Asset Recovery Handbook - Jean-Pierre Brun 2021-02-08
Developing countries lose billions each year through bribery, misappropriation of funds, and other corrupt practices. Much of the proceeds of this corruption find 'safe haven' in the world's financial centers. These criminal flows are a drain on social services and economic development programs, contributing to the impoverishment of the world's poorest countries. Many developing countries have already sought to recover stolen assets. A number of successful high-profile cases with creative international cooperation has demonstrated that asset recovery is possible. However, it is highly complex, involving coordination and collaboration with domestic agencies and ministries in multiple jurisdictions, as well as the capacity to trace and secure assets and pursue various legal options—whether criminal confiscation, non-conviction based confiscation, civil actions, or other alternatives. This process can be overwhelming for even the most experienced practitioners. It is exceptionally difficult for those working in the context of failed states, widespread corruption, or limited resources. With this in mind, the Stolen Asset Recovery (StAR) Initiative has developed and updated this **Asset Recovery Handbook: A Guide for Practitioners** to assist those grappling with the strategic, organizational, investigative, and legal challenges of recovering stolen assets. A practitioner-led project, the Handbook provides common approaches to recovering stolen assets located in foreign jurisdictions, identifies the challenges that practitioners are likely to encounter, and introduces good practices. It includes examples of tools that can be used by practitioners, such as sample intelligence reports, applications for court orders, and mutual legal assistance requests. StAR—the Stolen Asset Recovery Initiative—is a partnership between the World Bank Group and the United Nations Office on Drugs and Crime that supports international efforts to end safe havens for corrupt funds. StAR works with developing countries and financial centers to prevent the laundering of the proceeds of corruption and to facilitate more systematic and timely return of stolen assets.

Elements of Pronunciation - Colin Mortimer 1985-03-07
Elements of Pronunciation provides intensive and enjoyable practice in features of English pronunciation that intermediate and more advanced students usually find difficult. The clever and convincing dialogues concentrate on stress timing, weak forms, contractions, linking and consonant clusters, as well as providing valuable intonation practice. The dialogues are recorded in the following form: a 'listen-and-repeat' section, then a recording of the dialogue at natural speed, and then a version with pauses to allow intensive practice. The material can be used in the classroom, in the language laboratory and by a student working alone with a cassette recorder. This book is accompanied by a set of four cassettes.

Consumer and SME Credit Law - Nora Beausang 2021-12-16. With 2000+ pages of guidance, this important new textbook provides an extensive and in-depth guide to the current labyrinthine regulatory regime relating to consumer and SME credit (by way of cash loans) and protection generally, including the Consumer Protection Code, the Consumer Credit Act (housing loans and non-housing loans), the EU Consumer Credit Regulations, the EU Mortgage Credit Regulations and the Central Bank Housing Loan Regulations. Other lending-related conduct of business requirements are also covered in detail, including the Code of Conduct on Mortgage Arrears, the

Lending to SME Regulations, the Code on Related Parties Lending and the Credit Reporting Act, together with applicable EBA/ECB Guidelines dealing with loan origination, product oversight and governance, non-performing exposures/loans and arrears. The regulated activities triggering authorisation as a retail credit firm or credit servicing firm are also addressed in detail. The book additionally extends beyond lending to have application to the wider business of regulated firms in the financial services arena, dealing in detail with issues including the general principles and requirements of the Consumer Protection Code, the fitness and probity regime including the area of minimum competency, distance marketing requirements and other background to the regulatory regime in Ireland including the increased regulatory focus on the culture of regulated firms and product oversight and governance. The available redress/recourse mechanisms are also covered, including the Financial Services and Pensions Ombudsman, the Credit Review Office, the regulatory and other consequences of breach of applicable requirements and the significant risk management area for regulated firms of their customers' statutory right to redress on breach of financial services legislation. In addition, the book has relevance to professionals dealing with consumers in any contractual context including extensive treatment of how the concept of 'consumer' has developed under common law, the unfair commercial practices regime and the increasingly topical area of unfair contract terms legislation. Relevant case law of the Irish courts and other common law jurisdictions, together with an expanding corpus of decisions from the CJEU, are addressed in detail. This book's practical style is designed to assist bankers, other regulated firms, lawyers, compliance professionals and regulators in the application of a complex area. Rather than simply setting out the separate requirements, the book seeks to navigate the at times contradictory legislative and regulatory strands to give (in so far as is possible) a coherent sense of how they integrate. Much of the content is unique and cannot be found in any other publication. An essential addition to the library of every lender, practitioner and compliance and regulatory risk professional, particularly in the areas of consumer and SME credit.
