Islam and Capitalism - Maxime Rodinson 2007-04-04
Presents a rebuttal of the cultural reductionism of Max Weber and others who have tried to explain the politics and society of the Middle East by reference to some

unchanging entity called 'Islam,' typically characterised as instinctively hostile to capitalism. This work looks at the facts, analysing economic texts with his customary common sense.
Galileo's Finger - Peter Atkins

2004-05-27

Any literate person should be familiar with the central ideas of modern science. In his sparkling new book, Peter Atkins introduces his choice of the ten great ideas of science. With wit, charm, patience, and astonishing insights, he leads the reader through the emergence of the concepts, and then presents them in a strikingly effective manner. At the same time, he works into his engaging narrative an illustration of the scientific method and shows how simple ideas can have enormous consequences. His choice of the ten great ideas are: * Evolution occurs by natural selection, in which the early attempts at explaining the origin of species is followed by an account of the modern approach and some of its unsolved problems. * Inheritance is encoded in DNA, in which the story of the emergence of an understanding of inheritance is followed through to the mapping

of the human genome. * Energy is conserved, in which we see how the central concept of energy gradually dawned on scientists as they mastered the motion of particles and the concept of heat. * All change is the consequence of the purposeless collapse of energy and matter into disorder, in which the extraordinarily simple concept of entropy is used to account for events in the world. * Matter is atomic, in which we see how the concept of atoms emerged and how the different personalities of the elements arise from the structures of their atoms. * Symmetry limits, guides, and drives, in which we see how concepts related to beauty can be extended to understand the nature of fundamental particles and the forces that act between them. * Waves behave like particles and particles behave like waves, in which we see how old familiar ideas gave way to the

extraordinary insights of quantum theory and transformed our perception of matter. * The universe is expanding, in which we see how a combination of astronomy and a knowledge of elementary particles accounts for the origin of the universe and its long term future. * Spacetime is curved by matter, in which we see the emergence of the theories of special and general relativity and come to understand the nature of space and time. * If arithmetic is consistent, then it is incomplete, in which we learn the origin of numbers and arithmetic, see how the philosophy of mathematics lets us understand the nature of this most cerebral of subjects, and are brought to the limits of its power. C. P. Snow once said 'not knowing the second law of thermodynamics is like never having read a work by Shakespeare'. This is an extraordinary, exciting book that not only will make you literate

in science but give you deep enjoyment on the way.

Mock-Epic Poetry from Pope to Heine - Ritchie Robertson
2009-11-12

This is a study of mock-epic poetry in English, French, and German from the 1720s to the 1840s. While mock-heroic poetry is a parodistic counterpart to serious epic, mock-epic poetry starts by parodying epic but moves on to much wider and richer literary explorations; it relies heavily on intertextual allusion to other works, on narratorial irony, on the sympathetic and sometimes libertine presentation of sexual relations, and on a range of satirical devices. It includes well-known texts (Pope's *Dunciad*, Byron's *Don Juan*, Heine's *Atta Troll*) and others which are little known (Ratschky's *Melchior Striregel*, Parny's *La Guerre des Dieux*). It owes a marked debt to Italian romance epic (especially Ariosto). The study places these

texts in the literary context of the decline of serious epic, which helped mock epic to flourish, and of the 'Querelle des Anciens et des Modernes' which questioned the authority of Homer's and Virgil's epics; and it relates their substance to contemporary debates about questions of religion and gender.

Goodbye Lemon - Adam Davies
2006

Against his better judgment, Jack succumbs to his mother's guilt-laden pleas that he see his estranged father. Should he walk away and leave his crazy family to solve their problems without him? Or should he try to mend fences that have been broken for as long as he can remember?

Post-Democracy - Colin Crouch
2004-08-13

Post-Democracy is a polemical work that goes beyond current complaints about the failings of our democracy and explores the deeper social and economic forces that account for the current

malaise. Colin Crouch argues that the decline of those social classes which had made possible an active and critical mass politics has combined with the rise of global capitalism to produce a self-referential political class more concerned with forging links with wealthy business interests than with pursuing political programmes which meet the concerns of ordinary people. He shows how, in some respects, politics at the dawn of the twenty-first century returns us to a world familiar well before the start of the twentieth, when politics was a game played among elites. However, Crouch maintains that the experience of the twentieth century remains salient and it reminds us of possibilities for the revival of politics. This engaging book will prove challenging to all those who claim that advanced societies have reached a virtual best of all possible democratic worlds, and will be compelling reading for

anyone interested in the shape of twenty-first-century politics.

