[Screening Youth](#) - Romain Chareyron 2019-05-14

Youth has been represented on screen for decades and has informed many directors' visual, narrative and social perspectives, but there has not been a body of work addressing the richness and complexity of this topic in a French and Francophone context. This volume offers new insights into the works of emerging and well-established directors alike, who all chose to place youth at the heart of their narrative and aesthetic concerns. Showing how the topic of 'youth' has inspired filmmakers to explore and reinvent common tropes associated

with young people, the book also addresses how the representation of youth can be used to mirror the tensions - political, social, religious, economic or cultural - that agitate a society at a given time in its history.

[Gender and the Chivalric Community in Malory's Morte D'Arthur](#) - Dorsey Armstrong 2009-09-24

"A lively and thought-provoking study of gender in the Arthurian community. It is at once theoretically sophisticated and highly

readable, full of insightful close readings yet conscious of larger patterns of analysis."--Laurie Finke, Kenyon College *Gender and the Chivalric Community in Malory's Morte d'Arthur* reveals, for the first time in a book-length study, how Thomas Malory's unique approach to gender identity in his revisions of earlier Arthurian works produces a text entirely unlike others in the canon of medieval romance. Armstrong argues that issues of masculine and feminine gender identity play more critical, central roles in *Le Morte d'Arthur* than they do in Malory's sources or other chivalric literature. Effectively merging contemporary gender and feminist criticism with careful analysis of Malory's sources, Armstrong uncovers how gender ideals established in the early pages of the text subsequently inspire and mediate the action of the narrative; moreover, her analysis shows how such ideals become progressively more divisive and destructive as *Le Morte d'Arthur* moves toward its inevitable conclusion. Recent articles and essays have shed much-needed light on various individual aspects of gender in Malory's text. However, only a sustained, book-length analysis like Armstrong's can fully articulate the relationships of gender to other chivalric ideals, such as mercy and martial prowess, that become increasingly complex as the narrative progresses. This study examines not only the most frequently read portions of the *Morte* but also those sections that often are regarded as extraneous to the primary narrative, such as the *Tristram, Gareth, and Roman War* episodes. By showing how gender operates in both the well-known and the less-appreciated portions of Malory's work, *Gender and the Chivalric Community* demonstrates that his text possesses far more narrative unity than previously thought. Armstrong provides a sophisticated yet accessible approach to the study of gender and its relation to other chivalric ideals in *Le Morte d'Arthur*, offering important insights for scholars and students of medieval romance, Malory, Arthurian literature, and gender and feminist criticism. Dorsey Armstrong is assistant

professor of medieval literature at Purdue University. Her work has most recently appeared in *Arizona Studies in the Middle Ages and the Renaissance* and *On Arthurian Women: Essays in Honor of Maureen Fries*.

*Madness and Civilization* - Michel Foucault 2013-01-30

Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

**The Arthurian Revival** - Debra Mancoff 2014-08-13

Discrete inquiries into 15 forms of the Arthurian legends produced over the last century explore how they have altered the tradition. They consider works from the US and Europe, and those aimed at popular and elite audiences. The overall conclusion is that the "Arthurian revival" is an ongoing event, and has become multivalent, multinational, and multimedia. Originally published in 1992.

**The Romance of Adultery** - Peggy McCracken 2013-04-05

Peggy McCracken offers a feminist historicist reading of Guenevere, Iseut, and other adulterous queens of Old French literature, and situates romance narratives about queens and their lovers within the broader cultural debate about the institution of queenship in twelfth- and thirteenth-century France. Moving among a wide selection of narratives that recount the stories of queens and their lovers, McCracken explores the ways adultery is appropriated into the political structure of romance. McCracken examines the symbolic meanings and uses of the queen's body in both romance and the historical institutions of monarchy and points toward the ways medieval romance contributed to the evolving definition of royal sovereignty as exclusively male.

*Medievalism and the Modernist Temper* - R. Howard Bloch 1996

"While modernists are currently so mired in the question of who did what to whom during World War II that they have lost a sense of intellectual urgency, the study of medieval literature and culture has never been more alive or at a more interestingly innovative stage." -- from the Introduction *Medievalism and the Modernist Temper* brings major and outstanding younger medievalists into confrontation with the notion of medievalism itself in order to chart the directions the field has taken in the past and may take in the future. The collection not only explores modern conceptions of cultural patterns in the Middle Ages but also makes a significant contribution to the wider field of sociology of knowledge in the humanities. In its largest sense, it is a study of the institution of modern scholarship, using medieval literature as a focus. Contributors are R. Howard Bloch, Alain Boureau, E. Jane Burns, Michael Camille, Alain Corbellari, John M. Ganim, John M. Graham, Hans Ulrich Gumbrecht, Suzanne Fleischman, David Hult, Carl Landauer, Seth Lerer, Stephen G. Nichols, Per Nykrog, and Jeffrey M. Peck. "This highly original, polemical and paradigm-shifting book challenges academics to look more closely at the ideological foundations of the very disciplines we practice. Perhaps its most extraordinary contribution to literary studies as a whole (and it emerges with luminous clarity from the editors' Introduction) is to offer a new, historicized means of reviving what was once known as 'source studies.'" -- Jody Enders, University of California, Santa Barbara

**Social Variation and the Latin Language** - J. N. Adams  
2013-05-23

Languages show variations according to the social class of speakers and Latin was no exception, as readers of Petronius are aware. The Romance languages have traditionally been regarded as developing out of a 'language of the common people' (Vulgar Latin), but studies of modern languages demonstrate that linguistic change does not merely come, in the social sense, 'from below'. There is change from above, as prestige usages work their way down the social scale, and change may also occur across the social classes. This book is a history of many of the developments undergone by the Latin language as it changed into Romance, demonstrating the varying social levels at which change was initiated. About thirty topics are dealt with, many of them more systematically than ever before. Discussions often start in the early Republic with Plautus, and the book is as much about the

literary language as about informal varieties.

