The Rising of Bella Casey - Mary Morrissy 2013-09-16

'a wonderful book from one of our finest writers' Colum McCann Bella is a bright, clever girl who trains as a school teacher, determined to escape the limitations of her genteel impoverishment and become a "mistress of her own life". However, the manager of her school, the Rev Archibald Leeper, a married clergyman, develops a morbid attachment to her, which is to colour the rest of her life. Leeper places Bella in an untenable position; her only escape is to seduce a young army corporal, Nicholas Beaver, to hide the fact that her reputation has been ruined by the clergyman. She marries Nicholas and they have five children. However, when Nicholas dies at the age of 40 from syphilis, Bella realizes belatedly that she is not the only one who has been keeping sexual secrets. Bella Casey was the sister of the playwright, Sean O'Casey. Tellingly, though, her brother chose to kill her off prematurely in his autobiography – at least 10 years before her actual demise.

Salmon Wars - Catherine Collins 2022-07-12

A Pulitzer Prize-winning correspondent and a former private investigator dive deep into the murky waters of the international salmon farming industry, exposing the unappetizing truth about a fish that is not as good for you as you have been told. A decade ago, farmed Atlantic salmon replaced tuna as the most popular fish on North America's dinner tables. We are told salmon is healthy and environmentally friendly. The reality is disturbingly

different. In *Salmon Wars*, investigative journalists Douglas Frantz and Catherine Collins bring readers to massive ocean feedlots where millions of salmon are crammed into parasite-plagued cages and fed a chemical-laced diet. The authors reveal the conditions inside hatcheries, where young salmon are treated like garbage, and at the farms that threaten our fragile coasts. They draw colorful portraits of characters, such as the big salmon farmer who poisoned his own backyard, the fly-fishing activist who risked everything to ban salmon farms in Puget Sound, and the American researcher driven out of Norway for raising the alarm about dangerous contaminants in the fish. Frantz and Collins document how the industrialization of Atlantic salmon threatens this keystone species, endangers our health and environment, and lines the pockets of our generation's version of Big Tobacco. And they show how it doesn't need to be this way. Just as Eric Schlosser's *Fast Food Nation* forced a reckoning with the Big Mac, the vivid stories, scientific research, and high-stakes finance at the heart of *Salmon Wars* will inspire readers to make choices that protect our health and our planet.

Gardenia Lane - K.L. Smith 2019-08-27

Gardenia Lane is a fictional novel that tells of the Lister family's day-to-day life when they move back to a small military town in eastern North Carolina. It is the fourth book in a series about the Lister family. *Gardenia Lane* continues the story where *Gemmy's Dreams* ends. The Lister family must make a life in a new neighborhood among unconventional neighbors. Most of them are poor. What they lack in money they make up for with rich personalities. They do not wrap themselves in layers of pretense and deceit. The Lister girls work hard and seek lives different than the one they were born into. They develop good friendships with their neighbors. They learn that their neighbors mostly have good hearts and, like themselves, want to get through life the best way possible. The story unfolds in 1956 and follows the family's life through 1967. To make ends meet Leo has to take on a second job to supplement his wages at the local furniture mill. With two full time

jobs, Leo is seldom home. Conflicts often occur when the family members are faced with the challenges that arise when dealing with the mental illness of the oldest Lister offspring. This story is about how the Lister family interacts with each other, their friends, and the neighbors as they navigate their way through life trying to find the place where they fit best. The Lister girls have different goals and dreams for their lives than their parents have for them.

Leo does not realize that he is raising strong, independent daughters that have been exposed to new age thinking for women. Dissensions are common when the daughters' principles clash with those of their parents. The fifties and sixties were turbulent times in our country. The Lister family see dreams and lives shattered. They see dreams restored and lives mended. They maintain a close relationship with God to give them strength and guidance through whatever life has in store for them. They maintain hope for peace and faith for better lives.

Bet the Farm - Beth Hoffman 2021-10-05

"Eloquent and detailed...It's hard to have hope, but the organized observations and plans of Hoffman and people like her give me some. Read her book -- and listen." -- Jane Smiley, *The Washington Post* In her late 40s, Beth Hoffman decided to upend her comfortable life as a professor and journalist to move to her husband's family ranch in Iowa--all for the dream of becoming a farmer. There was just one problem: money. Half of America's two million farms made less than \$300 in 2019, and many struggle just to stay afloat. *Bet the Farm* chronicles this struggle through Beth's eyes. She must contend with her father-in-law, who is reluctant to hand over control of the land. Growing oats is good for the environment but ends up being very bad for the wallet. And finding somewhere, in the midst of COVID-19, to slaughter grass finished beef is a nightmare. If Beth can't make it, how can farmers who confront racism, lack access to land, or don't have other jobs to fall back on hack it? *Bet the Farm* is a first-hand account of the perils of farming today and a personal exploration of more just and sustainable ways of producing food.
