He walks through paths made from the twisted branches of olive, makes his bed in a holly oak, bathes in a fountain constructed from poplar bark. An aerial library holds the books with which he educates himself in philosophy and mathematics. Suspended among the leaves, the Baron adventures with bandits and pirates, conducts a passionate love affair, and watches the Age of Enlightenment pass by beneath him. [Football: The First Hundred Years](#) - Adrian Harvey 2013-05-13

The story of the creation of Britain's national game has often been told. According to the accepted wisdom, the refined football games created by English public schools in the 1860s subsequently became the sports of the masses. *Football, The First Hundred Years*, provides a revisionist history of the game, challenging previously widely-accepted beliefs. Harvey argues that established football history does not correspond with the facts. Football, as played by the 'masses' prior to the adoption of the public school codes is almost always portrayed as wild and barbaric. This view may require considerable modification in the light of Harvey's research. *Football's First One Hundred Years* provides a very detailed picture of the football played outside the confines of the public schools, revealing a culture that was every bit as sophisticated and influential as that found within their prestigious walls. *Football, The First Hundred Years* sets forth a completely revisionist thesis, offering a different perspective on almost every aspect of the established history of the formative years of the game. The book will be of great interest to sports historians and football enthusiasts alike.

Asylums - Erving Goffman 2017-09-08

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue—the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

Erunt qui voluptates laudent, erunt qui labores malint; erunt qui dolorem maximum malum dicant, erunt qui ne malum quidem appellent; divitias aliquis ad summum bonum admittet, alius illas dicet malo vitae humanae repertas, nihil esse eo locupletius, cui quod donet fortuna non invenit. In tanta iudiciorum diversitate referendum bene merentibus gratiam omnes tibi uno, quod aiunt, ore adfirmabunt. In hoc tam discors turba consentiet; cum interim iniurias pro beneficiis reddimus, et prima causa est, cur quis ingratus sit, si satis 32 gratus esse non potuit. Eo perductus est furor, ut periculosissima res sit beneficia in aliquem magna conferre; nam quia putat turpe non reddere, non vult esse, cui reddat. Tibi habe, quod accepisti; we should take counsel regarding them, not with their reputation but with their nature; those things possess no grandeur wherewith to enthral our minds, except the fact that we have become accustomed to marvel at them. For they are not praised because they ought to be desired, but they are desired because they have been praised; and when the error of individuals has once created error on the part of the public, then the public error goes on creating error on the part of individuals. But just as we take on faith such estimates of values, so let us take on the faith of the people this truth, that nothing is more honourable than a grateful heart. This phrase will be echoed by all cities, and by all races, even those from savage countries. Upon this point good and bad will agree. Some praise pleasure, some prefer toil; some say that pain is the greatest of evils, some say it is no evil at all; some will include riches in the Supreme Good, others will say that their discovery meant harm to...

Voicing the Word - Marina Spunta 2004

Drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary Italian fiction, providing a fresh perspective on this rich and fast-developing debate and on the study of the Italian literary language. The book brings together a number of complementary approaches to orality from the fields of linguistics, literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades - ranging from internationally acclaimed writers such as Celati, Duranti and Tabucchi, through De Luca and Baricco, to the latest generation of writers, such as Campo, Ballestra and Nove. By exploring the complementary facets of Italian orality, and its diachronical developments since the seventies, this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible, cross-modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations.

Vulnerability as generativity - Cristiana Ottaviano

2018-04-10T00:00:00+02:00

This book focuses on parenthood and generativity, considered not only a set of biological functions, but as human and socio-cultural capabilities above and beyond gender differences. The authors reconsider in particular the institution of motherhood, emphasizing the historical and social function of women. Alongside a reflection on the gender role of women as mothers and wives, this volume explores male identities and fatherhood. While claiming that parenthood and care are human characteristics - and not just gendered or female attributes - the authors suggest the adoption of a gynanic perspective on inter-gender relationships.

Montaigne & Melancholy - Michael Andrew Screech 2000

Montaigne (1533-1592), the personification of philosophical calm, had to struggle to become the wise Renaissance humanist we know. His balanced temperament, sanguine and melancholic, promised genius but threatened madness. When he started his *Essays*, Montaigne was upset by an attack of melancholy humor: He became temperamental and

unbalanced. Writing about himself restored the balance but broke an age-old taboo--happily so, for he discovered profound truths about himself and about our human condition. His charm and humor have made his writings widely enjoyed and admired.