**Petrarch's Secret** - Petrarch 2018-03-23

Three Dialogues Between Petrarch and St. Augustine. The dialogue opens with Augustine chastising Petrarch for ignoring his own mortality and his fate in the afterlife by not devoting himself fully to God. Petrarch concedes that this lack of piety is the source of his unhappiness, but he insists that he cannot overcome it. The dialogue then turns to the question of Petrarch's seeming lack of free will, and Augustine explains that it is his love for temporal things (specifically Laura), and his pursuit of fame through poetry that "bind his will in adamant chains". Petrarch's turn towards religion in his later life was inspired in part by Augustine's Confessions, and Petrarch imitates

Augustine's style of self-examination and harsh self-criticism in *Secretum*. The ideas expressed in the dialogues are taken mostly from Augustine, particularly the importance of free will in achieving faith. Other notable influences include Cicero and other Pre-Christian thinkers.

*Medieval Considerations of Incest, Marriage, and Penance* - Linda Marie Rouillard 2020-01-16

*Medieval Considerations of Incest, Marriage, and Penance* focuses on the incest motif as used in numerous medieval narratives. Explaining the weakness of great rulers, such as Charlemagne, or the fall of legendary heroes, such as Arthur, incest stories also reflect on changes to the sacramental regulations and practices related to marriage and penance. Such changes demonstrate the Church's increasing authority over the daily lives and relationships of the laity. Treated here are a wide variety of medieval texts, using as a central reference point Philippe de Rémi's thirteenth-century *La Manekine*, which presents one lay author's reflections on the role of consent in

marriage, the nature of contrition and forgiveness, and even the meaning of relics. Studying a variety of genres including medieval romance, epic, miracles, and drama along with modern memoirs, films, and novels, Linda Rouillard emphasizes connections between medieval and modern social concerns. Rouillard concludes with a consideration of the legacy of the incest motif for the twenty-first century, including survivor narratives, and new incest anxieties associated with assisted reproductive technology.

*Christine de Pizan and the Moral Defence of Women* - Rosalind Brown-Grant 2003-09-18

Christine de Pizan's *Livre de la Cité des Dames* (1405) is justly renowned for its full-scale assault on the misogynist stereotypes which dominated the culture of the Middle Ages. Rosalind Brown-Grant locates the *Cité* in the context of Christine's defence of women as it developed over a number of years and through a range of different texts. Arguing that Christine tailored her critique of misogyny according to the genre in which she was writing and the audience she was addressing, this study shows that Christine's case for women nonetheless had an underlying unity in its insistence on the moral, if not the social, equality of the sexes. Whilst Christine may not have been a radical in modern feminist terms, she was able to draw upon the cultural resources of her day in order to construct an intellectual authority for herself that challenged the prevailing orthodoxy of the day.

*The Romance of Tristan* - Beroul 2005-03-31

One of the earliest extant versions of the Tristan and Yseut story, Beroul's French manuscript of *The Romance of Tristan* dates back to the middle of the twelfth century. It recounts the legend of Tristan, nephew of King Mark of Cornwall, and the king's Irish wife Yseut, who fall passionately in love after mistakenly drinking a potion. Their illicit romance remains secret for many years, but the relentless suspicion of the king's barons and the fading effects of the magic draught eventually lead to tragedy for the lovers. While Beroul's work emphasizes the impulsive and often brutal behaviour of the characters, its sympathetic depiction of two people struggling against their destiny is one of the most powerful versions of this enduringly popular legend.

**Courtly Contradictions** - Sarah Kay 2001

This book addresses these questions by way of contradiction, which is central both to medieval logic and to most modern protocols of reading.

*Sublime Dreams of Living Machines* - Minsoo Kang 2011-02-28

From the dawn of European civilization to the twentieth century, the automaton—better known today as the robot—has captured the Western imagination and provided a vital lens into the nature of humanity. Historian Minsoo Kang argues that to properly understand the human-as-machine and the human-as-fundamentally-different-from-machine, we must trace the origins of these ideas and examine how they were transformed by intellectual, cultural, and artistic appearances of the automaton throughout the history of the West. Kang tracks the first appearance of the automaton in ancient myths through the medieval and Renaissance periods, marks the proliferation of the automaton as a central intellectual concept in the Scientific Revolution and the subsequent backlash during the Enlightenment, and details appearances in Romantic literature and the introduction of the living machine in the Industrial Age. He concludes with a reflection on the destructive confrontation between humanity and machinery in the modern era and the reverberations of the humanity-machinery theme today. *Sublime Dreams of Living Machines* is an ambitious historical exploration and, at heart, an attempt to fully elucidate the rich and varied ways we have utilized our most uncanny creations to explore essential questions about ourselves.
