The Lives of the Greek Poets - Mary R. Lefkowitz 2013-03-14

Mary R. Lefkowitz has extensively revised and rewritten her classic study to introduce a new generation of students to the lives of the Greek poets. Thoroughly updated with references to the most recent scholarship, this second edition includes new material and fresh analysis of the ancient biographies of Greece's most famous poets. With little or no independent historical information to draw on, ancient writers searched for biographical data in the poets' own works and in comic poetry about them. Lefkowitz describes how biographical mythology was created and offers a sympathetic account of how individual biographers reconstructed the poets' lives. She argues that the life stories of Greek poets, even though primarily fictional, still merit close consideration, as they provide modern readers with insight into ancient notions about the creative process and the purpose of poetic composition.

The Best of the Argonauts - James J. Clauss 2021-01-08

This revelatory exploration of Book One of the *Argonautica* rescues Jason from his status as the ineffectual hero of Apollonius' epic poem. James J. Clauss argues that by posing the question, "Who is the best of the Argonauts?" Apollonius redefines the epic hero and creates, in Jason, a man more realistic and less awesome than his Homeric predecessors, one who is vulnerable, dependent on the help of others, even morally questionable, yet ultimately successful. In bringing Apollonius' "curious and demanding poem" to life, Clauss illuminates two features of the poet's narrative style: his ubiquitous allusions to the poetry of others, especially Homer, and the carefully balanced structural organization of his episodes. The poet's subtextual interplay is explored, as is his propensity for underscoring the manipulation of the poetry of others through ring composition. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1993.

Beginning from Apollo - Annette Harder 2005

Beginning from Apollo is the sixth volume of *Caeculus* and contains the Proceedings of the sixth Fransum Colloquium, held on 8 March 2003. The theme of this colloquium was Apollonius Rhodius, the third c. BC poet who wrote the epic *Argonautica* as well as a number of other works, now preserved only in fragments. Apollonius' work was the subject of two doctoral dissertations completed at the University of Groningen, by Burkhard Scherer and by Iris Schmakeit, who have organized the colloquium and chosen the speakers. The papers in this volume share a focus on the position of Apollonius within the Greek cultural tradition. We see on the one hand how he engages the literary tradition before him and expects his readers to know the material of earlier poets, such as Homer, Pindar and the tragedians, and of the earlier Argonautic epics. On the other hand we get an impression of the way in which Apollonius incorporates antiquarian material, including traditions about obscure cults. Finally we learn how Apollonius and the Argonauts were the object of attention of later poets and scholars. Taken together the articles in this volume provide the reader with a good picture of Apollonius' central position in a long chain of reception and interaction.

Paideia: The World of the Second Sophistic - Barbara E. Borg 2008-08-22

In the World of the Second Sophistic, education, *paideia*, was a crucial factor in the discourse of power. Knowledge in the fields of medicine, history, philosophy, and poetry joined with rhetorical brilliance and a presentable manner became the

outward appearance of the elite of the Eastern Roman Empire. This outward appearance guaranteed a high social status as well as political and economical power for the individual and major advantages for their hometowns in interpolis competition. Since paideia was related particularly to Classical Greek antiquity, it was, at the same time, fundamental to the new self-confidence of the Greek East. This book presents, for the first time, studies from a broad range of disciplines on various fields of life and on different media, in which this ideology became manifest. These contributions show that the Sophists and their texts were only the most prominent exponents of a system of thoughts and values structuring the life of the elite in general.

