Lease of Goods - Kare
Lilleholt 2007-01-01
The contract for lease of
goods is well known in
practical life. Short-time
leases of cars, to both
businesses and consumers,
are perhaps the most
striking example, but
contracts for temporary use
of another person's goods in
exchange for rent are
common for a wide range of
products, like industrial
equipment, office machines,
leisure boats, sports gear,
etc. Long-term leases are
often chosen as an
alternative to other forms of
acquisition of goods
("financial leases"). This
book presents a set of
Principles of European law
on lease contracts within the
framework of the Study
Group on a European Civil

Code. The Principles are
closely co-ordinated with
other parts of what will
become the Draft Common
Frame of Reference for
European contract law,
prepared for the European
Commission by several pan-
European research teams
co-operating in a network of
excellence under the sixth
Research Framework
Programme. The Principles
are accompanied by
explanatory comments and
comparative notes
containing information on
lease law for 27 European
countries as well as on
relevant international
instruments. Thus, the book
is a source to knowledge on
existing law, in addition to
being a contribution to the
analysis of the interplay
between general contract
law and the law of specific
contracts as well as to the
discussion of future
European private law.

The Effects of Financial
Crises on the Binding Force
of Contracts - Renegotiation,
Rescission or Revision -

Başak Başoğlu 2016-02-25
This book is about one of the most controversial dilemmas of contract law: whether or not the unexpected change of circumstances due to the effects of financial crises may under certain conditions be taken into account. Growing interconnectedness of global economies facilitates the spread of the effects of the financial crises. Financial crises cause severe difficulties for persons to fulfill their contractual obligations. During the financial crises, performance of contractual obligations may become excessively onerous or may cause an excessive loss for one of the contracting parties and consequently destroy the contractual equilibrium and legitimate the governmental interventions. Uncomfortable economic climate leads to one of the most controversial dilemmas of the contract law: whether the binding force of the contract is absolute or not.

In other words, unstable economic circumstances impose the need to devote special attention to review and perhaps to narrow the binding nature of a contract. Principle of good faith and fair dealing motivate a variety of theoretical bases in order to overcome the legal consequences of financial crises. In this book, all these theoretical bases are analyzed with special focus on the available remedies, namely renegotiation, rescission or revision and the circumstances which enables the revocation of these remedies. The book collects the 19 national reports and the general report originally presented in the session regarding the Effects of Financial Crises on the Binding Force of Contracts: Renegotiation, Rescission or Revision during the XIXth congress of the International Academy of Comparative Law, held in Vienna, July 2014.
