The Book of Divine Works - St. Hildegard of Bingen 2018-10-16
Completed in 1173, The Book of Divine Works (Liber Divinorum Operum) is the culmination of the Visionary's Doctor's theological project, offered here for the first time in a complete and scholarly English translation. The first part explores the intricate physical and spiritual relationships between the cosmos and the human person, with the famous image of the universal Man standing astride the cosmic spheres. The second part examines the rewards for virtue and the punishments for vice, mapped onto a geography of purgatory, hellmouth, and the road to the heavenly city. At the end of each Hildegard writes extensive commentaries on the Prologue to John's Gospel (Part 1) and the first chapter of Genesis (Part 2)—the only premodern woman to have done so. Finally, the third part tells the history of salvation, imagined as the City of God standing next to the mountain of God's foreknowledge, with Divine Love reigning over all.

Monastic Reform as Process - Steven Vanderputten 2017-11-15

The history of monastic institutions in the Middle Ages may at first appear remarkably uniform and predictable. Medieval commentators and modern scholars have observed how monasteries of the tenth to early twelfth centuries experienced long periods of stasis alternating with bursts of rapid development known as reforms. Charismatic leaders by sheer force of will, and by assiduously recruiting the support of the ecclesiastical and lay elites, pushed monasticism forward toward reform, remediating the inevitable decline of discipline and government in these institutions. A lack of concrete information on what happened at individual monasteries is not regarded as a significant problem, as long as there is the possibility to reconstruct the reformers' "program." While this general picture makes for a compelling narrative, it doesn't necessarily hold up when one looks closely at the history of specific institutions. In *Monastic Reform as Process*, Steven Vanderputten puts the history of monastic reform to the test by examining the evidence from seven monasteries in Flanders, one of the wealthiest principalities of northwestern Europe, between 900 and 1100. He finds that the reform of a monastery should be studied not as an

"exogenous shock" but as an intentional blending of reformist ideals with existing structures and traditions. He also shows that reformist government was cumulative in nature, and many of the individual achievements and initiatives of reformist abbots were only possible because they built upon previous achievements. Rather than looking at reforms as "flashpoint events," we need to view them as processes worthy of study in their own right. Deeply researched and carefully argued, *Monastic Reform as Process* will be essential reading for scholars working on the history of monasteries more broadly as well as those studying the phenomenon of reform throughout history.

Hildegard of Bingen - Saint Hildegard 1990

Women as Scribes - Alison I. Beach 2004-04-29

Professor Beach's book on female scribes in twelfth-century Bavaria - a full-length study of the role of women copyists in the Middle Ages - is underpinned by the notion that the scriptorium was central to the intellectual revival of the Middle Ages and that women played a role in this renaissance. The author examines the exceptional quantity of evidence of female scribal activity in three different religious communities, pointing out the various ways in which the women worked - alone, with other women, and even alongside men - to produce books for monastic libraries, and discussing why their work should have been made visible, whereas that of other female scribes remains invisible. Beach's focus on manuscript production, and the religious, intellectual, social and economic factors which shaped that production, enables her to draw wide-ranging conclusions of interest not only to palaeographers but also to those interested in reading, literacy, religion and gender history.

History in the Comic Mode - Rachel Fulton Brown 2007-05-01

In this groundbreaking collection, twenty-one prominent medievalists discuss continuity and change in ideas of personhood and community

and argue for the viability of the comic mode in the study and recovery of history. These scholars approach their sources not from a particular ideological viewpoint but with an understanding that all topics, questions, and explanations are viable. They draw on a variety of sources in Latin, Arabic, French, German, Middle English, and more, and employ a range of theories and methodologies, always keeping in mind that environments are inseparable from the making of the people who inhabit them and that these people are in part constituted by and understood in terms of their communities. Essays feature close readings of both familiar and lesser known materials, offering provocative interpretations of John of Rupescissa's alchemy; the relationship between the living and the saintly dead in Bernard of Clairvaux's sermons; the nomenclature of heresy in the early eleventh century; the apocalyptic visions of Robert of Uzès; Machiavelli's *De principatibus*; the role of "demotic religiosity" in economic development; and the visions of Elizabeth of Schönau.

Contributors write as historians of religion, art, literature, culture, and society, approaching their subjects through the particular and the singular rather than through the thematic and the theoretical. Playing with the wild possibilities of the historical fragments at their disposal, the scholars in this collection advance a new and exciting approach to writing medieval history.