Insurgent Mexico - John Reed
2023-04-04

Reed's descriptions of the revolution, fought in Mexico's northern desert, puts you right in the saddle riding with Pancho Villa and his men. The rough, patchy reportage, which reads more like field notes than a finished manuscript, only lends to the authenticity. (Daniel Gair)
About the author: John "Jack" Silas Reed (October 22, 1887 - October 17, 1920) was an American journalist, poet, and communist activist. Reed first gained prominence as a war correspondent during the Mexican Revolution for Metropolitan and World War I for The Masses. He is best known for his coverage of the October

Revolution in Petrograd, Russia, which he wrote about in his 1919 book *Ten Days That Shook the World*. Reed supported the Soviet takeover of Russia, even briefly taking up arms to join the Red Guards in 1918. He hoped for a similar Communist revolution in the United States, and co-founded the short-lived Communist Labor Party of America in 1919. He died in Moscow of spotted typhus in 1920. At the time of his death he may have soured on the Soviet leadership, but he was given a hero's burial by the Soviet Union, and is one of only three Americans buried at the Kremlin Wall Necropolis. Reed's interpretation in popular culture has varied. Some, such as biographer Robert A. Rosenstone, have called him a romantic, while Upton Sinclair derided him as a "playboy of the revolution". For the Communist movement to which he belonged, Reed became a symbol

of the international nature of the Bolshevik revolution, a martyr buried at the Kremlin wall amid solemn fanfare, his name to be uttered reverently as a member of the radical pantheon. Others, such as his old friend and comrade Benjamin Gitlow, claimed that Reed had begun to shun the bureaucracy and violence of Soviet Communism toward the end of his life. They sought to posthumously enlist Reed in their own anti-communist cause. (wikipedia.org)

Ludwig Börne - Heinrich Heine 2006

First English translation of Heine's controversial though masterful polemic, with introduction and commentary. In 1840, Heinrich Heine, the major German poet of Jewish origin of the age, published a book on Ludwig Börne, the major German political writer of Jewish origin of the period, who had died three years before. Regarded by Heine and others as

his best-written book, it was also his most disastrously conceived. Intended to recover the high ground of revolutionary principle and philosophy against the attacks mounted on him by Börne and his supporters, the book was instead met by a storm of outrage from which it seemed Heine's reputation might never recover. In the course of time, the evaluation was reversed; Heine was increasingly celebrated as a true herald of the revolution. His vocabulary of Hellenism and Nazarenism, employed for the first time in Börne, was transmitted into English usage by Matthew Arnold. But Börne itself is Heine's only major work that has never been fully translated into English. The commentary to the edition clarifies the conflict between the two most prominent German-Jewish public intellectuals of their time, corrects the misapprehensions constantly in circulation about

their relationship and the book, and reveals the many peculiarities of the text. Jeffrey L. Sammons is Leavenworth Professor of German Emeritus at Yale University and the author of four books on Heine.

Where Is the Mango Princess? - Cathy Crimmins 2012-02-22
Humorist Cathy Crimmins has written a deeply personal, wrenching, and often hilarious account of the effects of traumatic brain injury, not only on the victim, in this case her husband, but on the family. When her husband Alan is injured in a speedboat accident, Cathy Crimmins reluctantly assumes the role of caregiver and learns to cope with the person he has become. No longer the man who loved obscure Japanese cinema and wry humor, Crimmins' husband has emerged from the accident a childlike and unpredictable replica of his former self with a short attention span and a penchant for inane

cartoons. *Where Is the Mango Princess?* is a breathtaking account that explores the very nature of personality-and the complexities of the heart. Outstanding Book Award Winner from the American Society of Journalists and Authors *The Land of Jesus* - Giuliano Valdes 1998

Coming of Age at the End of History - Camille De Toledo 2008-06-28

Camille de Toledo examines present day counterculture from the fall of the Berlin Wall to the present. He ask what it is his generation is protesting and contemplates how revolt against Western capitalistic values has been neutralized since the time of Francis Fukuyama's landmark 1989 article " The End of History". Providing historical context, he reveals how the diffusion of political power as well as media co-option have robbed all forms of cultural

dissent of their critical potential, leaving behind a new generation of rebels unsure of their cause.-- [book cover].

