Renaissance Rewritings - Helmut Pfeiffer 2017-09-25

'Rewriting' is one of the most crucial but at the same time one of the most elusive concepts of literary scholarship. In order to contribute to a further reassessment of such a notion, this volume investigates a wide range of medieval and early modern literary transformations, especially focusing on texts (and contexts) of Italian and French Renaissance literature. The first section of the book, "Rewriting", gathers essays which examine medieval and early modern rewritings while also pointing out the theoretical implications raised by such texts. The second part, "Rewritings in Early Modern Literature", collects contributions which account for different practices of rewriting in the Italian and French Renaissance, for instance by analysing dynamics of repetition and duplication, verbatim reproduction and free reworking, textual production and authorial self-fashioning, alterity and identity, replication and multiplication. The volume strives at shedding light on the complexity of the relationship between early modern and ancient literature, perfectly summed up in the motto written by Pietro Aretino in a letter to his friend the painter Giulio Romano in 1542: "Essere modernamente antichi e anticamente moderni".

The Beginnings of Poetry - Francis Barton Gummere 1901

The Anthropomorphic Lens - Walter Melion 2014-11-06

Anthropomorphism closely relates to early modern notions of analogy and microcosm. Exploring the tension inherent in such notions, the essays in this volume address the contradictions and tensions, between magical and rational, speculative and practical thought, that anthropomorphism entails.

The Harmony of Illusions - Allan Young 1997-10-27

As far back as we know, there have been individuals incapacitated by memories that have filled them with sadness and remorse, fright and horror, or a sense of irreparable loss. Only recently, however, have people tormented with such recollections been diagnosed as suffering from "post-traumatic stress disorder." Here Allan Young traces this malady, particularly as it is suffered by Vietnam veterans, to its beginnings in the emergence of ideas about the unconscious mind and to earlier manifestations of traumatic memory like shell shock or traumatic hysteria. In Young's view, PTSD is not a timeless or universal phenomenon newly discovered. Rather, it is a "harmony of illusions," a cultural product gradually put together by the practices, technologies, and narratives with which it is diagnosed, studied, and treated and by the various interests, institutions, and moral arguments mobilizing these efforts. This book is part history and part ethnography, and it includes a detailed account of everyday life in the treatment of Vietnam veterans with PTSD. To illustrate his points, Young presents a number of fascinating transcripts of the group therapy and diagnostic sessions that he observed firsthand over a period of two years. Through his comments and the transcripts themselves, the reader becomes familiar with the individual hospital personnel and clients and their struggle to make sense of life after a tragic war. One observes that everyone on the unit is heavily invested in the PTSD diagnosis: boundaries between therapist and patient are as unclear as were the distinctions between victim and victimizer in the jungles of Southeast Asia.

Shapeshifter - Alice Paalen Rahon 2021-09-14

Poetry by one of the most powerful female figures in twentieth-century surrealism, now collected in English for the very first time. Alice Paalen Rahon was a shapeshifter, a surrealist poet turned painter who was born

French and died a naturalized citizen of Mexico. Her first husband was the artist Wolfgang Paalen, among her lovers were Pablo Picasso and the poet Valentine Penrose, and over the years her circle of friends included Frida Kahlo and Diego Rivera, Joan Miró, Paul Éluard, Man Ray, and Anaïs Nin. This bilingual edition of Rahon's poems confirms the achievement of this little-known but visionary writer who defies categorization. Her spellbinding poems, inspired by prehistoric art, lost love, and travels around the globe, weave together dream, fantasy, and madness. For the first time in any language, this book gathers the three collections of poetry Rahon published in her lifetime, along with uncollected and unpublished poems and an album of portraits, manuscript pages, and artworks.

Sulla - Alexandra Eckert 2019-11-05

This book brings together an international group of scholars to offer new perspectives on the political impact and afterlife of the dictator Lucius Cornelius Sulla Felix (138–78 B.C.), one of the most important figures in the complex history of the last century of the Roman Republic. It looks beyond the march on Rome, the violence of the proscriptions, or the logic of his political reforms, and offers case studies to illustrate his relations with the Roman populace, the subject peoples of the Greek East, and his own supporters, both veterans and elites, highlighting his long-term political impact and, at times, the limits on his exercise of power. The chapters on reception reassess the good/bad dichotomy of Sulla as tyrant and reformer, focusing on Cicero, while also examining his importance for Sallust, and his characterisation as the antithesis of philhellenism in Greek writers of the Imperial period. Sulla was not straightforward, either as a historical figure or exemplum, and the case studies in this book use the twin approach of politics and reception to offer new readings of Sulla's aims and impact, both at home and abroad, and why he remained of interest to authors from Sallust to Plutarch and Aelian.