Abelard and Heloise - C. J. Mews 2005-01-13
A brief, accessible introduction to the lives and thought of two of the most controversial personalities of the Middle Ages. Abelard and Heloise are familiar names. It is their "star quality," argues Constant Mews, that has prevented them from being seen clearly in the context of 12th-century thought - that task he has set himself in this book. He contends that the dramatic intensity of these famous lives needs to be examined in the broader context of their shared commitment to the study of philosophy.

Women in Medieval History and Historiography - Susan Mosher Stuard 2016-11-11

What was the status of women in the Middle Ages? How have women fared in the hands of historians? And, what is the current state of research about women in the Middle Ages? Susan Mosher Stuard addresses these questions in a collection of essays that delve in to the history and historiography of women in medieval England, France, Italy, and Germany. Contributors include Barbara Hanawalt, Diane Owen Hughes, Suzanne Wemple, Denise Kaiser, and Martha Howell. One of the most interesting observations made in *Women in Medieval History and Historiography* is the way in which the history of women in each country has followed a distinct course that is in rhythm with other concerns of national historical writing. *Women in Medieval History and Historiography* will interest historians, scholars of women's studies, and medievalists.

The Christian Concept of History in the Chronicle of Sulpicius Severus - G. K. van Andel 1976

Medieval Monastic Education - George Ferzoco 2001-04-19

While the role of monastic education has been studied in great detail in regard to male practices, this book examines the differences between the monastic formation and education of men and of women in Western Europe from the eighth to the sixteenth century. Fourteen chapters, written by well-known scholars, consider monastic education and practices in the geographical areas of England, France, Germany and the Low Countries. Using attitudes toward education and actual educational theories, the authors explore issues such as the use of music and physical training in education to explore new realms of the discipline.

The Dentist in Art - Jens Jørgen Pindborg 1960

Introduction aux pseudépigraphes grecs d'Ancien Testament - Geraldus (Odonis) 1997

This edition of Giraldu Odonis' *Logica* for the first time gives access to an important and original treatise, which has unduly been neglected since the author's death. It is also important in that it gives evidence of interesting achievements in the field of logic outside the anti-metaphysical circle surrounding Ockham. On Being a Christian - Hans Küng 2008-01-07
Why should one be a Christian? Is there something more to being a Christian than to being human? Just what does it mean to be a Christian, especially in today's modern world? Hans Küng, one of the greatest theologians of this century, ponders these questions and, from a lifetime of study, suggests the answers. He looks carefully at the evidence in the Bible, at the challenges of modern humanisms and of the world-religions, at the questions concerning

death, at the local and the universal church, at the individual's own personal decisions, and at the freedom that Christianity brings, including the freedom to serve. On Being a Christian is a vital and important statement about what it means to be a Christian. Hans Küng has himself said of the book, which he regards as his magnum opus, that it intends to "clarify and challenge Christian faith and life at a time when the churches have unfortunately lost rather than gained in credibility. It seeks to bring to light for this present time the original Christian message and particularly the figure of Jesus of Nazareth." The book continues to offer a strong message to today's Christians. As Küng says in the closing of the book, "By following Jesus Christ, people in the world today can live, act, suffer and die in a truly human way; in happiness and unhappiness, life and death, sustained by God and helpful to fellow men and women."

What I Believe - Hans Küng 2010-09-16

Hans Kung is one of the most celebrated theologians of the present day. His audience, which is strong within his own Roman Catholic Church, is equally solid among Christians of other denominations, among those outside the churches and indeed among those at the frontiers of organised religion. From the start, he has been a rebel, being Swiss and a lover of personal freedom. Many of his books such as *Infallible?* and *On Being a Christian* have rocked the Papal boat. Now after publishing two magnificent and acclaimed volumes of memoirs, Kung has written a much shorter and more personal book to explain his own beliefs. If one sets aside all scientific knowledge and learning, all formal theological language and the skilful construction of theories, what remains as the core of faith? What do we need for our lives? What is indispensable to us? Kung writes of trust in life, joy in life and suffering in life and in so doing gives us a summa of his own faith - and life.

Portals to the Past and to the Future - Jürgen Seefeldt 2007

Communicating with the Spirits - Éva Pócs 2005-06-15

Focuses on the problem of communication with the other world: the phenomenon of spirit possession and its changing historical interpretations, the imaginary schemes elaborated for giving accounts of the journeys to the other world, for communicating with the dead, and finally the historical archetypes of this kind of religious manifestation—trance prophecy, divination, and shamanism. Recognized historians and ethnologists analyze the relationship, coexistence and conflicts of popular belief systems, Judeo-Christian mythology and demonology in medieval and modern Europe. The essays address links between rites and beliefs, folklore and literature; the legacy of various pre-Christian mythologies; the syncretic forms of ancient, medieval and modern belief and rite-systems; "pure" examples from religious-ethnological research outside Europe to elucidate European problems.