The Castle of Dreams - Michel Jovet 2008

"In his chateau and elsewhere, la Scève undertakes a series of complex and often comic experiments: he records his own dreams and speculates on their relation to waking life; he studies sleeping cats, rabbits, and other animals (and observes rapid eye movement almost two centuries before modern science discovers it); he records the sleep and dream experiences of a Swiss soldier and a pair of Siamese twins. And, because sleep and dreams are often in close proximity to the erotic, he considers the relation of dreaming and sexual activity, heroically undertaking firsthand research with various women (with the notable exception of his wife).".

The Secrets of the Chess Machine

- Robert Löhr 2008-02-07

In Vienna in 1770 Baron Wolfgang von Kempelen unveils his astonishing invention: the Mechanical Turk, an unbeatable chess-playing machine. But von Kempelen is no mechanical genius. Rather, he's a conman, as Tibor, the dwarf locked inside the device, will attest. As the pair tour Europe and become involved in a host of picaresque adventures, barely keeping the secret as they beat all comers, they at last come unstuck when a beautiful countess dies in the presence of the Turk. Suddenly von Kempelen, Tibor and his Turk are the objects of suspicion and the targets of persecution and espionage. And that is before more unexplained deaths further complicate matters ...

The Whispering Road - Livi

Michael 2005-01-06

A moving and powerful story about brother and sister, Joe and Annie, who flee from a pitiful existence as servants. They

embark on a tough and perilous journey to Manchester in search of their mother who was forced to leave them at the workhouse when they were very young. Their future is tainted by the horrors of their past and as Annie is increasingly troubled by spirits, Joe is forced to make a tough decision. Driven by the lust for freedom, he sells Annie to a fair owner who plans to use her as a medium, and sets about creating a new identity for himself on the streets of Manchester. But the voices of the past won't leave Joe alone and ultimately he finds himself gravitating back to Annie and their original quest to discover the whereabouts of their mother.

Child Of The Jungle - Sabine Kuegler 2010-08-05

In 1980 seven-year-old Sabine Kuegler and her family went to live in a remote jungle area of West Papua among the recently discovered Fayu - a tribe untouched by modern civilisation. Her childhood was spent hunting, shooting poisonous spiders with arrows and chewing on pieces of bat-wing in place of gum. She also learns how brutal nature can be - and sees the effect of war and hatred on tribal peoples. After the death of her Fayu-brother, Ohri, Sabine decides to leave the jungle and, aged seventeen, she goes to a boarding school in Switzerland - a traumatic change for a girl who acts and feels like one of the Fayu. 'Fear is something I learnt here' she says. 'In the Lost Valley, with a lost tribe, I was happy. In the rest of the world it was I who was lost.' Here is

Sabine Kuegler's remarkable true story of a childhood lived out in the Indonesian jungle, and the struggle to conform to European society that followed.

The Madonna of Excelsior - Zakes Mda 2007-05-15

A new novel by a towering presence in contemporary South African literature In 1971, nineteen citizens of Excelsior in South Africa's white-ruled Free State were charged with breaking apartheid's Immorality Act, which forbade sex between blacks and whites. Taking this case as raw material for his alchemic imagination, Zakes Mda tells the story of a family at the heart of the scandal -and of a country in which apartheid concealed interracial liaisons of every kind. Niki, the fallen madonna, transgresses boundaries for the sake of love; her choices have repercussions in the lives of her black son and mixed-race daughter, who come of age in post-apartheid South Africa,

where freedom prompts them to reexamine their country's troubled history at first hand. By turns earthy, witty, and tragic, *The Madonna of Excelsior* is a brilliant depiction of life in South Africa and of the dramatic changes between the 1970s and the present.

River of the Sun - Patricia Shaw
2011-10-27

River of the Sun celebrates the pioneering spirit of the men and women whose courage and ambition laid the foundations of modern Australia. Patricia Shaw's stunning saga is perfect for fans of Tamara McKinley and Tricia McGill. When Perfection Middleton catches the eye of Darcy Buchanan, all hell breaks loose. Joint heir to the vast estate of Caravale in North Queensland, Darcy's a catch all right, and far too good for a lowly housemaid. That's what his family thinks, anyway, and his brother Ben does all he can to prevent the marriage; a scheme that goes tragically wrong... Lew Cavour is very taken with Perfy, too, but he gets caught up in the gold

rush and the race to stake a claim on the river of gold, as does Ben Buchanan, who is determined to buy out Perfy's share of Caravale. But their journey to the river is dogged by disease, madness and murder. Diamond, an aborigine girl, has a profound effect on all their lives. Too intelligent to be content as the menial slave to which her colour condemns her, too sophisticated to return to her tribe, she feels at odds with both worlds. What readers are saying about *River of the Sun*: 'I just couldn't put it down' 'It kept me completely enthralled' 'Absolute page-turner'

