Krakow Melt (Large Print 16pt) - Daniel Allen Cox 2010-11

This second novel by Lambda Literary Award finalist Daniel Allen Cox (Shuck) is an incendiary story about two pyromaniacs who fight homophobia in Krakow, Poland, one of the fronts of the Solidarnosc revolution that eventually toppled the Berlin Wall in 1989. It's 2005, and Poland is grappling with its newfound role as a member of the European Union; the nation dips into moral crisis as

Pope John Paul II (a Pole) hovers near death while the country's soon-to-be president makes homophobic declarations. Radek, a bisexual artist and a practitioner of the extreme urban sport parkour, is convinced that fire is the great stabilizer. While creating miniature replicas of the world's great infernos? Chicago 1871, San Francisco 1906, London 1666?he meets Dorota, a literature student and budding pyromaniac. Driven by rage, sexual curiosity for one another, and Pink Floyd, they buck church, government, and the LGBT community to find sexual freedom, escaping their enemies by scaling the crumbling walls and ideas of the city. Provocative and unnerving, Krakow Melt is at once a love letter and a fiery call to arms.

Blueprints - Barbara Delinsky 2015-06-09

AN UPLIFTING, HEART-WRENCHING STORY OF THE UNBREAKABLE TIES BETWEEN A MOTHER AND HER DAUGHTER FROM NEW YORK TIMES BESTSELLING AUTHOR BARBARA DELINSKY 'Fans of Jodie Picoult will love this.' Daily Express 'Warm, rich, textured and impossible to put down.' Nora Roberts On paper, Jamie MacAfee's life is perfect. She loves her fiancée, she's happy with her plans for the future and she gets to work alongside her beloved mother, Caroline, on their family home renovation show. In reality, she can't seem to make herself set a wedding date and an ageist, sexist decision by their TV network has thrown both her job and her relationship with Caroline into jeopardy. Meanwhile Caroline, who has been painfully putting herself back together after a difficult divorce, is watching the plans she's built her life around go up in flames. As loyalties shift and new relationships tempt, Jamie and Caroline will be tested as never before. Yet when all is said and done, there's nothing quite like the bond of family. 'A poignant family story.' Daily Express 'Compelling reading' The Sun 'Delinsky's writing is fluid and makes for a hard-to-put-down book.' Glamour

The Glass Castle - Jeannette Walls 2010-02-04

Now a major motion picture starring Brie Larson, Naomi Watts and

Woody Harrelson. This is a startling memoir of a successful journalist's journey from the deserted and dusty mining towns of the American Southwest, to an antique filled apartment on Park Avenue. Jeannette Walls narrates her nomadic and adventurous childhood with her dreaming, 'brilliant' but alcoholic parents. At the age of seventeen she escapes on a Greyhound bus to New York with her older sister; her younger siblings follow later. After pursuing the education and civilisation her parents sought to escape, Jeannette eventually succeeds in her quest for the 'mundane, middle class existence' she had always craved. In her apartment, overlooked by 'a portrait of someone else's ancestor' she recounts poignant remembered images of star watching with her father, juxtaposed with recollections of irregular meals, accidents and police-car chases and reveals her complex feelings of shame, guilt, pity and pride toward her parents.

A Certain Age - Rudolf Mrázek 2009-01-01

A Certain Age is an unconventional, evocative work of history and a moving reflection on memory, modernity, space, time, and the limitations of traditional historical narratives. Rudolf Mrázek visited Indonesia throughout the 1990s, recording lengthy interviews with elderly intellectuals in and around Jakarta. With few exceptions, they were part of an urban elite born under colonial rule and educated at Dutch schools. From the early twentieth century, through the late colonial era, the national revolution, and well into independence after 1945, these intellectuals injected their ideas of modernity, progress, and freedom into local and national discussion. When Mrázek began his interviews, he expected to discuss phenomena such as the transition from colonialism to postcolonialism. His interviewees, however, wanted to share more personal recollections. Mrázek illuminates their stories of the past with evocative depictions of their late-twentieth-century surroundings. He brings to bear insights from thinkers including Walter Benjamin, Bertold Brecht, Le Corbusier, and Marcel Proust, and from his youth in Prague, another metropolis with its own

experience of passages and revolution. Architectural and spatial tropes organize the book. Thresholds, windowsills, and sidewalks come to seem more apt as descriptors of historical transitions than colonial and postcolonial, or modern and postmodern. Asphalt roads, homes, classrooms, fences, and windows organize movement, perceptions, and selves in relation to others. A Certain Age is a portal into questions about how the past informs the present and how historical accounts are inevitably partial and incomplete.