Oesterreichische Zeitungshalle. (Hrsg. von F. B. Tschudy von-Glaris.) - Franz Tschudy von Glarus 1858

Sammlung - Saint Hildegard 2010

Today, after centuries of obscurity, Hildegard of Bingen has become one of the most famous women of the Middle Ages. She was a woman of great and varied talent as well as tenacious purpose. Her life centered on two places: the abbey of St. Disibod, where she grew to maturity in a community of women, and the abbey of St. Ruppert, to which she led that community after she had become its leader. In her only two efforts at hagiography, she composed vitae of these two patron saints, in whose honor she also wrote liturgical poetry. These two lives tell much about her understanding of monastic life and history. The text of the two lives in Migne's *Patrologia latina* is quite defective. This edition presents the complete texts from the best surviving manuscripts, along with the first translation of the two lives into English. The introduction relates the two vitae to Hildegard's biography, to her other writings, and to her

establishment of her new monastery on the Rupertsberg. This edition also includes a bibliography of editions of Hildegard's Latin texts, English translations of them, and scholarly works about Hildegard.

Must We Divide History Into Periods? - Jacques Le Goff 2015-09-08

We have long thought of the Renaissance as a luminous era that marked a decisive break with the past, but the idea of the Renaissance as a distinct period arose only during the nineteenth century. Though the view of the Middle Ages as a dark age of unreason has softened somewhat, we still locate the advent of modern rationality in the Italian thought and culture of the fifteenth and sixteenth centuries. Jacques Le Goff pleads for a strikingly different view. In this, his last book, he argues persuasively that many of the innovations we associate with the Renaissance have medieval roots, and that many of the most deplorable aspects of medieval society continued to flourish during the Renaissance. We should instead view Western civilization as undergoing several "renaissances" following the fall of Rome, over the course of a long Middle Ages that lasted until the mid-eighteenth century. While it is indeed necessary to divide history into periods, Le Goff maintains, the meaningful continuities of human development only become clear when historians adopt a long perspective. Genuine revolutions—the shifts that signal the end of one period and the beginning of the next—are much rarer than we think.

The Scandal of The Scandals - Manfred Lütz 2020-05-06

Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a broad sense today that the Church, however

well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say about Christianity's track record over the ages. This detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores, the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. The Scandal of the Scandals separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little you really knew about Christianity. Mentalitäten im Mittelalter - František Graus 1987

The Theology of Hugh of St. Victor - Boyd Taylor Coolman 2010-04-15

A comprehensive study which highlights the practical nature of Hugh of St. Victor's pioneering program of spiritual reformation. Ennobling Love - C. Stephen Jaeger 2010-08-03 "Richard, Duke of Aquitaine, son of the King of England, remained with Philip, the King of France, who so honored him for so long that they ate every day at the same table and from the same dish, and at night their beds did not separate them. And the King of France loved him as his own soul; and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could mean." Public avowals of love between men were common from antiquity through the Middle Ages. What do these expressions leave to interpretation? An extraordinary amount, as Stephen Jaeger demonstrates. Unlike current efforts to read medieval culture through modern mores, Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period. Love was not only a mode of feeling and desiring, or an exclusively private sentiment, but a way of behaving and a social ideal. It was a form of aristocratic self-representation, its social function to show forth virtue in lovers, to raise

their inner worth, to increase their honor and enhance their reputation. To judge from the number of royal love relationships documented, it seems normal, rather than exceptional, that a king loved his favorites, and the courtiers and advisors, clerical and lay, loved their superiors and each other. Jaeger makes an elaborate, accessible, and certain to be controversial, case for the centrality of friendship and love as aristocratic lay, clerical, and monastic ideals. *Ennobling Love* is a magisterial work, a book that charts the social constructions of passion and sexuality in our own times, no less than in the Middle Ages.

Hildegard of Bingen - Maud Burnett McInerney 2013-08-21

This volume explores the extraordinary life and work of Hildegard of Bingen, the 12th century abbess and prophet whose interests ranged from music to theology to zoology to medicine. These essays-written specifically for this volume-approach Hildegard from a variety of perspectives including gender theory, musicology, art history, the history of science, and comparative studies.