Early Greek Alchemy, Patronage and Innovation in Late Antiquity - Olivier Dufault 2019

Early Greek Alchemy, Patronage and Innovation in Late Antiquity provides an example of the innovative power of ancient scholarly patronage by looking at a key moment in the creation of the Greek alchemical tradition. New evidence on scholarly patronage under the Roman empire can be garnered by analyzing the descriptions of learned magoi in several texts from the second to the fourth century CE. Since a common use of the term magos connoted flatterer-like figures (kolakes), it is likely that the figures of "learned sorcerers" found in texts such as Lucian's *Philopseudes* and the apocryphal Acts of Peter captured the notion that some client scholars exerted undue influence over patrons. The first known author of alchemical commentaries, Zosimus of Panopolis (c. 300 CE), presented himself neither as a magos nor as an alchemist. In his treatises, he rather appears as a Christian scholar and the client of a rich woman named Theosebeia. In three polemical letters to his patroness, Zosimus attempted to discredit rival specialists of alchemy by describing them as magoi and demon-worshippers and by equating their techniques with Egyptian temple practice. In a subtler attempt to edge out his competitors, Zosimus pointed to their limited education and suggested that true alchemy could only be acquired by a meticulous interpretation of Greek alchemical texts. Extant evidence thus suggests that alchemical texts were first introduced among other Greek scholarly traditions when Zosimus annexed Egyptian temple rituals into the ambit of paideia thanks to the support and venue provided by his patroness.

The Lost Constellations - John C. Barentine 2015-10-23

Casual stargazers are familiar with many classical figures and asterisms composed of bright stars (e.g., Orion and the Plough), but this book reveals not just the constellations of today but those of yesteryear. The history of the human identification of constellations among the stars is explored through the stories of some influential celestial cartographers whose works determined whether new

inventions survived. The history of how the modern set of 88 constellations was defined by the professional astronomy community is recounted, explaining how the constellations described in the book became permanently "extinct." Dr. Barentine addresses why some figures were tried and discarded, and also directs observers to how those figures can still be picked out on a clear night if one knows where to look. These lost constellations are described in great detail using historical references, enabling observers to rediscover them on their own surveys of the sky. Treatment of the obsolete constellations as extant features of the night sky adds a new dimension to stargazing that merges history with the accessibility and immediacy of the night sky.

The Philosophy Of Natural Magic - Agrippa von Nettesheim 2014-06-02

In the last half of 1509 and the first months of 1510, Cornelius Agrippa, known in his day as a Magician, gathered together all the Mystic lore he had obtained by the energy and ardor of youth and compiled it into the elaborate system of Magic, in three books, known as Occult Philosophy, the first book of which--Natural Magic--constitutes the present volume. This is true and sublime Occult Philosophy. To understand the mysterious influences of the intellectual world upon the celestial, and of both upon the terrestrial; and to know how to dispose and fit ourselves so as to be capable of receiving the superior operations of these worlds, whereby we may be enabled to operate wonderful things by a natural power--to discover the secret counsels of men, to increase riches, to overcome enemies, to procure the favor of men, to expel diseases, to preserve health, to prolong life, to renew youth, to foretell future events, to see and know things done many miles off, and such like as these. These things may seem incredible, yet read but the ensuing treatise and thou shalt see the possibility confirmed both by reason and example.

Heretical Empiricism - Pier Paolo Pasolini 2005

This is an expanded edition of Pier Paolo Pasolini's long out-of-print *Heretical Empiricism*. It includes a new Introduction by Ben Lawton that discusses the relevance of the book on the 30th anniversary of the author's death. It also features the first approved translation of "Reputation of the 'Trilogy of Life'," one of Pasolini's most controversial final essays. While Pasolini is best known in the U.S. as a revolutionary film director, in Italy he was even better known as poet, novelist, playwright, political gadfly, and scholar of the semiotics of film. "New Academic Publishing should be commended for making this expanded version of Pier Paolo Pasolini's *Hermetic Empiricism* once again available to the English-speaking public, especially in the light of the fact that the

