Braided Creek - Ted Kooser 2023-08-22

In her loving Foreword to this expanded anniversary edition, Naomi Shihab Nye writes “Braided Creek: A Conversation in Poetry is one of the dearest, most appealing books ever published. These poems are tiny delicious American haiku affectionately exchanged between two friends... This slim volume acts as a

palate-cleanser, a spirit-booster, a little rocket-ship of wonders.” While Ted Kooser and Jim Harrison were an unlikely pair to become friends, they shared an intimate correspondence of handwritten letters that often included new poems. After Kooser was diagnosed with cancer, Harrison sensed his friend’s poetry becoming “overwhelmingly vivid,” and their friendship deepened through the exchange of brief poems that captured “the essence of what [they] wanted to say to each other.” After hundreds of poems were sent back and forth through the mail, they found this volume hidden within the stacks of envelopes and postcards. In her loving Foreword to this expanded anniversary edition, Naomi Shihab Nye writes “Braided Creek: A Conversation in Poetry is one of the dearest, most

appealing books ever published. These poems are tiny delicious American haiku affectionately exchanged between two friends... This slim volume acts as a palate-cleanser, a spirit-booster, a little rocket-ship of wonders." Wise, wry, and penetrating, these epigrammatic, aphoristic poems explore love and friendship, pausing to celebrate the natural world, aging, everyday things and scenes, and poetry itself. This expanded edition includes a dozen new poems, and when asked why none of the poems have attributions, one of the co-authors replied, "This book is an assertion in favor of poetry and against credentials."

Alphaherpesviruses - Sandra Knowles Weller 2011

Alphaherpesviruses are a fascinating group of DNA viruses that includes important human pathogens such as herpes simplex virus type 1 (HSV-1), HSV-2, and varicella-zoster virus (VZV): the causative agents of cold sores, genital ulcerous disease, and chickenpox/shingles, respectively. A key attribute of these viruses is their ability to establish lifelong latent infection in the peripheral nervous system of the host. Such persistence requires subversion of the host's immune system and intrinsic antiviral defense mechanisms. Understanding the mechanisms of the immune evasion and what triggers viral reactivation is a major challenge for today's researchers. This has prompted

enormous research efforts into understanding the molecular and cellular biology of these viruses. This up-to-date and comprehensive volume aims to distill the most important research in this area providing a timely overview of the field. Topics covered include: transcriptional regulation, DNA replication, translational control, virus entry and capsid assembly, the role of microRNAs in infection and oncolytic vectors for cancer therapy. In addition there is coverage of virus-host interactions, including apoptosis, subversion of host protein quality control and DNA damage response pathways, autophagy, establishment and reactivation from latency, interferon responses, immunity and vaccine development. Essential reading for everyone

working with alphaherpesviruses and of interest to all virologists working on latent infections.

Trip Trap - Jack Kerouac 1973

This newly-revised edition-originally published in 1973-of the haiku Jack Kerouac, Albert Saijo, and Lew Welch jotted down on the road from San Francisco to New York in 1959, are dense, earthy incarnations of life on the road: "A coral colored Cadillac/ in Texas/ Threw gravel all over us,/ our beat jeep/ -Our windshield is nicked/ but our eyes/ are/ CLEAR..." Albert recounts their November trip in Lew's Jeepster, making the big city scene, visiting Jack's home in Northport on Long Island, and the long drive back west. The book also includes letters to Kerouac from Lew Welch in Reno.

1998-11-08

Ptolemy's Almagest is one of the most influential scientific works in history. A masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the

great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.

Lysistrata - Aristophanes 2019-10-23
Lysistrata is an ancient Greek comedy by Aristophanes, originally performed in classical Athens in 411 BC. Bean Spasms - Ted Berrigan 2012
Out of print for more than 40 years, Bean Spasms is a facsimille of a classic New York School collaboration between poets Ted Berrigan and Ron Padgett, with further writings,

illustrations and cover by artist and writer Joe Brainard Ted Berrigan, Joe Brainard and Ron Padgett's Bean Spasms is the defining publication of the 1960s literary/Pop scene in New York. Originally published in 1967 by Kulchur Press in an edition of 1,000, and out of print for more than 40 years, Bean Spasms is a book many have heard about but relatively few have seen, and which--until now--has been consequently shrouded in legend. The text is comprised of collaborations between poets Ted Berrigan and Ron Padgett, with further writings, illustrations and cover by artist and writer Joe Brainard. The three began collaborating in 1960, and kept a folder of their works titled "Lyrical Bullets" (a humorous homage to the well-known collaboration between

Coleridge and Wordsworth, Lyrical Ballads). As Ron Padgett describes, in his introduction to this new facsimile edition, their collaborations included "plays, a fictitious correspondence, a picaresque novel, goofy interviews and poems of various types and lengths, as well as mistranslations and parodies of each other's work and the work of others." Poet friends dropping by during writing sessions would also add lines, and although Berrigan and Padgett also contributed visuals, and Brainard contributed texts, all works in the book were intentionally left unattributed. Full of wild wit and joy in experimentation, competition and collaboration, Bean Spasms is a classic document of the New York School.

