Three Questions - Al Khidr 2016-10-23

The Arabs at the time of Muhammad wanted to know if he was a true Prophet or not. They asked him three questions to test him. The Authentic Hadith tell us exactly under what circumstances these questions were asked and what these three questions were. The questions and the answers that Muhammad gave are in the Quran. The Quran clearly mentions - they ask you 'such and such question' - say 'so an so' and gives the answers. This book reveals in a unique way what the questions are, what answers are given in the Quran and what the circumstances must have been when the answers were given. How are the Three Questions relevant to Jihad in modern times? Read this book to find out.

The Work of Repair - Thomas Cousins 2023-06-06

In the timber plantations in northeastern South Africa, laborers work long hours among tall, swaying lines of eucalypts, on land once theirs. In 2008, at the height of the HIV/AIDS crisis, timber corporations distributed hot cooked meals as a nutrition intervention to bolster falling productivity and profits. But life and sustenance are about much more than calories and machinic bodies. What is at stake is the nurturing of capacity across all domains of life—physical, relational, cosmological—in the form of amandla. An Nguni word meaning power, strength or capacity, amandla organizes ordinary concerns with one's abilities to earn a wage, to strengthen one's body, and to take care of others; it describes the potency of medicines and sexual vitality; and it captures a history of anti-colonial and anti-apartheid struggle for freedom. The ordinary actions coordinated by and directed at amandla do not obscure the wounding effects of plantation labor or the long history of racial oppression, but rather form the basis of what the Algerian artist Kader Attia calls repair. In this captivating ethnography, Cousins examines how amandla, as the primary material of the work of repair, anchors ordinary scenes of living and working in and around the plantations. As a space of exploitation that enables the global paper and packaging industry to extract labor power, the plantation depends on the availability of creative action in ordinary life to capitalize on bodily capacity. The Work of Repair is a fine-grained exploration of the relationships between laborers in the timber plantations of KwaZulu-Natal, and the historical decompositions and reinventions of the milieu of those livelihoods and lives. Offering a fresh approach to the existential, ethical and political stakes of ethnography from and of late liberal South Africa, the book attends to urgent questions of postapartheid life: the fate of employment; the role of the state in providing welfare and access to treatment; the regulation of popular curatives; the queering of kinship; and the future of custom and its territories. Through detailed descriptions, Cousins explicates the important and fragile techniques that constitute the work of repair: the effort to augment one's capacity in a way that draws on, acknowledges, and reimagines the wounds of history, keeping open the possibility of a future through and with others.
