Fluidized Bed Boilers - Prabir Basu 2013-10-22

Fluidized Bed Boilers: Design and Application attempts to address the need for a single source of information covering all major areas of fluidized bed boiler design and operation. It is based on the International Workshop on Design and Operation of Atmospheric Pressure Fluidized Bed Boilers, organized by the Center for Energy Studies, Technical University of Nova Scotia in Halifax on 24-45 June 1983. The volume begins by presenting a simplified approach to the design of a fluidized bed boiler and an overview of problems in fluidized-bed combustion (FBC). These are followed by separate chapters on the equations and concepts needed to estimate key hydrodynamic parameters; the key factors and terms to be considered in selecting FBC for specific applications; and principles in the design of air distributors for a fluidized bed boiler. Subsequent chapters discuss heat transfer to surfaces in fluidized beds; the pollution control of fluidized bed combustion of solid fuels; and materials selection in atmospheric fluidized bed combustion systems. The final two chapters are devoted to applications. These include the operational and performance results of TVA's 20-MW Atmospheric Fluidized Bed Combustion (AFBC) Pilot Plant in Kentucky; and the performance of Canada's first commercial FBC boiler plant, located at CFB Summerside, PEI.

Southern Edwardseans - Obbie Tyler Todd 2022-01-17

The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists

scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

Their Trade is Treachery - Harry Chapman Pincher 2014-11-13

Harry Chapman Pincher is regarded as one of the finest investigative reporters of the twentieth century. Over the course of a glittering six-decade career, he became notorious as a relentless investigator of spies and their secret trade, proving to be a constant thorn in the side of the establishment. So influential was he that Prime Minister Harold Macmillan once asked, 'Can nothing be done to suppress Mr Chapman Pincher?' It is for his sensational 1981 book, *Their Trade is Treachery*, that he is perhaps best known. In this extraordinary volume he dissected the Soviet Union's infiltration of the western world and helped unmask the Cambridge Five. He also outlined his suspicions that former MI5 chief Roger Hollis was in fact a super spy at the heart of a ring of double agents poisoning the secret intelligence service from within. However, the Hollis revelation was just one of the book's many astounding coups. Its impact at the time was immense and highly controversial, sending ripples through the British intelligence and political landscapes. Never before had any writer penetrated so deeply and authoritatively into this world - and few have since. Available now for the first time in thirty years, this eye-opening volume is an incomparable and definitive account of the thrilling nature of Cold War espionage and treachery. The Dialogue Espionage Classics series began in 2010 with the purpose of bringing back classic out-of-print spy stories that should never be forgotten. From the Great War to the Cold War, from the French Resistance to the Cambridge Five, from Special Operations to Bletchley Park, this fascinating spy history series includes some of the best military, espionage and adventure stories ever told.

Hypotensive Syndromes in Geriatric Patients - Kannayiram Alagiakrishnan 2019-12-30

As the Baby Boomers age, concerns over healthcare systems abilities to accommodate geriatric patients grow increasingly challenging. The increased life expectancy of the population since the early 1900s had been built on the improvement of living conditions, diet, public health and advancement in medical care. With this we have seen a steady decline in the age-specific prevalence of vascular and heart diseases, stroke and even dementia. In addition, societies worldwide struggle to develop a large enough workforce to treat aging patients, which forces geriatric patients to rely on physicians in a wide array of specialties that are often not trained for their demographic. These trends have created a tremendous need for trustworthy resources, yet with regard to hypotensive syndromes, nothing of this nature exists. Hypotensive syndromes represent a heterogenous group of disease states. Hypotensive syndromes are characterized by low blood pressure following postural changes, meals and neck turning. These are common conditions seen in the elderly and could be due to blood pressure dysregulation. These syndromes frequently cause dizziness, syncope and falls in the elderly as well as a resultant decrease in function, and they are frequently mistaken for other conditions. This is especially true among physicians who are not trained to consider the unique needs of an aging patient. The proposed book is designed to present a comprehensive approach to the management of hypotensive syndromes in the elderly. Currently there are no guidelines or good resource to guide about these conditions. This book will also discuss the challenges of diagnosis and management of these conditions. The text introduces the concepts to set a clear foundation before covering the syndromes as they present in other comorbidities, including diabetes, heart failure, and a wide array of serious conditions that are common in older patients. As the Baby Boomers continue to age, this text will prove a vital resource for a wide array of specialties that will be increasingly critical to meeting their needs.

