence 2012-01-01

Discusses the similarities and differences between the forms of precipitation: rain, snow, and hail.

[Natural Disasters](#) - Kathleen M Reilly 2012-11-28

When natural disasters happen they grab headlines around the world. People, creatures, and the environment are all impacted when nature gets out of control. Natural disasters can be upsetting to live through, but scientists today better understand their causes and how we can protect ourselves and others. [Natural Disasters: Investigate Earth's Most Destructive Forces with 25 Projects](#) teaches readers about some of the natural disasters throughout history, what caused them, their impact on civilizations, and how people today cope with natural disasters. Readers of this book will make their own shake tables, create a cake batter lava flow, invent a wind tunnel, and experiment with avalanches. These hands-on activities engage readers and add depth to the text while ensuring that the learning is made lasting and fun.

Little Kids First Big Book of the World - Elizabeth Carney 2015

This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song in Spanish. More than 100 colorful photos are paired with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time.

Don't Smile! - Pam Holden 2006

Do you like to play outside? Sometimes the weather stops us from doing what we want to do. We can't play outside on rainy days. When we feel disappointed it is hard to smile and be cheerful. Poor Sam was very grumpy when he had to stay inside. Reading Level 9/F&P Level F [Everything: Volcanoes and Earthquakes](#) - National Geographic Kids 2018-05-03

Packed with facts and tantalising anecdotes from experts and bursting with colour photographs, learn all about volcanoes and earthquakes in this fresh take on the subject that kids with love. It's time to learn everything about volcanoes and earthquakes! Each book in the National Geographic Kids Everything series has more than 100 pictures, an explorer's corner with from-the-field anecdotes and tips, fun facts throughout, maps and infographics, an illustrated diagram, a photo gallery, cool comparisons, a behind-the-scenes photograph, an interactive glossary, and more.

[Volcanoes!](#) - Anne Schreiber 2008

The cool story of volcanoes will intrigue kids and adults alike. Hot melted rock from the middle of our planet forces its way up through cracks in the Earth's crusts, exploding violently and sometimes unexpectedly in volcanic fury that can terrorize populations for months, even years. Anne Schreiber's narrative gives readers a little of the science, a little of the history, and a lot of the action. National Geographic photography fires the imagination on dramatic spreads alive with vivid images of lava, ash, molten rock, weird rocks, and steaming seawater.

Weather - Kristin Baird Rattini 2018-09

[Predators Collection](#) - National Geographic 2013

Some have enormous teeth, others the deadly skill to catch their prey without making a sound! National Geographic Kids brings readers some of their favorite deadly and carnivorous animals in one convenient package with National Geographic Readers: Predators Collection. Howling wolves, chomping sharks, sneaky spiders, and toothy tigers all have the need to feed, and have developed amazing ways to catch their prey. Fascinating animal information is accompanied by wonderful photographs to ensure that kids' natural curiosity is both satisfied AND inspired.

National Geographic Readers: Weather - Kristin Baird Rattini 2013-07-09

What causes thunder and lightning? How do different clouds form? What makes a tornado twist? Kids will discover the answers to these questions and more in this colorful, photo-packed book. In this inviting and entertaining format, kids will discover what causes the weather they experience every day. This Level 1 reader is written in an easy-to-grasp style to encourage the meteorologists of tomorrow!

Emily Included - Kathleen McDonnell 2011-10-15

The true story of Emily Eaton. Born with severe cerebral palsy, Emily and her family had to fight for her right to go to school with non-disabled children in a regular classroom. Their fight, which began at a time when children with CP were segregated, was groundbreaking. Unwilling to take no for an answer, Emily's fight would take her all the way to the Supreme Court. Eventually victorious, Emily's story makes her an amazing role model for children everywhere - whether they are living with a disability or not.

[Storms](#) - Miriam Busch Goin 2017-10-02

National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts.