important essay, "Repudiation of the Trilogy of Life," has been added to its contents. Thirty years after Pasolini's violent death on 2 November 1975, the appearance of this excellent translation and edition of his major writings on Italian film, literature, and language is most welcome. No figure has emerged in Italy since the writer/director's death that has aroused such passionate opinions from all sides of the political and cultural spectrum. The translations by Ben Lawton and Louise Barnett render Pasolini's sometimes complex prose accurately with ample explanatory notes to guide the reader without a firm grasp of the original essays in Italian. This book represents an important work to have in every library devoted to cultural criticism, cinema, and literary theory." -- Peter Bondanella, Distinguished Professor of Comparative Literature and Italian, Indiana University "One of the greatest cultural figures of postwar Europe, Pier Paolo Pasolini (1922-1975), who is already widely known as a revolutionary filmmaker, was an equally important writer and poet. Pasolini's numerous works are published in some 50 volumes, which include poetry, novels, critical and theoretical essays, verse tragedies, screenplays, political journalism, and translations. With this successful and complete translation of *Empirismo eretico* (a collection of Pasolini's interventions on language, literature, and film written between 1964 and 1971), editors Barnett and Lawton have made a wide sample of Pasolini's most significant theoretical work available to the English-speaking reader. Essays on the screenplay, on the commercial and the art cinema, and on film semiotics make the collection of special interest to American film scholars and students. This volume is further enriched by an excellent introduction, carefully edited notes, a useful biographical glossary, and a thorough index. Given the contemporary interest in studying film, together with other cultural forms, within a broad social and historical context, Pasolini's "extravagantly interdisciplinary" writings beckon as a promising source of insight. A potentially seminal text that could contribute to the further evolution of interdisciplinary humanistic studies, *Heretical Empiricism* is highly recommended for university and college libraries." -- J. Welle, University of Notre Dame, CHOICE (1989)

Lexicon of Jewish Names in Late Antiquity: The Eastern Diaspora 330 BCE-650 CE - Tal Ilan 2002

"In this lexicon Tal Ilan collects all the information on names of Jews in

Palestine and the people who bore them between 330 BCE, a date which marks the Hellenistic conquest of Palestine, and 200 CE, the date usually assigned to the close of the mishnaic period, and the early Roman Empire. Thereby she includes names from literary sources as well as those found in epigraphic and papyrological documents. Tal Ilan discusses the provenance of the names and explains them etymologically, given the many possible sources of influence for the names at that time." "In addition she shows the division between the use of biblical names and the use of Greek and other foreign names. She analyzes the identity of the persons and the choice of name and points out the most popular names at the time. The lexicon is accompanied by a lengthy and comprehensive introduction that scrutinizes the main trends in name giving current at the time." --Book Jacket.

The Intellectual Education of the Italian Renaissance Artist - Angela Dressen 2021-07-31

Scholars have traditionally viewed the Italian Renaissance artist as a gifted, but poorly educated craftsman whose complex and demanding works were created with the assistance of a more educated advisor. These assumptions are, in part, based on research that has focused primarily on the artist's social rank and workshop training. In this volume, Angela Dressen explores the range of educational opportunities that were available to the Italian Renaissance artist. Considering artistic formation within the history of education, Dressen focuses on the training of highly skilled, average artists, revealing a general level of learning that was much more substantial than has been assumed. She emphasizes the role of mediators who had a particular interest in augmenting artists' knowledge, and highlights how artists used Latin and vernacular texts to gain additional knowledge that they avidly sought. Dressen's volume brings new insights into a topic at the intersection of early modern intellectual, educational, and art history.

Apollonius of Rhodes: Argonautica Book III - Apollonius Rhodius 1989-06

The *Argonautica* of Apollonius of Rhodes, composed in the third century BC and the only extant Greek epic between Homer and the later Roman empire, tells of Jason's successful expedition with the Argonauts to recover the Golden Fleece from Colchis on the Black Sea. Book III relates the story of Jason and Medea, a young Colchian princess who falls in love with Jason and helps him by magic to survive the ordeals imposed by her father. The description of Medea's emotional suffering exercised a profound influence on subsequent writers and especially on Virgil in his account of Dido and Aeneas. Dr Hunter's edition provides a full introduction to the poem and its poet, an up-to-date text of Book III and a full commentary which covers problems of language and translation as well as dealing with the poetic meaning of the work and Apollonius' creative use of the Homeric heritage. It is the first full-scale treatment in English of Book III to be written in the modern period of renewed interest in Hellenistic poetry. This edition makes *Argonautica* III available to students of Greek at university and in the upper forms of schools, but scholars of Greek and Latin, especially those interested in Hellenistic literature and in epic, will also find it valuable.