Language: A Linguistic Introduction to History - J. Vendryes 2013-12-16

Originally published between 1920-70, The History of Civilization was a landmark in early twentieth century publishing. It was published at a formative time within the social sciences, and during a period of decisive historical discovery. The aim of the general editor, C.K. Ogden, was to summarize the most up to date findings and theories of historians, anthropologists, archaeologists and sociologists. This reprinted material is available as a set or in the following groupings: * Prehistory and Historical Ethnography Set of 12: 0-415-15611-4: £800.00 * Greek Civilization Set of 7: 0-415-15612-2: £450.00 * Roman Civilization Set of 6: 0-415-15613-0: £400.00 * Eastern Civilizations Set of 10: 0-415-15614-9: £650.00 * Judaeo-Christian Civilization Set of 4: 0-415-15615-7: £250.00 * European Civilization Set of 11: 0-415-15616-5: £700.00

Pilgrimage in Tibet - Alex McKay 2013-12-16

The Western image of Tibet as a sacred land is in many ways a mythical construction. But the Tibetans themselves have traditionally mapped out their land in terms of areas of sacred space, and pilgrimage, ensuring a high degree

of mobility within all classes of Tibetan society. Pilgrims travelled to local, regional, and national centres throughout recorded Tibetan history. In recent years, pilgrimage has resumed in areas where it had been forbidden by the Chinese authorities, and has now become one of the most prominent religious expressions of Tibetan national identity. In this major new work, leading scholars of Asian pilgrimage traditions discuss historical and contemporary aspects of pilgrimage within the Tibetan cultural world. Myths and legends, material conditions, textual sources, a modern pilgrim's impressions, political and economic influences, biographies and contemporary developments - all these and many other issues are examined here. The result is an informative and often entertaining work which contributes greatly to our knowledge of the history and culture of Tibet as well as the wider issues of religious power and practice.

Writing the Dream - Serenity Press 2016-11-14

A collection of 24 stories written by talented authors. No two writers are the same, but they have one thing in common: they are storytellers at heart and their deepest desire is to be heard. Writing the Dream shares the stories of twenty-four Australian writers, from emerging to established authors. Some are traditionally published, while others have taken the self-publishing route. Some have faced rejection after rejection, while others have had a dream path. But, while their writing journeys are different, all of them strive to create, entertain, inspire and inform. And all of them have unique and creative voices that deserve to be heard. With contributors including Anna Jacobs, Juliet Marillier, Natasha Lester, Jenn J McLeod, and a host of other talented writers, the stories in Writing the Dream are set to strike an inspirational chord in every hopeful writer's heart.

Tribal Communities in the Malay World - Geoffrey Benjamin 2003-08-01

The Malay World (Alam Melayu), spanning the Malay Peninsula, much of Sumatra, and parts of Borneo, has long contained within it a variety of populations. Most of the Malays have been organized into the different kingdoms (kerajaan Melayu) from which they have derived their identity. But the territories of those kingdoms have also included tribal peoples - both Malay and non-Malay - who have held themselves apart from those kingdoms in varying degrees. In the last three decades, research on these tribal societies has aroused increasing interest. This book explores the ways in which the character of these societies relates to the Malay kingdoms that have held power in the region for many centuries past, as well as to the modern nation-states of the region. It brings together researchers committed to comparative analysis of the tribal groups living on either side of the Malacca Straits - in Indonesia, Malaysia, Thailand, and Singapore. New theoretical and descriptive approaches are presented for the study of the social and cultural continuities and discontinuities manifested by tribal life in the region.
