Finding the Career that Fits You - Larry Burkett 1998-10-12
Job security is a thing of the past. In a time when companies are laying off thousands of people and 60 to 80 percent of employees are not satisfied with their jobs, many people are wondering if there is such a thing as job security and whether they can actually enjoy their work. After all, if you spend most of your waking hours doing something, you at least should like it. According to Lee Ellis and Larry Burkett, you can find the career that fits you. You can enjoy your work. It's just a matter of assessing who you are, knowing your strengths and interests, and discovering the kind of work that will utilize those talents. In this new edition of *Finding the Career That Fits You*, you will discover the person God made you to be through insightful looks at your personality, skills, life values, and vocational interests. All statistics and resources have been updated and the latest information on using the Internet in your job search has been added. Ellis and Burkett will walk you through the job-search process

and give you the confidence you need to start or change your career - and your life!

Rapidex English Speaking Course (Nepali) - EDITORIAL BOARD 2015-01-09
A legendary language learning course undoubtedly! Rapidex English Speaking Course is the only speaking course of its kind whose features can be described in superlative degree only. It has already benefited millions of readers across the country. Experts have unanimously declared it as the best self-study course. Perhaps that is the reason that for over 15 years it has constantly been on the top of the best sellers list in the market. What is the secret of its great popularity? Maybe, a no-nonsense down-to-earth approach and a very scientific methodology that takes into its account the special requirements of Indian learners. In any case it is not just another crash course that begins with a bang but ends with a whimper. Rather its contents and subject matters have been specially designed to help a common man achieve maximum command on the language in a very short time. The most important part of this self-study course is confidence building measures because it has been found from the long experience that biggest

problem in the path of fluently speaking a foreign language is hesitation, that arises out of lack of confidence. Many people, who have good command over the language and are well aware of its grammar and composition, can't speak the language fluently. Why? The answer is simple. While speaking they try to construct a sentence in their mother language and do the mental translation before uttering a single line. This creates not only confusion but utter chaos in their mind. As a result they feel great hesitation to speak simple sentences. In some cases, however, the problem is more complex, as they lack the basic knowledge of the English language. Rapidex English Speaking Course takes care of both the cases. So, what are you waiting for? Go ahead and discover the secret of fluency in English speaking. Explore and develop your hidden potential and face the world with a new-found confidence and smartness. Only the sky should be your limit. No matter which language you know or speak, be it Hindi, Marathi, Gujarati, Tamil, Telegu, Assami, Oriya, Kannad, Punjabi, Bengali, Nepali or Urdu, with the help of this book English will no more be a foreign language for you. A must for every Indian home. #v&spublishers

Facing Mount Kanchenjunga -

Sangharakshita 2014-04-29

In 1950 Kalimpong was a lively trading town in the intrigue-ridden corner of India that borders Nepal, Bhutan, Sikkim and Tibet. Finding a welcome in this town, nestled high in the mountains, were a bewildering array of guests and settlers, including Sangharakshita, a young English monk. In this delightful volume of memoirs, Sangharakshita shares the incidents and insights of his early years in Kalimpong, including a meeting with Dr B.R. Ambedkar and his friendship with Lama Anagarika Govinda.

Algebra Part 2 (Speedy Study Guides)

- Speedy Publishing 2014-06-17

Not everyone has a knack for Mathematics and several people simply give up when the teacher begins adding letters into the equations. However, there are actually some

solid uses for Algebra 2 other than keeping headache medicine manufacturers in business. Building on the ideas and core concepts learned in basic Algebra, the intermediate Algebra 2 introduces abstract thinking. Students learn how to identify likenesses and evaluate equations based on their characteristics. This information is useful for higher mathematical pursuits and is also helpful for general life. The analytic approach to problem solving is essential in both employment situations and personal relationships.

Healing Elements - Sienna R. Craig
2012-08-22

Tibetan medicine has come to represent multiple and sometimes conflicting agendas. On the one hand it must retain a sense of cultural authenticity and a connection to Tibetan Buddhism; on the other it must prove efficacious and safe according to biomedical standards. Recently, Tibetan medicine has found a place within the multibillion-dollar market for complementary, traditional, and herbal medicines as people around the world seek alternative paths to wellness. Healing Elements explores how Tibetan medicine circulates through diverse settings in Nepal, China, and beyond as commercial goods and gifts, and as target therapies and panacea for biophysical and psychosocial ills. Through an exploration of efficacy - what does it mean to say Tibetan medicine "works"? - this book illustrates a bio-politics of traditional medicine and the meaningful, if contested, translations of science and healing that occur across distinct social ecologies.

S.Chand'S Mathematics For Class IX

Term II - H.K. Dass, Rama Verma &
Bhagwat S. Sharma

S. Chand's Mathematics books for
Classes IX and X are completely based
on CCE pattern of CBSE. The book for
Term I covers the syllabus from April
to September and the book for Term II
covers the syllabus from October to
March.

Fatalism and Development - Dor
Bahadur Bista 1991

The book concentrates on the social
and cultural factors which lie behind
the current Nepal crisis locating the
root cause in the Brahmin-Chhetri
minority which dominates Kathmandu
and other towns. Fatalism and the
caste system still flourish behind
the facade of modern bureaucracy, at
all levels of government, in
education, foreign aid, politics and
administration. The author attempts
to distill all his experience into a
portrait of his society.