Aseptolin - Cyrus Edson 1896

The Nibelungenlied - 2023-01-07
The Nibelungenlied, translated as The Song of the Nibelungs, is an epic poem in Middle High German. The story tells of dragon-slayer Siegfried at the court of the Burgundians, how he was murdered, and of his wife Kriemhild's revenge. The Nibelungenlied is based on pre-Christian Germanic heroic motifs (the "Nibelungensaga"), which include oral traditions and reports based on historic events and individuals of the 5th and 6th centuries. Old Norse parallels of the legend survive in the Völsunga saga, the Prose Edda, the Poetic Edda, the Legend of Nornagest, and the þiðrekssaga. In 2009, the three main manuscripts of the Nibelungenlied were inscribed in

UNESCO's Memory of the World Register in recognition of their historical significance.

Ligeia - Edgar Allan Poe 2020-08-26
From time immemorial, men have trembled and withered before the power of the femme fatale. "Ligeia" is a story about a man, whose meeting with a strange, beautiful, and overly intellectual woman in an old city borders on the supernatural and even further into the realms of the unknown. Touching upon subjects like forbidden knowledge and bizarre beauty, Poe's story serves as an example of what awaits men who are easily led astray and then lost in the labyrinthine vistas of female beauty. Famous movie adaptations include Alfred Hitchcock's "Vertigo" (1958) and Roger Corman's "The Tomb of Ligeia" (1964). Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories,

and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).

Tri/via - Michelle Naka Pierce 2003
Poetry. "This book is a delight. That poetry can blast binaries to smithereens and follow the road of three (or more) is demonstrated with intelligence, wit and humor. The

intellectual erotics of this epistolary conversation are magnified by an eros of metamorphic, hi-lo linguistic and gender-genre play. TRI / VIA is a collaborative act of love with its light and dark forces registered through a languagescape of ancient to contemporary lit, philosophy, science, mathematics, even the ubiquitous culture of the questionnaire. It continually surprises!"--Joan Retallack.

The Biopolitics of Gender - Jemima Repo 2016

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive

subjects of White, middle-class postwar America.

Loudmouth - Robert Duncan 2020-10-06

The Collected Poems of Ted Berrigan -
Ted Berrigan 2007-03-21

"Comfortably intimate--classically adroit in its formal wit and invention--altogether unique yet in no way excluding, this meticulously edited edition of a master poet's collected works gives us the defining

bridge from the 'New American Poetry' of the '50s to that poetry now contemporary on both coasts and in all conditions. No one ever recognized the people with whom he lived more particularly than did Ted Berrigan, and no one ever brought them home to a reader with such unaggressive and persistent power. This is a great, great book for all seasons of the mind and heart."--Robert Creeley "Ted Berrigan was a leader of the New York School; his crazy energy embodied that movement and the city itself. It is wonderful to have his Collected Poems in print."--John Ashbery "A comprehensive and carefully chronicled volume that puts Ted Berrigan in historical context as one of the most influential poets of his generation. His poems: deft, light,

definitely humorous, irreverent, poignant, 'marvelous and tough.' The truth doing its work, 'the great man doing the ordinary thing,' with a quick ear and a quick tongue, revealing the personal in the universal. He gives you his full attention—'about to be born again thinking of you.' "—Joanne Kyger "In a life devoted to experimental art, Ted Berrigan shaped his poetry and the space he occupied with a bold artistry based on his playful but powerfully skeptical view of the world. He wondered what might actually be captured within the pages of a book, but *The Collected Poems* allows us to again enjoy Ted Berrigan's delightfully demanding presence."—Lorenzo Thomas "A singular balance of personal-historical vision and sentiment both sweet and sour,

developed within the fractured verbalism of the late twentieth century found lyric, creates in Ted Berrigan's poems the unique colors of a particularly lived (and still intensely living) ensemble of moments."—Tom Clark, author of *Late Returns: A Memoir of Ted Berrigan* "Some people are just more real than others. I don't know another way to say it. Ted Berrigan is totally real and he has fashioned an important sound for all of us to listen to. He put it all together just before everyone else in his time, our time, got going. America is lucky to count him as one of its great poets."—Peter Gizzi

Fletcherism, What It Is - Horace Fletcher 2008-03

Horace Fletcher, an American health-food advocate of the Victorian era,

earned the nickname ""The Great Masticator"" through his advocacy that food needed to be chewed thirty-two times before being swallowed. At the age of 58, he conducted a series of strength and endurance experiments at the Yale Gymnasium versus college athletes which claimed that Fletcher could outperform these athletes. Fletcher also had a great interest in human excreta, believing that it evidenced one's true nutrition. He also advocated for a low-protein diet as a means of health and well-being. Through this 1913 volume Fletcher explains his theories of health and well-being and how, you too, can become a Fletcherite.

Affective Health and Masculinities in South Africa - Hans Reihling
2020-04-24

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism

rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in

the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health. *A Historical Grammar of the French Tongue* - Auguste Brachet 1869