The Oxford Thesaurus -

Laurence Urdang 1997

First published in 1991, the very successful first edition of The

Oxford Thesaurus has now sold over 126,000 copies. This new edition (NB new format), which for the first time includes antonyms in the main A-Z text, along with many additional new synonyms, broadens the book's appeal still further. The Oxford Thesaurus remains the most useful A-Z thesaurus available today, with more practical guidance for the user than any other competing title. Around 350,000 synonyms and antonyms, covering general English as well as thousands of regional and idiomatic words and expressions, are listed in A-Z form for ease of reference. Generous and detailed labelling shows how to use synonyms, and example sentences throughout make it even easier to select the correct synonym. The most useful synonyms (ie those that are closest in meaning to the headword) are listed first - a more helpful arrangement than a simple alphabetical listing under

the headword. If the word for which you seek an alternative is not to be found as a headword, you can simply turn to the synonym index which lists 265,000 synonyms and shows you under which headword each synonym is located. In addition, all synonyms which also have their own headword entry (at which further related words may be found) are indicated by a simple cross-reference symbol. On the first edition: 'handier than Roget both in being alphabetical and in offering example-sentences. The mot juste in just a mo.' Prof. Sir Randolph Quirk, The Observer.

Culina Mediterranea - Daniel Rouche 2012-05-15

Hundreds of delicious recipes by 90 Mediterranean chefs, with easy, step-by-step instructions
Thera - Tseruyah Shaley 2010
Set in Jerusalem, the novel opens just after archeologist Ella Miller asks her husband, her former mentor, to leave. When her

decision is met with condemnation by friends and family, she plunges into depression and anxiety over how their six-year-old son will cope. With dense, beautiful prose, Shalev chips away at Ella's past, digging up resentments and disappointments, and presenting them sliver by sliver. Although Ella observes her son with touching detail, her focus is ultimately inward, making her a hard character to like. When she becomes involved with a lover, for instance, her self-absorption keeps her from recognizing the patterns she's repeating. Ella is known for drawing unsubstantiated parallels between the Israelites' exodus from Egypt and the flight from a major volcanic eruption on the Greek island of Thera (now Santorini); she believes societies glorify their histories, creating art and myth from disaster, leaving the reader to hope that this lovely, troubled woman will someday be able to

do the same for herself.

The Whale Caller - Zakes Mda
2006-10-17

"A voice for which one should feel not only affection but admiration." --The New York Times

The Whale Caller, Zakes Mda's fifth novel, is his most enchanting and accessible book yet—a romantic comedy of sorts in which the changing face of post-apartheid South Africa is revealed through prodigious, lyrical storytelling. As the novel opens, the seaside village of Hermanus, on the country's west coast, is overrun with whale watchers—foreign tourists wearing floral shirts and toting expensive binoculars, determined to see whales in their natural habitat. But when the tourists have gone home, the Whale Caller lingers at the shoreline, wooing a whale he calls Sharisha with cries from a kelp horn.

When Sharisha fails to appear for weeks on end, the Whale Caller frets like a jealous lover-oblivious to the fact that the town drunk, Saluni, a woman who wears a silk dress and red stiletto heels, is infatuated with him. After much ado-which Mda relates with great relish-the two misfits fall in love. But each of them is ill equipped for romance, and their on-again, off-again relationship suggests something of the fitful nature of change in post-apartheid South Africa, where just living from one day to the next can be challenge enough. Mda has spoken of the end of apartheid as a lifting of the South African novelist's burden to write on political subjects. With The Whale Caller, he has written a tender, charming novel-the work of a virtuoso among international writers.