Mini Weapons of Mass Destruction - John Austin 2017

We've come a long way from the Peashooter Era: with the advent of modern household products and office supplies - foldback clips, clothespins, rubber bands, ballpoint pens, toothpicks, paper clips and plastic utensils - the everyday junk drawer can hold all the materials needed to create pocket-sized weaponry. Whether you're slowing dying of boredom in a stuffy office, plotting revenge on your older siblings or simply looking for a wonderful way to kill some time, this book is for you. Toy designer John Austin provides detailed, step-by-step instructions for each project, including materials and ammo lists, clear pictures, and construction tips, for mayhem-loving MacGyvers. The 35 devices include catapults, slingshots, darts, crossbows, and combustion shooters. Build a tiny

trebuchet from paper clips and a D-cell battery. Wrap a penny in a string of paper caps to create a surprisingly impressive "bomb." Several of the projects even include variations where combatants mount laser pointer sights to their shooters to increase their accuracy. The instructions are simple so that anyone can make these wacky innovations in minutes whilst also learning about mechanics and physics in a fun, hands-on way.

How a House Is Built - Theresa Emminizer 2020-07-15

Although they may seem commonplace, in truth houses are amazing feats of engineering. In order to build a house, a large team of specialized workers must labor together seamlessly. Who operates the heavy machinery required for construction? What are the duties and skills of a contractor, carpenter, mason, or electrician? What makes the walls and ceiling stand, and how does the roof keep the rain out? Readers will take an eye-opening look at home construction, learning what houses are made of and who builds them. The process is engagingly summarized in the steps of building a house.

The Tallest Tree House - Elly MacKay 2019-04-23

From esteemed author-illustrator Elly MacKay comes a magical fantasy tale about the importance of working as a team and being a good friend. Mip and Pip are two fairies who live in a beautiful forest near a waterfall. One day, Mip has a brilliant idea to build a tree house and decides to make it into a contest: whoever can build the tallest tree house the fastest wins! Pip, who is much more thoughtful and a planner, reads about architecture and sketches out blueprints while Mip, the speedster, is already halfway done constructing her house. But when a powerful gust of wind threatens Mip's tree house and Pip's safety, the two friends must learn to appreciate each other's talents to save the day-and to build the tallest tree house in the forest.

The Power of Moments - Chip Heath 2017-10-03

The New York Times bestselling authors of *Switch* and *Made to Stick* explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why “we feel most comfortable when things are certain, but we feel most alive when they’re not.” And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world’s youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable moments to chance when we can create them? *The Power of Moments* shows us how to be the author of richer experiences.

Red Sky at Night - Elly Mackay 2018-05-01

A memorable collection of weather sayings, beautifully arranged in story form and illustrated by renowned paper artist Elly MacKay. Red sky at night, sailor's delight. And, the next morning, when the dew is on the grass, no rain will come to pass. These are the perfect conditions for a grandfather to take his grandchildren out

on a fishing trip. Especially since, as the saying goes, when the wind is from the West, then the fishes bite the best. The family takes a boat out on the lake, fishing and swimming and eventually camping out on a nearby island, taking full advantage of the gorgeous weather. But the next day . . . red sky in the morning, sailors take warning! The family ventures back home just in time to avoid a rainstorm. But not to worry -- the more rain, the more rest. Fair weather's not always best. Acclaimed paper artist Elly MacKay illustrates a lovely family narrative through the use of weather aphorisms, creating a beautiful and informational story which will appeal to children's timeless fascination with the natural world.

