## *Democracy and Nigeria's Fourth Republic - Wale Adebaniwa 2023-09-19*

Examines Nigeria's challenges with consolidating democracy and the crisis of governance arising from structural errors of the state and the fundamental contradictions of the society in Nigeria's Fourth Republic reflect a wider crisis of democracy globally. 'Today we are taking a decisive step on the path of democracy,' the newly sworn-in President Olusegun Obasanjo told Nigerians on 27 May 1999. 'We will leave no stone unturned to ensure sustenance of democracy, because it is good for us, it is good for Africa, and it is good for the world.' Nigeria's Fourth Republic has survived longer than any of the previous three Republics, the most durable Republic in Nigeria's more than six decades of independence. At the same time, however, the country has witnessed sustained periods of violence, including violent clashes over the imposition of Sharia'h laws, insurgency in the Niger Delta, inter-ethnic clashes, and the Boko Haram insurgency. Despite these tensions of, and anxieties about, democratic viability and stability in Nigeria, has democratic rule come to stay in Africa's most populous country? Are the overall conditions of Nigerian politics, economy and socio-cultural dynamics now permanently amenable to uninterrupted democratic rule? Have all the social forces which, in the past, pressed Nigeria towards military intervention and autocratic rule resolved themselves in favour of unbroken representative government? If so, what are the factors and forces that produced this compromise and how can Nigeria's shallow democracy be sustained, deepened and strengthened? This book attempts to address these questions by exploring the various dimensions of Nigeria's Fourth Republic in a bid to understand the tensions and stresses of democratic rule in a deeply divided major African state. The contributors engage in comparative analysis of the political, economic, social challenges that Nigeria has faced in the more than two decades of the Fourth Republic and the ways in which these were resolved - or left unresolved - in a bid to ensure the survival of democratic rule. This key book that examines both the quality of Nigeria's democratic state and its international relations, and issues such as human rights and the peace infrastructure, will be invaluable in increasing our understanding of contemporary democratic experiences in the neo-liberal era in Africa.

## **Global Environmental Constitutionalism - James R. May 2015**

Reflecting a global trend, scores of countries have affirmed that their citizens are entitled to healthy air, water, and land and that their constitution should guarantee certain environmental rights. This book examines the increasing recognition that the environment

is a proper subject for protection in constitutional texts and for vindication by constitutional courts. This phenomenon, which the authors call environmental constitutionalism, represents the confluence of constitutional law, international law, human rights, and environmental law. National apex and constitutional courts are exhibiting a growing interest in environmental rights, and as courts become more aware of what their peers are doing, this momentum is likely to increase. This book explains why such provisions came into being, how they are expressed, and the extent to which they have been, and might be, enforced judicially. It is a singular resource for evaluating the content of and hope for constitutional environmental rights.

## The Constitution and Governance in Cameroon - Laura-Stella E. Enonchong 2022-04

This book provides a systematic analysis of the major structural and institutional governance mechanisms in Cameroon, critically analysing the constitutional and legislative texts on Cameroon's semi-presidential system, the electoral system, the legislature, the judiciary, the Constitutional Council and the National Commission on Human Rights and Freedoms. The author offers an assessment of the practical application of the laws regulating constitutional institutions and how they impact on governance. To lay the groundwork for the analysis, the book examines the historical, constitutional and political context of governance in Cameroon, from independence and reunification in 1960-1961, through the adoption of the 1996 Constitution, to more recent events including the current Anglophone crisis. Offering novel insights on new institutions such as the Senate and the Constitutional Council and their contribution to the democratic advancement of Cameroon, the book also provides the first critical assessment of the legislative provisions carving out a special autonomy status for the two Anglophone regions of Cameroon and considers how far these provisions go to resolve the Anglophone Problem. This book will be of interest to scholars of public law, legal history and African politics. ## **Making Constitutions in Deeply Divided Societies - Hanna Lerner 2011-05-12**