Amphoteroglossia - Panagiotis Roilos 2005

This work offers the first systematic and interdisciplinary study of the poetics of the twelfth-century medieval Greek novel. This book

investigates the complex ways in which rhetorical theory and practice constructed the overarching cultural aesthetics that conditioned the production and reception of the genre of the novel in twelfth-century Byzantine society. By examining the indigenous rhetorical concept of *amphoteroglossia*, this book probes unexplored aspects of the re-inscription of inherited allegorical, comic, and rhetorical modes in the Komnenian novels, and offers new methodological directions for the study of Byzantine secular literature in its cultural complexities. The creative re-appropriation of the established generic conventions of the ancient Greek novel by the medieval Greek novelists, it is argued in this wide-ranging study, has invested these works with a dynamic dialogism. In this book, Roilos shows that this interdiscursivity functions on two pivotal axes: on the paradigmatic axis of previously sanctioned ancient Greek and--less evidently but equally significantly--Christian literature, and on the syntagmatic axis of allusions to the broader twelfth-century Byzantine cultural context.

Stop Saying You're Fine - Mel Robbins 2011-05-10

This hands-on guide from Mel Robbins, one of America's top relationship experts and radio/tv personalities, addresses why over 100 million Americans secretly feel frustrated and bored with their lives and reveals what you can do about it. Mel Robbins has spent her career teaching people how to push past their self-imposed limits to get what they truly desire. She has an in-depth understanding of the psychological and social factors that repeatedly hold you back, and more important, a unique set of tools for getting you where you want to be. In *Stop Saying You're Fine*, she draws on neuroscientific research, interviews with countless everyday people, and ideas she's tested in her own life to show what works and what doesn't. The key, she explains, is understanding how your own brain works against you. Because evolution has biased your mental gears against taking action, what you need are techniques to outsmart yourself. That may sound impossible, but Mel has created a remarkably effective method to help you do just that--and some of her discoveries will astonish you. By ignoring how you feel and seizing small moments of rich possibility--a process she calls “leaning in”--you can make tiny course directions add up to huge change. Among this book's other topics: how everything can depend on not hitting the “snooze” button; the science of connecting with other people, what children can teach us about getting things done; and why five seconds is the maximum time you should wait before acting on a great idea. Blending warmth, humor and unflinching honesty with up-to-the-minute science and hard-earned wisdom, *Stop Saying You're Fine* moves beyond the platitudes and easy fixes offered in many self-help books. Mel's insights will actually help vault you to a better life, ensuring that the next time someone asks how you're doing, you can truthfully answer, “Absolutely great.”

Fundamentals of Legal Argumentation - Eveline T. Feteris 2017-07-10

This book is an updated and revised edition of *Fundamentals of Legal Argumentation* published in 1999. It discusses new developments that have taken place in the past 15 years in research of legal argumentation, legal justification and legal interpretation, as well as the implications of these new developments for the theory of legal argumentation. Almost every chapter has been revised and updated, and the chapters include discussions of recent studies, major additions on topical issues, new perspectives, and new developments in several theoretical areas. Examples of these additions are discussions of recent developments in such areas as Habermas' theory, MacCormick's theory, Alexy's theory, Artificial Intelligence and law, and the pragma-dialectical theory of legal argumentation. Furthermore it provides an extensive and systematic overview of approaches and studies of legal argumentation in the context of legal justification in various legal systems and countries that have been important for the development of research of legal argumentation. The book contains a discussion of influential theories that conceive the law and legal justification as argumentative activity. From different disciplinary and theoretical angles it addresses such topics as the institutional characteristics of the law and the relation between general standards for moral discussions and legal standards such as the Rule of Law. It discusses patterns of legal justification in the context of different types of problems in the application of the law and it describes rules for rational legal discussions. The combination of the sound basis of the first edition and the discussions of new developments make this new edition an up-to-date and comprehensive survey of the various theoretical influences which have informed the study of legal argumentation. It discusses salient backgrounds to this field as well as major approaches and trends in the contemporary research. It surveys the relevant theoretical factors both from various continental law traditions and

common law countries.