Knights at Court - Aldo Scaglione 2022-08-19

Knights at Court is a grand tour and survey of manners, manhood, and court life in the Middle Ages, like no other in print. Composed on an epic canvas, this authoritative work traces the development of court culture and its various manifestations from the latter years of the Holy Roman Empire (ca. A.D. 1000) to the Italian Renaissance of the fifteenth and sixteenth centuries. Leading medievalist and Renaissance scholar Aldo Scaglione offers a sweeping sociological view of three geographic areas that reveals a surprising continuity of courtly forms and motifs: German romances; the lyrical and narrative literature of northern and southern France; Italy's chivalric poetry. Scaglione discusses a broad number of texts, from early Norman and Flemish baronial chronicles to the romances of Chrétien de Troyes, the troubadours and Minnesingers. He delves into the Niebelungenlied, Dante, Petrarch, Boccaccio, and an array of treatises on conduct down to Castiglione

and his successors. All these works and Scaglione's superior scholarship attest to the enduring power over minds and hearts of a mentality that issued from a small minority of people—the courtiers and knights—in central positions of leadership and power. *Knights at Court* is for all scholars and students interested in "the civilizing process." This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1991.

A Life Worth Living - Robert Zaretsky 2013-11-07

Exploring themes that preoccupied Albert Camus--absurdity, silence, revolt, fidelity, and moderation--Robert Zaretsky portrays a moralist who refused to be fooled by the nobler names we assign to our actions, and who pushed himself, and those about him, to challenge the status quo. For Camus, rebellion against injustice is the human condition.

The Literary Genres in the Flavian Age - Federica Bessone 2017-11-07

The construction of a new Latin library between the end of the Republic and the Augustan Principate was anything but an inhibiting factor. The literary flourishing of the Flavian age shows that awareness of this canon rather stimulated creative tension. In the changing socio-cultural context, daring innovations transform the genres of poetry and prose. This volume, which collects papers by influential scholars of early Imperial literature, sheds light on the productive dynamics of the ancient genre system and can also offer insightful perspectives to a non-classicist readership.

The Idea of the Book in the Middle Ages - Jesse Gellrich 2019-03-15

Catalogus Translationum Et Commentariorum - Virginia Brown 2003

Considered a definitive source for scholars and students, this highly acclaimed series illustrates the impact of Greek and Latin texts on the Middle Ages and Renaissance. In publication since 1960 and now in its eighth volume, the *Catalogus Translationum et Commentariorum* furnishes concrete evidence of when, where, and how an ancient author was known and appreciated in monastic, university, and humanist circles. Each article presents a historical survey of the influence and circulation of a particular author down to the present, followed by an exhaustive listing and brief description of Latin commentaries before 1600 on each of his works. For Greek authors, a full listing of pre-1600 translations into Latin is also provided. Sources of translations and commentaries include both printed editions and texts available only in medieval and Renaissance manuscripts. In the newest addition to the series, Volume VIII, six authors are treated in separate articles: Damianus, Geminus Rhodius, Hanno, Sallust, Themistius, and Thucydides. This volume is especially notable for its variety. Thucydides and Sallust were major historians and the interest their works generated -- in such diverse figures as Macchiavelli, Thomas More, and Thomas Hobbes -- has continued unabated. Damianus and Geminus Rhodius influenced optics and astronomy. Themistius provided a useful service to later students of Aristotle by paraphrasing Aristotle's treatises on logic, psychology, and natural science. Hanno's account of a voyage around the coast of West Africa has been regarded as a motivating factor behind the explorations of Vasco da Gama and Pedro Alvares Cabral and was cited in controversies involving the Portuguese and Spanish claims to the coasts of Africa and America. A list of addenda and corrigenda to four previously published articles (Columella, Tacitus, Vegetius, Xenophon) concludes the volume.

An Early Self - Susanne Zepp 2014-11-19

What role has Jewish intellectual culture played in the development of modern Romance literature? Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627: Fernando de Rojas's *La Celestina*, Leone Ebreo's *Dialoghi d'amore*, the anonymous tale *Lazarillo de Tormes* (the first picaresque novel), Montaigne's *Essais*, and the poetical renditions of the Bible by João Pinto Delgado. Forced to straddle two cultures and religions, these Iberian conversos (Jews who converted to Catholicism) prefigured the subjectivity which would come to characterize modernity. As "New Christians" in an intolerant world, these thinkers worked within the tensions of their historical context to question norms and dogmas. In the past, scholars have focused on the Jewish origins of such major figures in literature and philosophy. Through close readings of these texts, Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors subverted and transcended traditional genres. She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries, demonstrating the extent to which the development of early modern subjective consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences.