The Other Mother -

Carol Schaefer 2013-08-17

In 1965, Carol Schaefer was 19, a freshman in college and deeply in love. She was also pregnant. When her boyfriend's family opposed their marrying, her parents sequestered her in a Catholic home for unwed mothers a state away, where she was isolated and where secrecy prevailed. She had only to give up her baby for her sin to be forgiven and then all would soon be forgotten she was told. The child, in turn, would be placed with a "good" family, instead of

having his life ruined by the stigma of illegitimacy. Carol tried to find the strength to oppose this dogma but her shame had become too deep. "The first time I looked deep into my son's eyes, I felt like a criminal. As I unwrapped his hospital blanket and took in the heady fragrance of a newborn, I feared the nurses or the sisters would come in and slap me for contaminating my own son." Finding no way out, she signed the fateful papers leaving her son in the hands of strangers, but with a vow to her baby she would find him one day. For years, Carol struggled to forget and live the "normal" life promised, not understanding the consequences of the trauma she'd endured. On his eighteenth birthday, she set out to find him, although the law denied access to records. Her search became a spiritual quest to reclaim her own lost self, as she came to understand the emotional and psychological wounds she and

other mothers like her had endured. Against all odds she succeeded in finding him and discovered that in many ways they had never really been apart. With her son's encouragement and his adoptive mother's cooperation, she tells their story. REVIEWS: "Strength, sadness, joy, and the power of undeniable love abound in this book." 500 Great Books by Women (A Penguin Books Reader's Guide, 1994) The list of authors goes back to the 11th century. Nominated "One of the best books of 1991." American Library Association. "... flows as forcefully as the finest fiction. ... This 'ten-hankie-read' never descends into sentimentality but simply reveals the unvarnished truths of the human heart." Wilson Library Bulletin "This wrenching account, covering a range of adoption issues, is a moving testament to the bonding power of motherhood." Publishers Weekly "An

astonishing revelation of the emotions that come into play throughout the adoptive process - a must read for all concerned." Kirkus Reviews Literary Guild Alternate Selection. "Inspiring ... a heart tugger." Patricia Holt, San Francisco Chronicle "A chronicle of a time with the starkest of emotions revealed ... Readers quickly understand the trauma that lingers on deep in the hearts of birthmothers every day of their lives." Elliot Bay Booknotes "It should be a must read for anyone who considers adoption the 'easy' answer to an unwanted pregnancy." The Philadelphia Inquirer "As she experiences pain and love, you're on that roller coaster with her, as if the life she lived was yours." St. Petersburg Times "Poignant and powerful, The Other Mother shatters the myth that unwed mothers, unprepared for the sacrifice they make, go on to lead normal and untouched lives." Booklist "Any woman who has

gone through any part of her experience, or has been close to somebody who has, will attest to the story's authenticity.” The Washington Post “I recommend it with all my heart. Its courage, integrity and love make it a treasure. ... not only for adoptive families and birth families, it is for everyone who longs to know how deep the levels are that connect us, and how precious.” Gary Zukav, *The Seat of the Soul* “... addresses intimately the experience of a Birthmother as no other book has - or probably ever will. Money and the Meaning of Life -
Jacob Needleman 1994-09-15

If we understood the true role of money in our lives, writes philosopher Jacob Needleman, we would not think simply in terms of spending it or saving it. Money exerts a deep emotional influence on who we are and what we tell ourselves we can never have. Our long unwillingness to understand the emotional and spiritual effects of money on us is at the heart of why we have come to know the price of everything, and the value of nothing. Money has everything to do with the pursuit of an idealistic life, while at the same time, it is at the root of our daily frustrations. On a social level, money has a profound impact on the price of progress. Needleman shows how money slowly began to haunt us, from the invention of coins in Biblical times (when money was

created to rescue the community good, not for self gain), through its hypnotic appeal in our money-obsessed era. This is a remarkable book that combines myth and psychology, the poetry of the Sufis and the wisdom of King Solomon, along with Jacob Needleman's searching of his own soul and his culture to explain how money can become a unique means of self-knowledge. As part of the Currency paperback line, it includes a "User's Guide" an introduction and discussion guide created for the paperback by the author -- to help readers make practical use of the book's ideas.

Portrait of the Gulf Stream - Erik Orsenna 2008

It so happens that ever since childhood I have been in love with ocean currents, in love with those rivers hidden in the water.' As a child in Brehat, an island off the coast of Brittany, Erik Orsenna was told to give thanks for the Gulf Stream, the Atlantic Ocean current that brings warmth to the waters of Europe and gives us our relatively benign climate. It is his passion and concern for the Gulf Stream that is the motivation behind this

book, in which he asks 'Wat is
the Gulf Stream?', 'Where does it

begin and end?', and 'Will global
warming stop its flow?'
