"This book is intended to drive home the fundamental ideas of managerial accounting and motivate students to actually want to study the subject. As you will see, the text has a number of unique features that help accomplish these goals. Based on my teaching experience and from what we have heard from professors using the previous editions, we believe students and professors want a textbook that: Recognizes that most students will become managers, not accountants Focuses attention on decision making Stresses the fact that "You Get What You Measure" Motivates students to learn managerial accounting by connecting concepts and techniques to the real world Recognizes the importance of service businesses Is clear, concise and current"

This resource presents the key accounting concepts that managers must know in order to make informed decisions. The fourth edition includes expanded Incremental Measurement and You Get What You Measure sections in each chapter. These hallmark features help them focus on real issues. New demo problems have been added as well to show how the concepts are applied. The end-of-chapter problems and Links to Practice sections have been revised and updated to connect the techniques to the business world. Case studies also enable managers to gain critical and applied thinking skills that are especially important

in today's competitive environment.
