Interchange Manual

1950-1965 - F. D. Harper

2012-02-03

This Cadillac parts interchange manual has been designed to help you in the purchase and identification of original equipment parts. It will save many hours of time locating the parts you need. With this manual you will know exactly what parts from which GM vehicles are identical. There may be no need to pay a high price for a supposedly rare part when it may be identical to many other vehicles parts. Many parts interchange between different years, makes and models. For example a part from a 53 Pontiac may be the same as for a 55 Cadillac or a part from a 65 Chevy Impala may be the same as a part for 64 Buick. This manual may not only save you money, it could be a great reference source for your restoration project. It includes a model identification chart, engine identification information, serial number charts, original factory part numbers, for certain parts it includes casting numbers, and

more. The manual is broken down by the major groups listed below and each of these groups is further broken down into specific parts. For example under the body group it lists everything from bumpers to window regulators. Below are the groups and a sample of what is included in each group. Axle group Shafts, housing, gears, etc. Bearing group Pinion, wheel, etc. Body group Fenders, grilles, doors, bumpers, etc. Brake group Drums, master cylinders, shoes, etc. Clutch group Cover, disc, etc. Cooling group Radiator, water pump, etc. Electrical group Alternator, horn, distributor, wiper motors, etc. Engine group Camshaft, crankshafts, heads, manifolds, etc. (covers 6 cylinder up to the 430) Fuel group Carburetors, fuel pumps, tanks, etc. Suspension group Springs, shocks, tie rods, etc. Transmission group Complete transmissions, gears, shaft, etc. Glass group Windshield, back window, vent, door Wheel group Hubs, wheels This manual covers: Cadillac: 60, 61, 62, 63, 75, Brougham, Calais, Deville,

CONCISE CAR The rubrics of CAR are similar to other Cognitive Apprenticeship Methodologys: Watch It Do It Know It. CARs unique power to facilitate recovery is derived by adding the ingredients of The Way of Analogy and The Concept of The Singular. You might want to start by first reading Chapter 5 in Bingo: The chairs fixed, relax and sit in it as a way to preempt any confusion about how The Way of Analogy is being used in Relationship Associations. Here is the traditional (Thomas Aquinas) Way of Analogy: Red is Red: and yet a horse is Red, with a horsey Redness. CAR melds this with The Concept of the Singular [i.e. Remember

Philosophy 101. The Universal Chair of the Greeks was the perfect chair; then came the Particular chair (Lounge Chairs); then came the Singular chair (your Dads old Morris chair with the cigar burns on the right arm)] to get its synergism. CAR is a Singular Analogous Relationship Driven Recovery modality and as such, less easily defined than experienced. CAR methodology is already at work within you even before you start to read these books. You already know (you are ultimately aware) that you are within the answer. The Good News is you are in Recovery now! This is proclaimed at the beginning of all three books. The first step in the acquisition of wisdom is silence, the second listening, the third memory, the fourth practice, the fifth teaching others. Reference Librarianship - Peter Sprenkle 2013-04-03

A daily diary of actual interactions between a reference desk librarian and his patrons Reference Librarianship documents a year in the life of a young librarian working in the “trenches” at a library in the Midwestern United States. This one-of-a-kind book provides a daily diary of every librarian/patron transaction—no matter how mundane or absurd—to demonstrate not only how advances in

technology have affected the reference librarian’s job, but how the public’s expectations have changed, as well. The book also includes observations by a now-retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades, the job of reference librarian has seen many changes. But in many ways, reference desk work hasn’t changed a bit, with its mix of odd, humorous, routine, and ridiculous requests that capture what it’s like to deal with patrons day after day. Reference Librarianship paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners, and reminds library administrators of what life was like on the “front lines.” A sampling of the daily transactions documented in Reference Librarianship: Monday, May 19, 2003: pencil pencil network down I tell people that I can’t sign them up for an Internet terminal because the network is down

and they just stand there, staring into space One of them asks for three days worth of newspapers microfiche machine explanation Sorry, Sir, the network is still down (multiply by twenty and insert randomly into the remainder of the day) magic tricks, but he pretty much knew where they were One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise, like a crystal waterfall landing on soil. “Books on prostitution, you know—whores?” Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious—with good reason. “Math puzzles.” Okay. I show him the books. “Just math.” Certainly. I show him the books. “I need them in Spanish.” Grrr ... Reference Librarianship is an enlightening, educational, and entertaining look at the real world of reference desk work. It’s an essential read for reference librarians (both public and academic), library administrators, and library

school students, as well as anyone who works with the public.