How can societies still grappling over the common values and shared vision of their state draft a democratic constitution? This is the central puzzle of Making Constitutions in Deeply Divided Societies. While most theories discuss constitution-making in the context of a moment of revolutionary change, Hanna Lerner argues that an incrementalist approach to constitution-making can enable societies riven by deep internal disagreements to either enact a written constitution or function with an unwritten one. She illustrates the process of constitution-writing in three deeply divided societies - Israel, India and Ireland - and explores the various incrementalist strategies deployed by their drafters. These include the avoidance of clear decisions, the use

of ambivalent legal language and the inclusion of contrasting provisions in the constitution. Such techniques allow the deferral of controversial choices regarding the foundational aspects of the polity to future political institutions, thus enabling the constitution to reflect a divided identity.

**Public Law and Political Change in Kenya** - Yash P. Ghai 1970

*Constitutional Negotiations* - Sumit Bisarya and Thibaut Noel 2021-04-26

Countries often amend their constitutions or enact new ones following major political events, such as the founding of newly independent states, the fall of an authoritarian regime or the end of violent conflict. Significant constitutional reform at a crucial moment is often a high-stakes process because a constitution regulates access to public power and resources among different groups. While disagreements over divisive topics are likely and even inherent to constitution-making, they may also result in a serious deadlock when stakeholders are unable to reach agreement. A prolonged deadlock can delay or even derail the whole reform process. In this context, it may be advisable to create incentives that can help parties to the negotiations overcome divergence and resolve deadlocks should they occur. This Constitution Brief focuses on strategies and mechanisms for breaking a deadlock in constitutional negotiations conducted in an environment of competitive democratic politics.

*What Should Constitutions Do?* - Ellen Frankel Paul 2011-01-31

The essays in this volume - written by prominent philosophers, political scientists and legal scholars - address the basic purposes of constitutions and their status as fundamental law. Some deal with specific constitutional provisions: they ask, for example, which branches of government should have the authority to conduct foreign policy, or how the judiciary should be organized, or what role a preamble should play in a nation's founding document. Other essays explore questions of constitutional design: they consider the advantages of a federal system of government, or the challenges of designing a constitution for a pluralistic society - or they ask what form of constitution best promotes personal liberty and economic prosperity.

*The Founders' Fortunes* - Willard Sterne Randall 2022-02-08

An illuminating financial history of the Founding Fathers, revealing how their personal finances shaped the Constitution and the new nation In 1776, upon the signing of the Declaration of Independence, the Founding Fathers concluded America's most consequential document with a curious note, pledging "our lives, our fortunes and our sacred honor." Lives and honor did indeed hang in the balance, yet just what were their fortunes? How much did the Founders stand to gain or lose through independence? And what lingering consequences did their respective financial stakes have on liberty, justice, and the fate of the fledgling United States of America? In this landmark account, historian Willard Sterne Randall investigates the private financial affairs of the Founders, illuminating like never before how and why the Revolution came about. The Founders' Fortunes uncovers how these leaders waged war, crafted a constitution, and forged a new nation influenced in part by their own financial interests. In an era where these very issues have become daily national questions, the result is a remarkable and insightful new understanding of our nation's bedrock values.

**Reviewing the Constitution** - Yash P. Ghai 2002

**Judicial Review Systems in West Africa: a Comparative Analysis** - 2016

This book compares the constitutional justice institutions in 16 West African states and analyses the diverse ways in which these institutions render justice and promote democratic development. There is no single best approach: different legal traditions tend to produce different design options. It also seeks to facilitate mutual learning and understanding among countries in the region, especially those with different legal systems, in efforts to frame a common West African system. The authors analyse a broad spectrum of issues related to constitutional justice institutions in West Africa. While navigating technical issues such as competence, composition, access, the status of judges, the authoritative power of these institutions and their relationship with other institutions, they also take a novel look at analogous institutions in pre-colonial Africa with similar functions, as well as the often-taboo subject of the control and accountability of these institutions.

**Global Parliamentary Report** - Greg Power 2012

*Constitutional Triumphs, Constitutional Disappointments* - Rosalind Dixon 2018-04-19

**Territory and Power in Constitutional Transitions** - George Anderson 2019-03-07

This collection of essays surveys the full range of challenges that territorial conflicts pose for constitution-making processes and constitutional design.