The Renewal of Epic - V. Knight 2018-07-17

The Dance of the Islands - Christy Constantakopoulou 2010-07-29

Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity, with particular emphasis on the fifth century BC. Islands are a prominent feature of the Aegean landscape, and this inevitably created a variety of different (and sometimes contradictory) perceptions of insularity in classical Greek thought. Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction, but the predominance of islands in the Aegean sea made island isolation almost impossible. Rather, island connectivity was an important feature of the history of the Aegean and was expressed on many levels. Constantakopoulou investigates island interaction in two prominent areas, religion and imperial politics, examining both the religious networks located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century.

A Companion to Apollonius Rhodius - Theodore D. Papanghelis 2017-07-31

Fine Books - Alfred William Pollard 1964

The Aesthetics of Darkness - Evina Sistakou 2012

Darkness in literature manifests itself as a fascination with the evil passions of man, an emphasis on the ugly and the monstrous, an obsession with morbidity and death, a blurring of the boundaries between reality and imagination; its effect ranges from pleasure in the representation of horror to the overwhelming sense of the sublime. The premise that these trends find their most powerful expression in Romantic literature forms the basis for the exploration of darkness in Hellenistic poetry in the present study: Apollonius' *Argonautica*, a dark romance building around a heroic quest, is read against the background of fantasy literature and the Gothic novel; Lycophron's *Alexandra*, a dark remake of *Kassandra's* prophecy, is seen as an extreme paradigm of Gothic aesthetics; Nicander's *Theriaca* and *Alexipharmaca*, two didactic poems on snakes and their antidotes, are reviewed in the light of Romantic science and the aesthetics of Decadence. The introduction provides the theoretical framework where key notions are discussed—the fantastic, the Gothic, the grotesque, the uncanny—, whereas the afterword offers an explanation for the parallelism between the Hellenistic and the Romantic era by reference to their ideological and cultural contexts. *The Aesthetics of Darkness* is a comparative study which combines the 'close reading' of the Greek texts with literary criticism as well as with specific examples drawn from nineteenth century literature; by thus transcending the boundaries of conventional scholarship, the book attempts to capture the Romantic awakenings of post-Classical literature.

The Centaur - John Updike 2012-06-05

WINNER OF THE NATIONAL BOOK AWARD AND THE PRIX DU MEILLEUR LIVRE ÉTRANGER *The Centaur* is a modern retelling of the legend of Chiron, the noblest and wisest of the centaurs, who, painfully wounded yet unable to die, gave up his immortality on behalf of Prometheus. In the retelling, Olympus becomes small-town Olinger High School; Chiron is George Caldwell, a science teacher there; and Prometheus is Caldwell's fifteen-year-old son, Peter. Brilliantly conflating the author's remembered past with tales from Greek mythology, John Updike translates Chiron's agonized search for relief into the incidents and accidents of three winter days spent in rural Pennsylvania in 1947. The result, said the judges of the National Book Award, is "a courageous and brilliant account of a conflict in gifts between an inarticulate American father and his highly articulate son."

Rhodes in the Hellenistic Age - Richard M. Berthold 2018-10-18

This book offers a detailed political history of Rhodes from the foundation of the Rhodian republic in the fifth century B.C. to the conclusions of Rhodes' alliance with Rome in the second, a period in which Rhodes was a major Mediterranean power. Richard M. Berthold provides a complete account of Rhodian foreign affairs, exploring the principles and reasons behind Rhodes' foreign policy decisions. He traces Rhodes' history through the stormy years of the fourth century to the independence and prosperity of the third, arguing that Rhodes achieved economic and political success by pursuing a course of studied neutrality. Berthold maintains that Rhodes did not willfully abandon its neutral stance during the second century, but rather was forced by events to support Rome, a posture that ultimately led to Rhodes' loss of independence.
