German Short Stories for Beginners: 20 Captivating Short Stories to Learn German & Grow Your Vocabulary the Fun Way! - Lingo Mastery 2019-02-20

Do you know what the hardest thing for a German learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! Teachers love giving out tough, expert-level literature to their students, books that present many new problems to the reader and force them to search for words in a dictionary every five minutes - it's not entertaining, useful or motivating for the student at all, and many soon give up on learning at all! In this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful German tongue. How German Short Stories for Beginners works: Each story is interesting and entertaining with realistic dialogues and day-to-day situations. The summaries follow a synopsis in German and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. At the end of those summaries, you'll be provided with a list of the most relevant vocabulary involved in the lesson, as well as slang and sayings that you may not have understood at first glance! Finally, you'll be provided with a set of tricky questions in German, providing you with the chance to prove that you learned something in the story. Don't worry if you don't know the answer to any - we will provide them immediately after, but no cheating! We want you to feel comfortable while learning the tongue; after all, no language should be a barrier for you to travel around the world and expand your social circles! So look no further! Pick up your copy of German Short Stories for Beginners and start learning German right now! This book has been written by a native German author and is recommended for A2+ level learners.

Mister Pip - Lloyd Jones 2007-07-31

In a novel that is at once intense, beautiful, and fablelike, Lloyd Jones weaves a transcendent story that celebrates the resilience of the human spirit and the power of narrative to transform our lives. On a copper-rich tropical island shattered by war, where the teachers have fled with most everyone else, only one white man chooses to stay behind: the eccentric Mr. Watts, object of much curiosity and scorn, who sweeps out the ruined schoolhouse and begins to read to the children each day from Charles Dickens's classic Great Expectations. So begins this rare, original story about the abiding strength that imagination, once ignited, can provide. As artillery echoes in the mountains, thirteen-year-old Matilda and her peers are riveted by the adventures of a young orphan named Pip in a city called London, a city whose contours soon become more real than their own blighted landscape. As Mr. Watts says, "A person entranced by a book simply forgets to breathe." Soon come the rest of the villagers, initially threatened, finally inspired to share tales of their own that bring alive the rich mythology of their past. But in a ravaged place where even children are forced to live by their wits and daily survival is the only objective, imagination can be a dangerous thing.

Speech Acts Across Cultures - Susan Gass 2006-01-01

This book investigates the notion of Speech Act from a cross-cultural perspective. The starting point for this book is the assumption that speech acts are realized from culture to culture in different ways and that these differences may result in communication difficulties that range from the humorous to the serious. Importantly, a recurring theme in this volume has to do with the need to verify the form, the function and the constraining variables of

speech acts as a prerequisite for dealing with them in the classroom. The book deals with three major areas of Speech Act research: 1) Methodological Issues, 2) Speech Acts in a second language, and 3) Applications. In the first section authors discuss general issues of methodology and present data in an effort to detail the efficacy of different methodologies. Research clearly shows the effect of methodology on the results. This section is followed by a discussion of specific speech acts, including speech acts and strategy use that have as their goal the creation and maintenance of solidarity (i.e. greetings, compliments, apologies) and speech acts that involve face-threatening acts (i.e. complaints, favor-asking, suggestions). In the final section, authors consider applications of speech act research within the context of advertising and business relationships.