Alone with God - Richard Wurmbrand 1999

"Imprisoned for three years beneath the ground in solitary confinement, Pastor Richard Wurmbrand composed hundreds of sermons, delivered nightly to an unseen congregation. He committed them to memory by summarizing them in rhymes. These sermons, the fruit of Wurmbrand's extreme deprivations, demonstrate in a personal and stimulating way the relevance of the Bible for today, and reveal unique insights into the character of God."--Back cover.

The World of the Saints - Norbert Wolf 2005

This lavish collection of religious portraiture focuses on a selection of saints who inspired artists and their patrons. In the history of western art perhaps no commission was more important or challenging than the depiction of the saints. Popes, emperors, noblemen and patricians sought the talents of the most revered artists of their time to adorn their churches, monasteries, and homes with these potent images. Now in an appealing combination of religious art and history this unique volume brings together 150 illustrations of both beloved and little-known saints. Arranged according to the festival dates in the Christian Calendar, The

World of Saints features vibrant reproductions by such artists as van Eyck, Fra Angelico, Dürer, Raphael, Leonardo, Caravaggio, El Greco, and Rubens. Double-page spreads include information about the stories of eighty of the most important saints and explanations of their attributes, along with interesting facts about the genesis of the works, which include paintings, altarpieces, frescoes, and sculptures. In addition, more than one hundred lesser-known saints are identified in a useful lexicon, along with an illustrated index of symbols listing each saint's characteristics. The introductory essay provides a fascinating glimpse into the history of saintly devotion.

The Meditative Art - Walter S. Melion 2009

"The meditative art. Studies in the Northern devotional print, 1550-1625" asks how and why printed images were utilized as instruments of Christian meditation and contemplation. The book consists of an introductory essay on meditative image-making, followed by nine case studies focusing on various prints and print series produced in the Low Countries, that offered templates for visually-based processes of soulformation anchored in the imitation of Christ. Engraved by such masters as Philips Galle, Hendrick Goltzius, Boëtius à Bolswert, and Jan, Hieronymus, and Antoon Wierix, among others, these prints served to mobilize the votary's sensitive and intellectual faculties, harnessing them to the task of restoring the soul's likeness to Christ the Word made flesh.

Theology and Church - Walter Kasper 1989

This new collection of essays by West Germany's most distinguished Roman Catholic theologian covers the two broad areas indicated in the title. The first half discusses the Christian understanding of God; the place of Christianity in the modern world; the modern sense of freedom and history and the theological definition of human rights; christology and anthropology; and the possibilities of a new spiritual christology in a trinitarian setting. The second half discusses various aspects of the church: as universal sacrament of salvation; as the place of truth and as communion. Two final studies examine the continuing challenge of the Second Vatican Council and the fundamental form and meaning of the eucharist. An extended introduction considers systematic theology today

and the tasks which confront it.

Listen Daughter - Constant J. Mews 2016-04-30

The words 'Listen daughter' (Audi filia, from Psalm 44 in the Latin Vulgate) were frequently used in exhortations to religious women in the twelfth century. This was a period of dramatic growth in the involvement of women in various forms of religious life. While Hildegard of Bingen (1098-1179) has become widely known in recent years as one of the most eloquent and original voices of the period, she is often seen as a figure in isolation from her context. She lived at a time of much questioning of traditional models of religious life, by women as well as by men. This volume introduces readers to a range of strategies provoked by the growth in women's participation in religious life in one form or another, as well as to male responses to this development. In particular, it looks at the 'Mirror for Virgins' (Speculum Virginum), an illustrated dialogue between a nun and her

spiritual mentor written by a monk not long before Hildegard started to record her visions. While this treatise engages in dialogue with a fictional virgin, other writings present women (not just Hildegard) as teaching both women and men. An appendix will provide the first English translation of significant excerpts from the Speculum, as well as from other little known texts about religious women from the age of Hildegard. The underlying concern of this volume is to examine new ways in which religious life for women was conceived by men as well as interpreted in practice by women within a society firmly patriarchal in character.

Fortune and Misfortune at Saint Gall -

Ekkehard Ekkehard IV 2021-05-11

The eleventh-century monk Ekkehard IV's Fortune and Misfortune at Saint Gall chronicles the 880s to 972, near the end of the famous Swiss monastery's two-century-long golden age, bearing witness to the struggles of the tenth-century church reform movement. This volume publishes the Latin text alongside its first complete English translation.