It provides seventeen in-depth case studies of countries going through periods of intense constitutional engagement in a variety of contexts: small distinct territories, bi-communal countries, highly diverse countries with many politically salient regions, and countries where territorial politics is important but secondary to other bases for political mobilization. Specific examples are drawn from Iraq, Kenya, Cyprus, Nigeria, South Africa, Sri Lanka, the UK (Scotland), Ukraine, Bolivia, India, Spain, Yemen, Nepal, Ethiopia, Indonesia (Aceh), the Philippines (Mindanao), and Bosnia-Herzegovina. While the volume draws significant normative conclusions, it is based on a realist view of the complexity of territorial and other political cleavages (the country's "political geometry"), and the power configurations that lead into periods of constitutional engagement. Thematic chapters on constitution-making processes and constitutional design draw original conclusions from the comparative analysis of the case studies and relate these to the existing literature, both in political science and comparative constitutional law. This volume is essential reading for scholars of federalism, consociational power-sharing arrangements, asymmetrical devolution, and devolution more generally. The combination of in-depth case studies and broad thematic analysis allows for analytical and normative conclusions that will be of major relevance to practitioners and advisors engaged in constitutional design.

**Legitimacy in Peacebuilding** - Franzisca Zanker  
2017-09-13

The book offers a critical analysis of legitimacy in peacebuilding, with a focus on peace negotiations and civil society participation in particular. The aim of this book is to unpack the meaning of legitimacy for the population in peacebuilding processes and the relationship this has with civil society involvement. There is a growing consensus for addressing local concerns in peacebuilding, with the aim of ensuring local ownership. Moreover, scholars have noted a relationship between civil society inclusion in peace negotiations and legitimacy. Yet, the very idea of legitimacy remains a black box. Using data from original empirical fieldwork – including over 100 semi-structured interviews and 12 focus group discussions – the book focuses on two case studies of negotiations that, respectively, ended a long civil war in Liberia in 2003 and ended the post-election violence in Kenya in 2008. It argues that civil society involvement is conceptually insufficient to show a multidimensional understanding of legitimacy. Instead, the book shows a complex picture of legitimate peace negotiations, based on outcome and participation-based characteristics with the involvement of both 'guarantors' of legitimacy and a more general civic agency which includes the general population. Through forms of participative communication, the passive audience become active stakeholders in the construction of legitimacy. This has repercussions for how we think about civil society and peacebuilding more generally. This book will be of much interest to students of peacebuilding, conflict resolution, security studies and IR in general.

**Annual Review of Constitution-Building: 2019** - Adem Abebe 2020-12-31

International IDEA's Annual Review of Constitution-Building provides a retrospective account of constitutional transitions around the world, the issues that drive them, and their implications for national and international politics. This seventh edition covers events in 2019. Because this year marks the end of a decade, the first chapter summarizes a series of discussions International IDEA held with international experts and scholars throughout the year on the evolution of constitution-building over the past 10 years. The edition also includes chapters on challenges

with sustaining constitutional pacts in Guinea and Zimbabwe; public participation in constitutional reform processes in The Gambia and Mongolia; constitutional change and subnational governance arrangements in Tobago and the Autonomous Region of Bangsamoro; the complexities of federal systems and negotiations on federal state structures in Myanmar and South Sudan; and the drawing (and redrawing) of the federal map in South Sudan and India. Writing at the mid-way point between the instant reactions of the blogosphere and academic analyses that follow several years later, the authors provide accounts of ongoing political transitions, the major constitutional issues they give rise to, and the implications of these processes for democracy, the rule of law and peace.

**Assessing Constitutional Performance** - Tom Ginsburg  
2016-08-30

This volume challenges the concept of constitutional success, a bedrock assumption of comparative constitutional scholarship.

