Bibliography of North American Geology - 1965

1919/28 cumulation includes material previously issued in the 1919/20-1935/36 issues and also material not published separately for 1927/28. 1929/39 cumulation includes material previously issued in the 1929/30-1935/36 issues and also material for 1937-39 not published separately.

Economy of Religions in Anatolia and Northern Syria - Manfred Hutter 2019-10-01

"Religions" are always costly - one has to give offerings (with material value) to the gods, one has to provide the salary for religious specialists who offer their service for their clients, one has to arrange festivals and liturgies - and of course, one has to provide the material means for building temples or shrines. But these costs also repay - as the gods give health or well-being as reward for the offerings. Even if one can never be absolutely certain about such a reward, one at least might earn social reputation because of one's (financial) involvement in religion. But temples are also economic centres - "employing" (often in close relation to the palace) people as workers, craftsmen or "intellectuals" in different positions whose "costs of living" are supplied by the temple. Individual religious specialists receive payment for their service to cover their own costs of living.

Although this might sound "modern", religion and economy were intertwined with each other in ancient society also. For this reason, the papers of this conference volume analyse and discuss how the cults, rituals and institutions in Anatolia in the 2nd and 1st millennium contribute to the economic process in those areas.

Volume 16, Tome I: Kierkegaard's Literary Figures and Motifs - Katalin Nun 2016-12-05

While Kierkegaard is perhaps known best as a religious thinker and philosopher, there is an unmistakable literary element in his writings. He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with. This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians, but at the same time it has made their interpretation more complex. Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew, but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions. The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard. The volume is arranged alphabetically by name, with Tome I covering figures and motifs from Agamemnon to Guadalquivir.

Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 - New York Public Library. Research Libraries 1979

Muscle Biopsy - Victor Dubowitz 2020-05-28

For more than 45 years, *Muscle Biopsy: A Practical Approach* has offered, comprehensive, clinically-focused coverage of the acquisition, interpretation, and assessment of muscle biopsies - an area often only lightly covered in pathology texts. Taking an integrated approach that includes clinical, genetic, biochemical, and pathological features, the 5th Edition covers the full range of muscle disease in both adults and children. This highly illustrated, easy-to-use volume helps you navigate this challenging area, bridging the gap between clinical syndromes/disorders and their underlying pathologies. Fully updated 5th edition of this internationally acclaimed classic in muscle pathology. Written by internationally recognized world leaders in the field of muscle

pathology. Comprehensive coverage of histology, histochemistry, immunocytochemistry and electron microscopy in parallel with clinical and genetic advances. Lavishly illustrated with over 600 full colour images. Fully updated literature review. Comprehensive update on the rapidly expanding field of neuromuscular disorders. 4th edition Highly Commended in Pathology category of the prestigious 2014 BMA Medical Book Awards.

The Seven Sages of Rome -

A Dictionary of Greek and Roman Geography - William Smith 1872

Continuing the series of philological and historical commentaries on Ammianus' *Res Gestae* this volume deals with Book 26, in which the beginning of the reign of Valentinian and Valens is described and the rise and fall of the usurper Procopius. History of the Later Roman Empire from the Death of Theodosius I. to the Death of Justinian - John Bagnell Bury 1958-01-01
An unabridged and unaltered republication of the first edition. *The Gentleman's Magazine* - 1793

Poverty and Charity in Roman Palestine, First Three Centuries C.E. - Gildas H. Hamel 1983

Forthcoming Books - Rose Arny 1992

War and Society in Early Rome - Jeremy Armstrong 2016-04-08

This book combines the rich, but problematic, literary tradition for early Rome with the ever-growing archaeological record to present a new interpretation of early Roman warfare and how it related to the city's various social, political, religious, and economic institutions. Largely casting aside the anachronistic assumptions of late republican writers like Livy and Dionysius of Halicarnassus, it instead examines the general modes of behaviour evidenced in both the literature and the archaeology for the period and attempts to reconstruct, based on these characteristics, the basic form of Roman society and then to 're-map' that on to the extant tradition. It will be important for scholars and students studying many aspects of Roman history and warfare, but particularly the history of the regal and republican periods.

An universal etymological English dictionary ... The twenty first edition, etc - Nathan BAILEY 1775

Anaxagoras, Origen, and Neoplatonism - Panayiotis Tzamalikos 2016-09-26

Origen has been always studied as a theologian and too much credit has been given to Eusebius' implausible hagiography of him. This book explores who Origen really was, by pondering into his philosophical background, which determines his theological exposition implicitly, yet decisively. For this background to come to light, it took a ground-breaking exposition of Anaxagoras' philosophy and its legacy to Classical and Late Antiquity (Plato, Aristotle, Stoics, Origen, Neoplatonism), assessing critically Aristotle's distorted representation of Anaxagoras. Origen, formerly a Greek philosopher of note, whom Proclus styled an anti-Platonist, is placed in the history of philosophy for the first time. By drawing on his Anaxagorean background, and being the first to revive the Anaxagorean Theory of Logoi, he paved the way to Nicaea. He was an anti-Platonist because he was an Anaxagorean

philosopher with far-reaching influence, also on Neoplatonists such as Porphyry. His theology made an impact not only on the Cappadocians, but also on later Christian authors. His theory of the soul, now expounded in the light of his philosophical background, turns out more orthodox than that of some Christian stars of the Byzantine imperial orthodoxy.