The Spy Novels of John Le Carré - Myron Joel Aronoff 1999

Using espionage as a metaphor for politics, John le Carré explores the dilemmas that confront individuals and governments during and in the aftermath of the Cold War. His unforgettable characters struggle to maintain personal and professional integrity while facing conflicting personal, institutional, and ideological loyalties. In *The Spy Novels of John le Carré*, author Myron Aronoff interprets the ambiguous ethical and political implications of the work of John le Carré, revealing him to be one of the most important political writers of

our time. Aronoff shows how through his writing, le Carré poses the difficult question of the extent to which western governments are justified in pursuing *raison d'état* without undermining the very democratic freedoms that they claim to defend. He also draws parallels between the self-parody of le Carré and that of the seventeenth century Dutch artist Jan Steen, and explains how it expresses a unique form of ambiguous moralism. In this volume Aronoff relates le Carré's fictional world to the real world of espionage and demonstrates the need to balance the imperatives of ethics and politics in regard to some of the most pressing issues facing the world today.

Doctors - Sherwin B. Nuland 2011-10-19

From the author of *How We Die*, the extraordinary story of the development of modern medicine, told through the lives of the physician-scientists who paved the way. How does medical science advance? Popular historians would have us believe that a few heroic individuals, possessing superhuman talents, lead an unselfish quest to better the human condition. But as renowned Yale surgeon and medical historian Sherwin B. Nuland shows in this brilliant collection of linked life portraits, the theory bears little resemblance to the truth. Through the centuries, the men and women who have shaped the world of medicine have been not only very human, but also very much the products of their own times and places. Presenting compelling studies of great medical innovators and pioneers, *Doctors* gives us a fascinating history of modern medicine. Ranging from the legendary Father of Medicine, Hippocrates, to Andreas Vesalius, whose Renaissance masterwork on anatomy offered invaluable new insight into the human body, to Helen Taussig, founder of pediatric cardiology and co-inventor of the original "blue baby" operation, here is a volume filled with the spirit of ideas and the thrill of discovery.

De la vanidad - Michel Eyquen de Montaigne

"He envejecido mucho desde mis primeras publicaciones, que tuvieron lugar en el año 1580. Pero dudo que me haya vuelto una pulgada más sabio. Yo entonces y yo ahora somos por cierto dos: cuál es mejor no puedo decirlo. Sería bonito ser viejo si uno no se encaminara a otra cosa que al mejoramiento. Es un titubeante andar de borracho, vertiginoso, informe, o de juncos que el aire maneja azarosamente según los designios de la brisa." Todo es relativo. Ésa es la gran lección que sobrevuela este texto, extraído del libro III de los Ensayos de Montaigne. Pilar de un auténtico monumento literario, *De la vanidad* nos acerca una propuesta esencial: conservar el espíritu crítico, pues ningún conocimiento es absoluto. En un siglo en el cual reinan las guerras de religión, la miseria y la vanidad, Montaigne reclama el derecho a dudar, para defender el eclecticismo y la tolerancia. Michel Eyquem de Montaigne (1533-1592) fue uno de los escritores más influyentes del Renacimiento francés. En sus escritos demuestra una asombrosa habilidad para mezclar la especulación teórica más rigurosa con anécdotas casuales y autobiográficas. Buena parte de la literatura moderna de no ficción debe su génesis a Montaigne, quien dejó su huella en autores como Shakespeare, Rousseau y Nietzsche.

André Breton, Magus of Surrealism - Anna Balakian 1971

De Rerum Natura III - Titus Carus Lucretius 1997

Lucretius' poem, for which Epicurean philosophy provided the inspiration, attempts to explain the nature of the universe and its processes with the object of freeing mankind from religious fears. The third book not only seeks to demonstrate that, since the soul is mortal, there can be no after-life, but also aims to reconcile the reader to the prospect of the end of his consciousness. This edition incorporates a new text and prose translation and is designed to set the book in the context of the whole poem and of the Epicurean philosophical system, to explain and elucidate its argument, and at the same time to analyse some of the literary and artistic features which contribute to Lucretius' poetic achievement and stature. Latin text with facing page translation.