**Politics and Ethics of the Indian Constitution** - Rajeev Bhargava 2008

Much of the germinal work on the Indian Constitution has been done by legal experts and historians. The distinctiveness of this collection of essays is its focus on the Indian Constitution from the perspective of political theory. Contributors to this volume view the Constitution either as a political or as an ethical document, reflecting configurations of power and interests or articulating a moral vision. Critically analysing the various aspects of the constitution, the essays discuss equality, freedom, citizenship, minority rights, democracy, rights, property and welfare.

**The Principle of Equality in Diverse States** - Eva Maria Belser 2021-05-25

In case studies from four continents, leading experts analyse the challenges of ensuring institutional, social and economic equality whilst respecting the competences of regions and the rights of groups.

**The 2000 Annual** - Pfeiffer and Co. Staff 1999-12-02

**Mongolia's Economic Prospects** - Matthias Helble  
2020-06-01

This publication examines Mongolia's recent economic development and outlines reforms that would help the country take advantage of its many opportunities. Mongolia is rich in natural resources and, although landlocked, is well-placed to boost trade with its two giant neighbors. The country needs to diversify its economy beyond mining, enhance economic stability, and increase employment. To maximize Mongolia's potential the government can improve macroeconomic management, enhance the skill base, and provide hard and soft infrastructure to promote trade and efficient logistics. Governance and institutional reforms are also crucial. The government will need to continue to drive reforms so that they are well implemented and deliver the intended change.

**Constitutions and Religion** - Susanna Mancini 2020-11-27

Understanding Korean Politics - Soong Hoom Kil  
2010-03-10

Presents an indispensable survey of contemporary Korean politics.

Decentralization in Ethiopia - Taye Assefa 2007

The 1991 government change in Ethiopia ushered in a centralised system of governance, aimed to bring about harmony and cooperation between different groups and to promote local self-rule. It has proceeded in two phases: 1991-2001 centred on creating and powering National/Regional Governments, termed mid-level decentralisation. Further powers were devolved in 2001 through the District Level Decentralization Program and Urban Management Program. This volume brings together studies by the Forum for Social Studies and others, with the aim of identifying knowledge gaps for further research and to generate debate on the issues in Ethiopia. The study is in two parts: a literature review seeking to document existing studies and highlight research gaps; and field work which involved a rapid assessment of eight weredas and two kifle ketemas in Addis Ababa. The other three studies are synopses of master theses submitted to the Institute of Regional and Local Development Studies of Addis Ababa University.

**Official Language Designation** - Sujit Choudhry and Erin C. Houlihan 2021-04-29

Modern constitutions typically contain a variety of provisions on language. They may designate one or more official languages, each with a different kind of legal status. Constitutions may also create language rights, usually held by minority-language speakers, granting groups and individuals the right to communicate with, and receive services from, the government in their native tongue. In systems of multi-level governance, constitutions may vest the authority to designate official language(s) for each order of government. This Primer addresses the role of language in constitutional design, and the key considerations, implications and potential challenges that arise in multilingual states. It discusses the range of claims around language as a constitutional issue, and the potential consequences of successfully addressing these claims—or failing to do so.

**Seeking Legitimacy** - Aili Mari Tripp 2019-08-08

A comparative study based on extensive fieldwork, and an original database of gender-based reforms in the Middle East and North Africa, Aili Mari Tripp analyzes why autocratic leaders in Morocco, Algeria and Tunisia adopted more extensive women's rights than their Middle Eastern counterparts.

*Democracy Without Shortcuts* - Cristina Lafont 2020-01-12

This book articulates a participatory conception of deliberative democracy that takes the democratic ideal of self-government seriously. It aims to improve citizens' democratic control and vindicate the value of citizens' participation against conceptions that threaten to undermine it. The book critically analyzes deep pluralist, epistocratic, and lottocratic conceptions of democracy. Their defenders propose various institutional 'shortcuts' to help solve problems of democratic governance such as overcoming disagreements, citizens' political ignorance, or poor-quality deliberation. However, all these shortcut proposals require citizens to blindly defer to actors over whose decisions they cannot exercise control. Implementing such proposals would therefore undermine democracy. Moreover, it seems naive to assume that a community can reach better outcomes 'faster' if it bypasses the beliefs and attitudes of its citizens.

