Teaching Children about Parts of Speech - Habakkuk Educational Materials
2019-11-06
Teaching Children about Parts of Speech (Language Book 3) offers easy-to-understand definitions, examples, and colorful illustrations to teach students about nouns (including common nouns and proper nouns), pronouns, noun markers, adjectives, possessive

adjectives, verbs, adverbs, the 23 helping verbs, prepositions, interjections, and conjunctions. Student interaction is also encouraged as most lesson pages include one or more questions relating to parts of speech. (The answers are provided at the end of the book.) Besides being taught how to identify the different parts of speech in sentences, they will also learn how to

recognize a verb phrase as well as the subject and predicate of a sentence. Several reproducible worksheets are also available to be used for individual practice, to assess student learning, or for a teacher to use for direct instruction purposes on the classroom screen. (The multiple-choice practice test discussed below may also be reproduced for non-commercial, classroom use.) This book could be introduced to students as early as the first grade and used throughout elementary, middle, and high school. Actual testing of the content could begin as early as the 2nd or 3rd grade. Most of the pages take only a few minutes of instruction time. It is recommended that you introduce one new page to the students daily and that you spend at least one day a week briefly reviewing pages you have already studied. This will help students to retain the information and will also help to prepare them for the corresponding unit test designed specifically for this

book. A practice test is included at the end of the book. The same practice test is also available online as a computer-based test. You can access the test free of charge by visiting the website of Habakkuk Educational Materials at <https://www.habakkuk.net/>. The computer will notify them if an answer is correct or incorrect, and their grades will be displayed after completing a test. When the student feels confident or at the teacher's discretion, there is also a computer-based unit test they can take to test their comprehension over the book's content.

Volume 2 Grade K** - McGraw-Hill Education 2012-04-06

The Girl's Like Spaghetti - Lynne Truss 2007-07-10
A companion to the New York Times #1 best-seller *Eats, Shoots & Leaves*, this is punctuation play at its finest! Just as the use of commas was hilariously demystified in *Eats, Shoots & Leaves: Why,*

Commas Really Do Make a Difference!, now Lynne Truss and Bonnie Timmons put their talents together to do the same for apostrophes. Everyone needs to know where to put an apostrophe to make a word plural or possessive (Are those sticky things your brother's or your brothers?) and leaving one out of a contraction can give someone the completely wrong impression (Were here to help you). Full of silly scenes that show how apostrophes make a difference, too, this is another picture book that will elicit bales of laughter and better punctuation from all who read it. A New York Times Bestseller Parents' Choice Silver Honor Winner
