An acclaimed bow hunter who defies the stereotype that hunting is a man's game, Eva Shockey is at the forefront of a new wave of women and girls

who are passionate about outdoor sports. Eva Shockey grew up expecting to be a dancer like her glamorous mother. But something about spending family vacations RV-ing across North America and going on hunts with her dad sparked in her an enduring passion for a different way of life. In *Taking Aim*, Eva tells a very personal story of choosing the less-traveled path to a rewarding life in outdoor pursuits like hunting and fishing. For her, as her millions of fans can attest, that has meant hunting as a way of harvesting food, caring deeply about conservation, sustainability and healthy eating, and getting closer to God in nature. In this riveting memoir for the adventurer in all of us, Eva takes readers along as she hunts caribou on the rugged Aleutian Islands, tracks a 1,500-pound bull moose across the unforgiving Yukon, and meets many other challenges of a life in the wild. Along the way we learn that hunting is about so much more than pulling a trigger. "My story

is about discovering your dream," writes Eva. "It's about following your passion, mastering your skills, taking aim no matter who thinks you're crazy...and then letting the arrow fly. If you've done all you can, I can tell you that you're almost certain to hit your mark." Whether you're a lifelong hunter or a city dweller who has never set foot in the wilderness, Eva's story delivers an empowering message about rejecting stereotypes and expectations, believing in yourself, and finding the courage to pursue what you care about most.

Tracking Lions, Myth, and Wilderness in Samburu - Jon Turk 2021-09-26

A provocative look at the vital connection between human beings, the natural world and meaningful knowledge. While tracking a lion with a Samburu headman and then, later, eluding human assailants who may be tracking him, Jon Turk experiences people at their best and worst. As the tracker and the tracked, Jon reveals how the stories we tell each other, and the stories spinning in our heads, can be moulded into innovation, love and co-operation -- or harnessed to launch armies. Seeking escape

from the confusion we create for ourselves and our neighbours with our think-too-much-know-it-all brains, Jon finds liberation within a natural world that spins no fiction. Set in a high-adventure narrative on the unforgiving savannah, *Tracking Lions, Myth, and Wilderness in Samburu* explores the aboriginal wisdoms that endowed our Stone Age ancestors with the power to survive - and how, since then, myth, art, music, dance, and ceremony have often been hijacked and distorted within our urban, scientific, oil-soaked world.

theological topic according to a four-part approach: exegetical, dogmatic, elenctic, and practical. As a body of divinity, it combines a rigorous, scholastic treatment of doctrine with the pastoral aim of preparing people to live for God through Christ. Students and pastors will find it a valuable model for moving from the text of Scripture to doctrinal formulation that will edify the people of God. Volume 1, Intellectual Prerequisites, provides an introduction to doing systematic theology. Mastricht begins by addressing the nature of theology, wherein he lays out the proper method, subject matter, and definition of theology. He then discusses Scripture as the rule of doing theology, as it is the only infallible source and foundation for knowing God. Finally, Mastricht gives his rationale for the best distribution of theological topics. This volume also includes Mastricht's homiletical aid "The Best Method of Preaching," as well as a biographical sketch by Adriaan Neele to help readers

understand the significance of Mastricht's life and ministry. *That Hunting Camp* - Bill Friedrich 2021-05-08

The Big Tiny - Dee Williams
2014-04-22

Dee Williams's life changed in an instant, with a near-death experience in the aisle of her local grocery store. Diagnosed with a heart condition at age forty-one, she was all too suddenly reminded that life is short, time is precious, and she wanted to be spending hers with the people and things she truly loved. That included the beautiful sprawling house in the Pacific Northwest she had painstakingly restored—but, increasingly, it did not include the mortgage payments, constant repairs, and general

time-suck of home ownership. A new sense of clarity began to take hold: Just what was all this stuff for? Multiple extra rooms, a kitchen stocked with rarely used appliances, were things that couldn't compare with the financial freedom and the ultimate luxury—time—that would come with downsizing. Deciding to build an eighty-four-square-foot house—on her own, from the ground up—was just the beginning of building a new life. Williams can now list everything she owns on one sheet of paper, her monthly housekeeping bills amount to about eight dollars, and it takes her approximately ten minutes to clean the entire house. It's left her with more time to spend with family and friends, and given her freedom to head out for adventure at a moment's notice, or watch the clouds and sunset while drinking a beer on her (yes, tiny) front porch. The lessons Williams learned from her "aha" moment post-trauma apply to all of us, every day, regardless of whether or not we decide to discard all our worldly

belongings. Part how-to, part personal memoir, *The Big Tiny* is an utterly seductive meditation on the benefits of slowing down, scaling back, and appreciating the truly important things in life.

Nowhere for Very Long - Brianna Madia 2022-04-05
NEW YORK TIMES BESTSELLER
• WALL STREET JOURNAL BESTSELLER • USA TODAY! BESTSELLER In this beautifully written, vividly detailed memoir, a young woman chronicles her adventures traveling across the deserts of the American West in an orange van named Bertha and reflects on an unconventional approach to life. A woman defined by motion, Brianna Madia bought a beat-up bright orange van, filled it with her two dogs Bucket and Dagwood, and headed into the canyons of

Utah with her husband. Nowhere for Very Long is her deeply felt, immaculately told story of exploration—of the world outside and the spirit within. However, pursuing a life of intention isn't always what it seems. In fact, at times it was downright boring, exhausting, and even desperate—when Bertha overheated and she was forced to pull over on a lonely stretch of South Dakota highway; when the weather was bitterly cold and her water jugs froze beneath her as she slept in the parking lot of her office; when she worried about money, her marriage, and the looming question mark of her future. But Brianna was committed to living a life true to herself, come what may, and that made all the difference. Nowhere for Very Long is the true story of a woman learning and unlearning, from backroads to breakdowns, from married to solo, and finally, from lost to found to lost again . . . this time, on purpose.

This wide-ranging book explores the diversity of esoteric and occult beliefs. Neo-Paganism is one of the fastest-growing new religions in the western world where witchcraft or Wicca, Druidry, and Urban Shamanism are thriving.

Alongside this there has been an upsurge in New Age ideas of an even wider variety, including astrology, Tarot, numerology, and many others. And then there are members of various schools of occult science, practising High Magic. Why this new interest in old beliefs? Why are millions of educated people today abandoning both the established religion of their parents and 21st century scientific rationalism and turning to magic and esoteric teachings? In their search for spirituality those who follow these paths claim to be applying ancient wisdom to the modern world. The Brief History of Secret Religions, a companion book to The Brief History of Secret Societies, looks at the history and variety of these esoteric movements, where they came from and

what they tell us about the world today. Praise for The New Believers: 'an excellent guide to fringe religions that juxtaposes "respectable" movements and those conventionally dismissed as cults.'