The homily of Zār'a Ya'eqob's Māshafā Berhan on the rite of Baptism and religious instruction: Translation - Zare'a Ya'eqob (Negus of Ethiopia) 2013

The text in this volume (with its translation) is from the writings of Emperor Zar'a Ya'eqob, the prolific scholar who reformed the Ethiopian Orthodox Church in the fifteenth century. In this homily, which is part of his previously published Mashafa Berhan "Book of Light" (see CSCO vols. 250/Script. Aeth. 47 and 261/Script. Aeth. 51), he addresses in detail the ritual of Christian baptism and the requirement of religious instruction for the baptized faithful as well as the would-be baptized catechumens. The ritual for adults is discussed and defined with thoroughness and clarity not found in any other source. Significantly, the text suggests that there was at that time a large number of non-Christians who converted to Orthodox Christianity, either of their own free will or due to pressure from Christian rulers, including the Emperor. As always, Zar'a Ya'eqob uses his authority to enforce religious instruction as he details it. He prescribes harsh corporal punishment, usually flogging, to individuals who do not attend school without acceptable excuses—which are illness and going on military expeditions— as well as to clergy who neglect their duty to teach and to district rulers who do not force people to come to school. A close study of the homily sheds some interesting light on the history of Ethiopic literature. For example, the extensive quotation from Acts is not from the text we now know. This detail corroborates what is known that the book was translated anew after the time of Zar'a Ya'eqob. A second example is Zar'a Ya'eqob's quotation of John Chrysostom. That he quotes from his homily in the *Apophtegmata Patrum* shows that this source was well known in Ethiopia prior to the fifteenth century.

Interpretive Autoethnography - Norman K. Denzin 2013-10-24

"It is time to chart a new course", writes Norman K. Denzin in *Interpretive Autoethnography, Second Edition*. "I want to turn the traditional life story, biographical project into an interpretive autoethnographic project, into a critical, performative practice, a practice that begins with the biography of the writer and moves outward to culture, discourse, history, and ideology." Drawing on C. Wright Mills, Sartre, and Derrida, Denzin lays out the key assumptions, terms, and parameters of autoethnography, provides a guide to using and studying personal experience, and considers the dilemmas and political implications of textualizing a life. He weaves his narrative through family stories, and concludes with thoughts concerning a performance-centered pedagogy and the directions, concerns, and challenges for autoethnography.

Christ and the Just Society in the Thought of Augustine - Robert Dodaro 2004-11-25

Christ and the Just Society in the Thought of Augustine is a study of Augustine's political thought and ethics in relation to his theology. The book examines fundamental issues in Augustine's theological and political ethics in relation to the question, 'How did Augustine conceive the just society'? At the heart of the book's approach is the relationship that Augustine outlines in his *City of God* and other writings between Christ and those believers who acknowledge him to be the only source of the soul's virtue. The book demonstrates how Augustine sees Christ's grace and the scriptures contributing to the soul's growth in virtue, especially as these issues are framed by the Pelagian controversy. Finally, the implications which Augustine sees for Christ's mediation of virtue are examined in relation to his revision of the ancient concepts of heroism and the statesman.

The Life and Work of Sigmund Freud - Ernest Jones 2019-08-09

Ernest Jones's three-volume *The Life and Work of Sigmund Freud* was first published in the mid-1950s. This edited and abridged volume omits the portions of the trilogy that dealt principally with the technical aspects of Freud's work and is designed for the lay reader. Jones portrays Freud's childhood and adolescence; the excitement and trials of his four-year engagement to Martha Bernays; his early experiments with hypnotism and cocaine; the slow rise of his reputation and constant battles against distortion and slander; the painful defections of close associates; the years of international eminence; the onset of cancer and his stoicism in the face of an agonizing death. "One of the outstanding biographies of the age... It gives us an unmatched — and unretouched — portrait of Freud as a human being." — *The New York Times* "The definitive life of Freud and one of the great biographies of our time... Charged with intellectual excitement, it is a chronicle of heroic struggle and adventurous discovery." — *The Atlantic* "A landmark of literature, a remarkable appreciation of one of the remarkable spirits of the modern age." — *Scientific American* "Superb drama... Dr. Jones has managed to illuminate some obscure corners of Freud's first years with a thoroughness that would have astonished, and might well have dismayed, the reticent and august Freud." — *The New Yorker* "A masterpiece of contemporary biography... The letters are also a fascinating guide to the man. From them emerges suddenly a tough, jealous, ferocious figure." — *Time*
