The Historic Murder Trial of George Crawford - David Bradley 2014-05-27

The Depression-era murder trial of George Crawford in Northern Virginia helped end the exclusion of African Americans from juries. Nearly forgotten today, the murders, ensuing manhunt, extradition battle and sensational trial enthralled the nation. Before it was over, the U.S. House of Representatives threatened to impeach a federal judge, the age-old states rights debate was renewed, and a rift nearly split the fledgling NAACP. In the end, the story's hero--Howard University Law School dean Charles Hamilton Houston--was the subject of public ridicule from critics who had little understanding of the inner workings of the case. This book puts the Crawford murder trial in its fullest context, side by side with relevant events of the time.

Making Foreign People Pay - Ali Cem Budak 2019-05-29
First published in 1999, Making Foreign People Pay deals with the recovery of monetary claims in cross-border legal relations and contains the results of a comparative empirical research of debt recovery

procedures of three countries with different socio-legal environments, Germany, England and Turkey. In order to analyse judicial debt recovery of cross-border claims, court statistics and files have been evaluated. The data show an infrequent use of the courts in all three countries. It seems that legal efforts aiming at facilitating international procedures have not been successful. But court procedures for the recovery of monetary claims are now to a large extent interchangeable with what may be called 'privatised methods of debt collection', including modern financial services such as factoring, forfaiting and commercial debt collection. Empirical evidence shows that such privatization of debt collection is a strong trend in cross-border debt collection. The book is an empirical contribution to the ongoing discussion of globalization processes and describes an important field of the globalization of law.

Writings of Charles S. Peirce: A Chronological Edition, Volume 8 - Charles S. Peirce 2009-12-07

Volume 8 of this landmark edition follows Peirce from May 1890 through July 1892—a period of turmoil as his career unraveled at the U.S. Coast and Geodetic Survey. The loss of his principal source of income meant the beginning of permanent penury and a lifelong struggle to find gainful employment. His key achievement during these years is his celebrated Monist metaphysical project, which consists of five classic articles on evolutionary cosmology. Also included are reviews and essays from *The Nation* in which Peirce critiques Paul Carus, William James, Auguste Comte, Cesare Lombroso, and Karl Pearson, and takes part in a famous dispute between Francis E. Abbot and Josiah Royce. Peirce's short philosophical essays, studies in non-Euclidean geometry and number theory, and his only known experiment in prose fiction complete his production during these years. Peirce's 1883-1909 contributions to the *Century Dictionary* form the content of volume 7 which is forthcoming.

The Hart-Fuller Debate in the Twenty-First Century -

Peter Cane 2010-02-16

This book presents the papers and comments on those papers delivered at a colloquium held at the Australian National University in December 2008 to celebrate 50 years since the publication in the *Harvard Law Review* of the famous and wide-ranging debate between HLA Hart and Lon L Fuller. These essays do not to re-run that debate and they are not confined to discussion of the jurisprudential issues canvassed by Hart and Fuller. Rather they pick up on strands in the debate and re-think them in the light of social, political and intellectual developments in the past 50 years and changed ways of understanding law and other normative systems. This collection looks forward rather than backward using the debate as a point of departure and inspiration.