Unfortunately, there are no 'shortcuts' to make a community better than its members. The only road to better outcomes is the long, participatory road that is taken when citizens forge a collective will by changing one another's hearts and minds. However difficult the process of justifying political decisions to one another may be, skipping it cannot get us any closer to the democratic ideal. Starting from this conviction, the book defends a conception of democracy 'without shortcuts'. This conception sheds new light on long-standing debates about the proper scope of public reason, the role of religion in politics, and the democratic legitimacy of judicial review. It also proposes new ways to unleash the democratic potential of institutional innovations such as deliberative minipublics.

*Annual Review of Constitution-Building: 2018* - Adem Abebe 2020-03-20

International IDEA's Annual Review of Constitution-Building provides a retrospective account of constitutional transitions, the issues that drive them and their implications for national and international politics. This sixth edition covers events in 2018 and includes articles on constitutional events in several regions of the world where International IDEA is active. These are loosely themed around the challenges of cooperation and coordination in constitutional politics—between majorities and minorities (in Burundi and Comoros, in Bolivia and Colombia, and in the Commonwealth Caribbean), between coalition partners in constitutional change processes (in Malaysia, the Maldives and Sri Lanka) and between external actors (in Libya, South Sudan and Yemen). Writing at the mid-way point between the instant reactions of the blogosphere and academic analyses that follow several years later, the authors provide accounts of ongoing political transitions, the major constitutional issues they give rise to and the implications of these processes for democracy, the rule of law and peace.

*Principles of Constitutional Design* - Donald S. Lutz

2006-08-28

This book is written for anyone, anywhere sitting down to write a constitution. The book is designed to be educative for even those not engaged directly in constitutional design but who would like to come to a better understanding of the nature and problems of constitutionalism and its fundamental building blocks - especially popular sovereignty and the separation of powers. Rather than a 'how-to-do-it' book that explains what to do in the sense of where one should end up, it instead explains where to begin - how to go about thinking about constitutions and constitutional design before sitting down to write anything. Still, it is possible, using the detailed indexes found in the book, to determine the level of popular sovereignty one has designed into a proposed constitution and how to balance it with an approximate, appropriate level of separation of powers to enhance long-term stability.

**Constitutional and Political History of Pakistan** - Hamid Khan 2020-04-05

It has been seven decades since the independent state of Pakistan was carved out of British India, yet the country is still in pursuit of a suitable constitutional framework. Over this period of time, no other country has experimented with so many different constitutional forms, from parliamentary democracy to presidential form of government, to outright military regimes. This book analyses constitutional development in Pakistan from its inception to present times. It provides a case-by-case account of constitution-making in Pakistan, with the inclusion of all pertinent documentation. Constitutional developments have been explained in the context of social and political events that shaped them. The book focuses on constitutional and political history, and

constitutional development concurrently. It includes a liberal humanitarian reading of the travails of lawmakers and the role of generals, judges, politicians, and bureaucrats in the implementation of law. Students of law, political science, and history, as well as lawyers, judges, and professors will find this book of particular value. Being grounded in a socio-political context, this book is also of interest to the general reader. The third edition is updated to cover the constitutional and political developments up until 2013. **A Practical Guide to Constitution Building** - Winluck Wahiu 2011

"A Practical Guide to Constitution Building provides an essential foundation for understanding constitutions and constitution building. Full of world examples of groundbreaking agreements and innovative provisions adopted during processes of constitutional change, the Guide offers a wide range of examples of how constitutions develop and how their development can establish and entrench democratic values. Beyond comparative examples, the Guide contains in-depth analysis of key components of constitutions and the forces of change that shape them. The Guide analyzes the adoption of the substantive elements of a new constitution by looking at forces for the aggregation or dissemination of governmental power, and forces for greater legalization or politicization of governmental power, and examining how these forces influence the content of the constitution. It urges practitioners to look carefully at the forces at play within their individual contexts in order to better understand constitutional dynamics and play a role in shaping a constitution that will put into place a functioning democratic government and foster lasting peace."--
