Athletic Director's Desk Reference - Donna A. Lopiano 2013-11-19
Athletic Director's Desk Reference With Web Resource is the most authoritative and comprehensive resource available for collegiate athletic administrators. Loaded with practical tools, this resource guides program administrators in navigating their increasingly complex roles in athletic programs of any size. With this reference, administrators will confidently handle typical and unexpected situations and address the various policy and system needs required for running a successful athletic program. Authors Lopiano and Zotos, well known and respected for their contributions to collegiate and scholastic athletics, guide readers with more than 75 combined years of experience as athletic program administrators, coaches, and consultants. Complete with a practical web resource, Athletic Director's Desk Reference offers extensive advice and tools for today's athletic director, covering leadership and organizational

planning, office and facilities operations, staff management, student-athlete relations, team administration, event management, fundraising, media relations, and more. Both the print and e-book versions of Athletic Director's Desk Reference help readers quickly find the materials and information required for performing specific tasks or functions. They include numbered contents and cross-references to the web resource, allowing readers to move seamlessly between the two. This comprehensive resource includes more than 120 management tips and planning tools in the book that provide expert insights and strategic advice, and more than 340 documents in the web resource that can be downloaded and customized to meet the needs of each athletic program:

- Management tips in the book present foundational information, problem-solving strategies, and suggestions for management of employees, programs, events, and facilities.
- Planning tools in the book provide specific steps or considerations to take in the development of strategic plans,

action plans, professional development plans, and governance systems. • Educational resources in the web resource can be used for teaching and motivating staff members, campus constituents, volunteers, and student-athletes. • Evaluation instruments and risk assessments in the web resource help directors, supervisors, and employees assess job performance, evaluate program contents, identify risks, and prevent litigation. • Policies and forms in the web resource allow athletic directors to produce effective policies and procedures with only simple modifications and customizations. The engaging narrative, philosophies, and advice from seasoned professionals combined with customizable and practical materials make this a unique and essential reference for athletic directors of all levels and abilities. Athletic Director's Desk Reference empowers administrators to confront issues and lead with confidence while saving time and research. As a result, athletic directors will become more efficient, more effective, more mission driven, and more successful in virtually any task, decision, or strategy.

Design for Sport - Anxo Cereijo Roibás 2017-03-02

Design for Sport shows how socially responsible design can contribute to make sport practice widespread in the general population including disadvantaged and hard-to-reach groups, and those that have been traditionally excluded such as the elderly, disabled people, those living in deprived areas and from lower socioeconomic strata plus certain minority ethnic and religious groups. Contributions from around the world provide compelling case studies and an international perspective. While the main benefit from expanding sports practice in developed societies would be reduction of chronic disease rates and social inclusion, in the developing world where political instability and conflict are more common, the authors look at how sport can have other functions, such as a means of post-disaster relief. They discuss how Participatory Design (PD) techniques and appropriate ethnographies can be implemented in order to better understand users' needs and requirements as in the case of Paralympic sport where the increased sophistication of equipment used has evolved to meet the demands of the athletes. Reflecting the multi-

disciplinary and cross-disciplinary nature of design for sport, the book also features case studies that look at environmental design to improve sport accessibility, social wellbeing, economic development and environmental sustainability.

Proposal Planning & Writing - Jeremy T. Miner 2019-08-02

No matter whether you are approaching public or private sponsors, this thorough and detailed step-by-step guide will enable you to plan and write winning proposals. Grantseeking is always a competitive process. As organizational needs outstrip resources, groups turn to grants as a means of strengthening their financial footing while pursuing their missions. This book draws on the authors' three decades of grantseeking experiences in writing successful proposals, conducting grant workshops nationwide, reviewing government and foundation proposals, and critiquing application guidelines for grantmakers to lead readers through the process of planning and writing successful proposals. The authors first provide practical strategies for project planning, including identifying sponsors, matching grantseeker needs to sponsor priorities, and qualifying prospects through pre-proposal contacts. The authors then guide users systematically through proposal writing, including introducing a template for letter proposals to private foundations and corporations, describing the primary elements of government proposals, and providing tips for constructing a realistic budget. This advice as well as the key questions to answer before you begin writing; actual proposals that were declined, with rejection reasons; and complete sample letter proposals comprised in this volume will help both beginning and experienced grantseekers to better

plan and develop fundable projects.

Pitching Democracy - April Yoder
2023-03-14

From Juan Marichal and Pedro Martínez to Albert Pujols and Juan Soto, Dominicans have long been among Major League Baseball's best. How did this small Caribbean nation become a hothouse of baseball talent? To many fans, the answer is both obvious and disconcerting: pro teams use their riches to develop talent abroad, creating opportunities for superhuman athletes and corrupt officials, while the rest of the population sees little benefit. Yet this interpretation of history is incomplete. April Yoder traces how baseball has empowered Dominicans in their struggles for democracy and social justice. While the

dictatorship of Rafael Trujillo saw the sport as a means of cementing its power at home and abroad, the Dominican people fashioned an emancipated civic sphere by seeing their potential for democratic success in their compatriots' baseball success. Later, Dominicans articulated demands for democracy, economic opportunity, and civil rights through successful calls for public support of amateur and professional baseball. Today, Dominicans continue to demand that incentives for the baseball industry foster human as well as economic development. A revelatory and innovative history, *Pitching Democracy* restores agency to the Dominican people and honors their true love of the game.