A Mathematical History of the Golden Number - Roger Herz-Fischler 2013-12-31

This comprehensive study traces the historic development of division in extreme and mean ratio ("the golden number") from its first appearance in Euclid's Elements through the 18th century. Features numerous illustrations.

Bibliography of North American Geology - Geological Survey (U.S.) 1950

1785/1918 includes material issued previously in the annual Bibliography of North America geology, and in cumulative volumes issued by N. H. Darton and F. B. Weeks. 1919/28 cumulation includes material previously issued in the 1919/20-1935/36 issues and also material not published separately for 1927/28. 1929/39 cumulation includes material previously issued in the 1929/30-1935/36 issues and also material for 1937-39 not published separately.

The Origin of the Roman Catholic Church in Korea - Jai-Keun Choi 2006

Hailed by leading South Korean academics as the most significant research on the history of Korean Catholicism to date, Professor Jai-Keun Choi of Yonsei University in Korea explores the origin of the Roman Catholic Church in the Korean peninsula. Professor Choi raises important historical questions as: What were the historical forces that allowed Roman Catholicism to take root in the 19th century Choson Korea despite official governmental efforts to stamp out Catholicism through systematic persecution? What was the Korean populist reaction to Roman Catholic missions? What was the role that native Korean converts played in the spread of Catholicism throughout Korea? With a keen eye to the delicacies of conflicting historical forces, Professor Choi adroitly explains the complexities of the clash of civilizations in the experience of Choson Korea, where Korean Confucianism responded with greatest hostility to Roman Catholicism from the West. This book makes a significant scholarly contribution not only in the study of Korean history but also in such academic disciplines as sociology of religion, anthropology, political science, and international relations.

History of the Later Roman Empire - J. B. Bury 2012-07-18

Volume 1 of classic history. One of the world's foremost historians chronicles the major forces and events in the history of the Western and Byzantine Empires from the death of Theodosius (A.D. 395) to the death of Justinian (A.D. 565).

Norton's Literary Gazette and Publishers' Circular - 1851

Architecture and Politics in Republican Rome - Penelope J. E. Davies 2017-12-07

This book argues that Republican Rome and its component buildings were inextricably intertwined with government, which they perpetuated and challenged.

A Dictionary of Greek and Roman Biography and Mythology - William Smith 1880

Ashlar - Maud Devolder 2020-06-25

This volume focusses on ashlar masonry, probably the most elaborate construction technique of the Eastern Mediterranean Bronze Age, from a cross-regional perspective. The building practices and the uses of cutstone components and masonries in Egypt, Syria, the Aegean, Anatolia, Cyprus and the Levant in the 3rd and 2nd millennium BC are examined through a series of case studies and topical essays. The topics addressed include the terminology of ashlar building components and the typologies of its masonries, technical studies on the procurement, dressing, tool kits and construction techniques pertaining to cut stone, investigations into the place of ashlar in inter-regional exchanges and craft dissemination, the extent and significance of the use of cut stone within the communities and regions, and the visual effects, social meanings, and symbolic and ideological values of ashlar.

The Living Church - 1968

The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba - 1885

Stelae from Egypt and Nubia in the Fitzwilliam Museum, Cambridge, C.3000 BC-AD 1150 - Geoffrey Thorndike Martin 2005-03-10

Full details, illustrations and translations of 127 stelae providing evidence of Egyptian culture over 4000 years.

Geological Survey Bulletin - 1949

A Dictionary of Early Christian Biography - Henry Wace 2014

Discover essential, reliable information on over 800 Christian personalities, groups, and literature to the end of the sixth century A.D. in this unique, concise volume. It includes descriptions of the principal sects and heresies that challenged orthodox Christianity on several fronts during the early years. A remarkably comprehensive work, this volume evolved from the distinguished four-volume Dictionary of Christian Biography and Literature. For anyone serious about the early church and the people who made indelible marks in its story, this is a fundamental resource.

Features reliable sketches of major Christian personalities of the first six centuries Describes the principal sects and heretics of early Christianity, including discussions of the theological tendencies of these opponents Analyzes the documents, creeds, and literature of the early church and its opponents Covers more than 600 years of

church history in one convenient volume