*Does the Yeti Really Live in the
Himalayas? | Hiking in Nepal Grade 4
| Children's Geography & Cultures
Books* - Baby Professor 2019-11-22

Nepal is known for two things: Mount
Everest and the legend of the Yeti.
This book will not explore latter.
Rather, it will focus on the
geography of Nepal. The use of images
and the cunning placement of texts
will make it seem like you're
experiencing the Nepalese traditions
and culture first-hand. Enjoy the
wild ride to the mountains of Nepal!
The Two-Year Mountain - Phil
Deutschle 2012

With his life literally hanging from
a slender rope over a crevasse near
the top of a Himalayan mountain, a
young man relives in his mind a
relentless two-year physical and

spiritual test as a Peace Corps
volunteer in a remote mountain
village of Nepal. Combining the
elements of adventure story, travel
log, and personal confession, this
absorbing account describes a
wrenching experience that belies the
idealistic expectations of many Peace
Corps volunteers. Following a two-year
stint as a science and mathematics
teacher in a Nepalese village, Phil
Deutschle sets off alone on a three-
month expedition to conquer
Pharchamo, 20,580 feet high, which
has claimed several lives and is his
final goal in the Himalayas. This trek
forms the framework of the book, and
into it Deutschle weaves the story of
his experiences over the previous two
years in a series of sharply etched,
swiftly moving, often humorous
anecdotes. Deutschle is not starry-
eyed about Nepal and its people or,
least of all, about the mission of
the Peace Corps. He vividly describes
events that are both horrible and
poignant: being charged by a
rhinoceros, the awful fascination of
watching a corpse burn on a funeral
pyre, the struggle to save a child's
life, scaling a Himalayan peak higher
than Mount McKinley (the highest
mountain in North America). Despite
his difficulties, he steels himself
to stay one year, then the full two
years, and, imperceptibly, grows so
attached to the village that he
leaves it in tears. Mourning the
"small death" of his departure,
confused about his identity as an
American, and feeling more alienated
than before, he sets off on a final,
reckless, solo climb of Mount
Pharchamo, hardly caring whether he
survives. Apathetic from lack of
oxygen and from his own malaise and
only when his life literally hangs on
a slender rope, does he overcome
despair and make a gigantic effort to
save himself. The two parts of the
book - the emotional challenge of the
village and physical challenge of the
climb - come together in a triumphant
affirmation of life. A native
Californian, Phil Deutschle is
currently teaching handicapped
children in Denmark. *The Two Year
Mountain* was originally published by
Bradt in 1986 and remains as relevant

to the spirit of exploration and real, raw travel writing today as it was then.

Narratives Of The Hippocratic Healer
- Simal Soin

Narratives of the Hippocratic is a compilation of experiences and learnings of some of the world & #39;s finest medical minds - making do with limited resources in remote villages, of lives lived while fighting against time to save lives ... of answers found to childhood curiosities and questions about miracles that remain unanswered ... of paths broken and dreams realized. As you turn the pages of this book, you will see various facets of doctors and the journeys they have made - some who began with nothing and have now reached the zenith of their careers; some who brought great laurels to their country; some have chosen to put their life stories in as simple a manner as they could, some others have described the battles they have fought, with society, circumstances, with themselves in great detail. It was as if a pen and paper (or a laptop/tablet/ keypad) were their best confidantes.

Assessment and Evaluation - Chris Bell 1990

Indian Book Industry - 1983

Gender Trouble Makers - Jennifer Rothchild 2007-05-07

International development efforts aimed at improving girls' lives and education have been well-intended, somewhat effective, but ultimately short-sighted and incomplete. This is because international development efforts often operate under a reductive understanding of the term 'gender' and how it influences the lives of girls and boys. Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour. In particular, the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways

in which gender was reinforced and maintained through a case study in rural Nepal. In developing countries like Nepal, promoting access to and participation in existing formal education programme is clearly necessary, but it is not, in itself, sufficient to transform gender power relations in the broader society. When gender is properly addressed as a process, then all stakeholders involved - researchers, governmental officials, and community members - can begin to understand and devise more effective ways to increase both girl and boy students' enrollment, participation, and success in school.

Computer Mediated Education of Information Technology Professionals and Advanced End-users - B. Z. Barta 1993

This publication explores the swift technical advancements that have been achieved in information technology in the educational arena. A short period has seen not only the development of concepts, principles and approaches, but the implementation of some on a large scale and the readiness of others for use and dissemination. Their capabilities and prospects are considered here in depth and indications are given of directions for future progression. A broad range of theoretical and implementation-oriented papers is augmented by discussions of specialized subjects plus key-note papers highlighting the cooperative efforts of European countries to develop advanced-technology based learning systems.

Simultaneous Identities: Language, Education, and Nationalism in Nepal - Uma Pradhan 2020-12-03

Explores 'simultaneity' to show 'unresolved co-presences' of contradictory ways through which people maintain multi-layered identities.