Sport and Social Exclusion - Michael F. Collins 2014-06-20

Tackling social exclusion should be a central aim of any civilised social policy. In this meticulously revised and updated new edition of his groundbreaking study, *Sport and Social Exclusion*, Mike Collins has assembled a vast array of new evidence from a range of global sources to demonstrate how the effects of social exclusion are as evident in sport as they are in any area of society. The book uses sport as an important sphere for critical reflection on existing social policy and explores sport's role as a source of initiatives for tackling exclusion. It examines key topics such as:

- What is meant by 'social exclusion'
- How social exclusion affects citizenship and the chance to play sport
- How exclusion from sport is linked to poverty, class, age, gender, ethnicity, disability, and involvement in youth delinquency, and living in towns or countryside
- How exclusion is linked to concepts of personal and communal social capital.

It uses four revised and five new

major case studies as detailed illustrations, notably Be Active, Birmingham, the national PE and Youth/School Sport strategy, Positive Futures and Street Games. . Sport and Social Exclusion features a wealth of original research data, including new and previously unpublished material, as well as important new studies of social exclusion policy and practice in the UK and elsewhere. This revised edition surveys all the most important changes in the policy landscape since first publication in 2002 and explores the likely impact of the London Olympic Games on sport policy in the UK. The book concludes with some typically forthright commendations and critiques from the author regarding the success of existing policies and the best way to tackle exclusion from sport and society in the future. By relating current policy to new research the book provides an essential guidebook for students, academics and policy makers working in sport policy and development."

Best Practice for Youth Sport - Robin S. Vealey 2016-01-08

Although the physical and psychological benefits of youth participating in sport are evident, the increasing professionalization and specialization of youth sport, primarily by coaches and parents, are changing the culture of youth sport and causing it to erode the ideal mantra: "It's all about the kids." In Best Practice for Youth Sport, readers will gain an appreciation of an array of issues regarding youth sport. This research-based text is presented in a practical manner, with examples from current events that foster readers' interest and class discussion. The content is based on

the principle of developmentally appropriate practice (DAP), which can be defined as engaging in decisions, behaviors, and policies that meet the physical, psychological, and social needs of children and youth based on their ages and maturational levels. This groundbreaking resource covers a breadth of topics, including bone development, burnout, gender and racial stereotypes, injuries, motor behavior, and parental pressures. Written by Robin S. Vealey and Melissa A. Chase, the 16 chapters of Best Practice for Youth Sport are divided into four parts. Part I, Youth Sport Basics, provides readers with the fundamental knowledge and background related to the history, evolution, and organization of youth sport. Part II, Maturation and Readiness for Youth Sport Participants, is the core of understanding how and why youth sport is different from adult sport. This part details why it is important to know when youth are ready to learn and compete. Part III, Intensity of Participation in Youth Sport, examines the appropriateness of physical and psychological intensity at various developmental stages and the potential ramifications of overtraining, overspecialization, overstress, and overuse. The text concludes with part IV, Social Considerations in Youth Sport, which examines how youth sport coaches and parents can help create a supportive social environment so that children can maximize the enjoyment and benefits from youth sport. In addition to 14 appendixes, activities, glossaries, study questions, and other resources that appear in Best Practice for Youth Sport, the textbook is enhanced with instructor ancillaries: a test package, image bank, and instructor guide that features a syllabus, additional study questions and

learning activities, tips on teaching difficult concepts, and additional readings and resources. These specialized resources ensure that instructors will be ready for each class session with engaging materials. Ancillaries are free to course adopters and available at www.HumanKinetics.com/BestPracticeForYouthSport. Best Practice for Youth Sport provides readers with knowledge of sport science concerning youth sport and engages them through the use of anecdotes, activities, case studies, and practical strategies. Armed with the knowledge from this text, students, coaches, parents, administrators, and others will be able to become active agents of social change in structuring and enhancing youth sport programs to meet the unique developmental needs of children, making the programs athlete centered rather than adult centered so that they truly are all about the kids.

Winning a US College Sports Scholarship - Barry McCormack 2004

When the State Speaks, What Should It Say? - Corey Brettschneider
2012-07-22
How should a liberal democracy

respond to hate groups and others that oppose the ideal of free and equal citizenship? The democratic state faces the hard choice of either protecting the rights of hate groups and allowing their views to spread, or banning their views and violating citizens' rights to freedoms of expression, association, and religion. Avoiding the familiar yet problematic responses to these issues, political theorist Corey Brettschneider proposes a new approach called value democracy. The theory of value democracy argues that the state should protect the right to express illiberal beliefs, but the state should also engage in democratic persuasion when it speaks through its various expressive capacities: publicly criticizing, and giving reasons to reject, hate-based or other discriminatory viewpoints. Distinguishing between two kinds of state action--expressive and coercive--Brettschneider contends that public criticism of viewpoints advocating discrimination based on race, gender, or sexual orientation should be pursued through the state's expressive capacities as speaker, educator, and spender. When the state uses its expressive capacities to promote the values of free and equal citizenship, it engages in democratic persuasion. By using democratic persuasion, the state can both respect rights and counter hateful or discriminatory viewpoints. Brettschneider extends this analysis from freedom of expression to the freedoms of religion and association, and he shows that value democracy can uphold the protection of these freedoms while promoting equality for all citizens.
