Summer Bridge Explorations prepares your first-grade graduate for second grade through progressive lessons and project-based learning. This dynamic workbook strengthens cross-curricular skills with a

focus on beginning math, phonics, and comprehension. Summer Bridge Explorations makes learning last. With this dynamic series, students entering grades 1 to 4 prepare for the new year through project-based learning. Grade-level workbooks are divided into three progressive sections, one for each month of summer, and each of these sections is built around a theme-based activity that connects real-world learning with summer fun. Your child will keep learning alive by applying new skills in fun ways, all while enjoying everything summer has to offer. Lessons and activities span the curriculum, supporting growth in math, reading, writing, social studies, science, and the arts.