The Importance of Wood and Timber in Sustainable Buildings - Ali Sayigh 2021-09-13

This book emphasizes the important message that architects and structural engineers must strive to ensure that the buildings they design and construct should not be major contributors to climate change. Rather, they should be exploring the use of green materials and building methods – such as timber, wood, and associated materials – in order to safeguard the environment. These sustainable materials are not only environmentally friendly, but they have the added benefit of being easy to manufacture, cost effective, often locally available, and easily replenished. Moreover, it has been demonstrated that wood and timber are viable materials in the construction of a wide variety of building types, including medium and high-rise buildings. The Importance of Wood and Timber in Sustainable Buildings brings together a distinguished group of contributors from different cultures and building traditions to address why now is the time to rethink our construction methods and explore replacing many of the carbon intensive materials that are currently being used with wood and timber.

Ice Cream Social - Brad Edmondson 2014-01-06

The Riveting True Story of One Of the World's Most Iconic Mission-Driven Companies Ben & Jerry's has always been committed to an insanely ambitious three-part mission: making the world's best ice cream, supporting progressive causes, and sharing the company's success with all stakeholders: employees, suppliers, distributors, customers, cows, everybody. But it hasn't been easy. This is the first book to tell the full, inside story of the inspiring rise, tragic mistakes, devastating fall, determined recovery, and ongoing renewal of one of the most iconic mission-driven companies in the world. No previous book has focused so intently on the challenges presented by staying true to that mission. No other book has explained how the company came to be sold to corporate giant Unilever or how that relationship evolved to allow Ben & Jerry's to pursue its mission on a much larger stage. Journalist Brad Edmondson tells the story with an eye for details, dramatic moments, and memorable characters. He interviewed dozens of key figures, particularly Jeff Furman, who helped Ben and Jerry write their first business plan in 1978 and became chairman of the board in 2010. It's a funny, sad, surprising, and ultimately hopeful story.

If I Built a School - Chris Van Dusen 2019-08-13

In this exuberant companion to *If I Built a Car*, a boy fantasizes about his dream school--from classroom to cafeteria to library to playground. My school will amaze you. My school will astound. By far the most fabulous school to be found! Perfectly planned and impeccably clean. On a scale, 1 to 10, it's more like 15! And

learning is fun in a place that's fun, too. If Jack built a school, there would be hover desks and pop-up textbooks, skydiving wind tunnels and a trampoline basketball court in the gym, a robo-chef to serve lunch in the cafeteria, field trips to Mars, and a whole lot more. The inventive boy who described his ideal car and house in previous books is dreaming even bigger this time.

When You Wonder, You're Learning - Gregg Behr 2021-04-20
With lessons from Mister Rogers' Neighborhood and examples from the acclaimed education network Remake Learning, this book brings Mister Rogers into the digital age, helping parents and teachers raise creative, curious, caring kids. Authors Gregg Behr and Ryan Rydzewski know there's more to Mister Rogers than his trademark cardigan sweaters. To them, Mister Rogers' Neighborhood isn't just a children's program — it's a proven blueprint for raising happier, healthier kids. As young people grapple with constant reminders that the world isn't always kind, parents and teachers can look to Fred Rogers: an ingenious scientist and legendary caregiver who was decades ahead of his time. When You Wonder, You're Learning reveals this never-before-seen side of America's favorite neighbor, exploring how Rogers nurtured the "tools for learning" now deemed essential for school, work, and life. These tools can boost academic performance, social-emotional well-being, and even physical health. They cost almost nothing to develop, and they're up to ten times more predictive of children's success than test scores. No wonder it's been called "a must-read for anyone who cares about children." With insights from thinkers, scientists, and teachers — many of whom worked with Rogers himself — When You Wonder, You're Learning helps kids and the people who care for them do what Rogers taught best: become the best of whoever they are.

Flexible Housing - Jeremy Till 2016-09-19

Flexible housing is housing that can adjust to the changing needs of the user and accommodate new technologies as they emerge. *Flexible Housing* by Jeremy Till and Tatjana Schneider examines the past, present and future of this important subject through over 160 international examples.