The Essay Film After Fact and Fiction - Nora M. Alter 2018-01-02

Nora M. Alter reveals the essay film to be a hybrid genre that fuses the categories of feature, art, and documentary film. Like its literary predecessor, the essay film draws on a variety of forms and approaches; in the process, it fundamentally alters the shape of cinema. *The Essay Film After Fact and Fiction* locates the genre's origins in early silent cinema and follows its transformation with the advent of sound, its legitimation in the postwar period, and its multifaceted development at the turn of the millennium. In addition to exploring the broader history of the essay film, Alter addresses the innovative ways contemporary artists such as Martha Rosler, Isaac Julien, Harun Farocki, John Akomfrah, and Hito Steyerl have taken up the essay film in their work.

On Diary - Philippe Lejeune 2009-04-30

On Diary is the second collection in English of the groundbreaking and profoundly influential work of one of the best-known and provocative theorists of autobiography and diary. Ranging from the diary's historical origins to its pervasive presence on the Internet, from the spiritual journey of the sixteenth century to the diary of Anne Frank, and from the materials and methods of diary writing to the question of how diaries end, these essays display Philippe Lejeune's expertise, eloquence, passion, and humor as a commentator on the functions, practices, and significance of keeping or reading a diary. Lejeune is a leading European critic and theorist of diary and autobiography. His landmark essay, "The Autobiographical Pact," has shaped life writing studies for more than thirty years, and his many books and essays have repeatedly opened up new vistas for scholarship. As Michael Riffaterre notes, "Lejeune's work on autobiography is the most original, powerful, effective approach to a difficult subject. . . . His style is very personal, lively. It grabs the reader as scholarship rarely does. Lejeune's erudition and methodology are impeccable." Two substantial introductory essays by Jeremy Popkin and Julie Rak place Lejeune's work within its critical and theoretical traditions and comment on his central importance within the fields of life writing, literary genetic studies, and cultural studies.

Logic and the Art of Memory - Paolo Rossi 2000-12-15

The mnemonic arts and the idea of a universal language that would capture the essence of all things were originally associated with cryptology, mysticism, and other occult practices. And it is commonly held that these enigmatic efforts were abandoned with the development of formal logic in the seventeenth century and the beginning of the modern era. In his distinguished book, *Logic and the Art of Memory* Italian philosopher and historian Paolo Rossi argues that this view is belied by an examination of the history of the idea of a universal language. Based on comprehensive analyses of original texts, Rossi traces the development of this idea from late medieval thinkers such as Ramon Lull through Bruno, Bacon, Descartes, and finally Leibniz in the seventeenth century. The search for a symbolic mode of communication that would be intelligible to everyone was not a mere vestige of magical thinking and occult sciences, but a fundamental component of Renaissance and Enlightenment thought. Seen from this perspective, modern science and combinatorial logic represent not a break from the past but rather its full maturity. Available for the first time in English, this book (originally titled *Clavis Universalis*) remains one of the most important contributions to the history of ideas ever written. In addition to his eagerly anticipated translation, Steven Clucas offers a substantial introduction that places this book in the context of other recent works on this fascinating subject. A rich history and valuable sourcebook, *Logic and the Art of Memory* documents an essential chapter in the development of human reason.

Damião de Gois - Elisabeth Feist Hirsch 2012-12-06

Scholars have given relatively little attention to sixteenth-century Portuguese humanism, although Portugal's

vital influence on the humanistic thirst for learning has been readily acknowledged. Through her heroic explorations of distant lands and dangerous sea routes, Portugal infected many humanists with the excitement of discovery, none more than Damiao de Gois, Portuguese student of history. Gois, although generally little known, was - in his life and finally as a victim of the Inquisition in Portugal - thoroughly representative of the course of sixteenth-century Erasmian humanism in Portugal; in addition he deserves recognition in his own right as a contributor to modern historiography. Portugal's explorations and the atmosphere of passion for discovery that prevailed in Lisbon had as strong an influence on Gois during his early years as that of the school of Erasmus, the "prince of humanists" who was eventually to become his personal friend and guide. Gois's two great chronicles of the Portuguese kings John II and Manuel I culminated a life spent as diplomat, composer, art collector, articulate pleader for religious tolerance, and scrupulous student of history. A factual report of Gois's life - in the main outlines accurate but not complete - exists in Portuguese, and a short resume of his life has been published in English, but so far no full study has been available in any language.

Theater as Metaphor - Elena Penskaya 2019-05-20
