Edgar Brandt - Joan Kahr 1999-04

Edgar Brandt: Master of Art Deco Ironwork is the first book to document the life and work of the premier metalsmith of the twentieth century. A member of a group of extraordinary artist-craftsmen that included Emile-Jacques Ruhlmann, Jean Puiforcat, and Jean Dunand, among others, Edgar Brandt (1880-1960) was a leading force during a period of great achievement in French decorative arts and design, creating an entirely new aesthetic for the medium of wrought iron.

Karl Lagerfeld - Patrick Mauriès 2023-11-28

The first publication dedicated to Karl Lagerfeld's

glamorous homes, known for their eclectic interiors, ranging from the art deco to the ultramodern. While Karl Lagerfeld was famous for being at the very center of the fashion industry for over half a century, he was equally opinionated when it came to interiors, which acted as a private creative outlet. Following an introduction by Patrick Mauriès, each house is introduced by a short text by Marie Kalt unveiling the history of Lagerfeld's homes while identifying key designers and pieces. From his elegant art deco-inspired apartment in Saint-Sulpice, Paris, to the incredibly ornate eighteenth-century mansion Hôtel Pozzo di

Borgo, Lagerfeld's houses reveal he was a collector on a Renaissance scale as they showcase his spectacular range. Lagerfeld balanced the old with the new and moved from one atmosphere to the next, leaving a Memphis-designed apartment in Monte Carlo for a grand tour-themed Roman pied-a-terre, followed by bucolic French country houses and even a majestic Nordic villa in his native Hamburg. Presented in a large, elegant format, Karl Lagerfeld: A Life in Houses will be a rich source of inspiration for those interested in interior design and will appeal to fans of the decorative arts and

the fashion designer himself.

The Secret Life of the Modern House - Dominic Bradbury 2021-04-01

* * * 'Informative and entertaining, this publication is a feast for the eyes, while also thought provoking, and offers excellent inspiration for daydreaming about what makes the perfect, modern house.' Wallpaper 'A fascinating selection of innovative homes....this is a thoughtful journey through the evolution of domestic architecture.' Sunday Express Over the last century the way that we live at home has changed dramatically. Nothing short of a design revolution has

transformed our houses and the spaces within them - moving from traditional patterns of living all the way through to an era of more fluid, open-plan and modern styles. Whether we live in a new home or a period house, our spaces will have been shaped one way or another by the pioneering Modernists and Mid-century architects and designers who argued for a fresh way of life. Architectural and design writer Dominic Bradbury charts the course of this voyage all the way from the late 19th century through to the houses of today in this ground-breaking book. Over nineteen thematic chapters, he explains the way our

houses have been reinvented, while taking in - along the way - the giants of Art Deco, influential Modernists including Le Corbusier and Frank Lloyd Wright, as well as post-war innovators such as Eero Saarinen and Philip Johnson. Taking us from the 20th to the 21st century, Bradbury explores the progress of 'modernity' itself and reveals the secret history of our very own homes.

Interior Design Masters - Mark Hinchman

2018-06-27

Interior Design Masters contains 300 biographical

entries of people who have significantly impacted design. They are the people, historical and contemporary, that students and practitioners should know. Coverage starts in the late Renaissance, with a focus on the twentieth and twenty-first centuries. The book has five sections, with the entries alphabetical in each, so it can serve as a history textbook and a reference guide. The seventeenth- and eighteenth-century section covers figures from Thomas Chippendale to Horace Walpole. The nineteenth-century section includes William Morris and Candace Wheeler. The early twentieth-century section

presents modernism's design heroes, including Marcel Breuer, Eileen Gray, and Gilbert Rohde. The post-World War II designers range from Madeleine Castaing to Raymond Loewy. The final contemporary section includes Ron Arad and the Bouroullec brothers. These are the canonical figures who belong to any design history. The book also contains less well-known figures who deserve attention, such as Betty Joel, the British art deco furniture designer; Paul Veysseyre, the Frenchman active in China in the 1930s; and more recently Lanzavecchia-Wai, the Italian-Singaporean duo whose work ranges from health

care to helicopters. Global in its coverage, the book is richly illustrated with over 600 black-and-white and color photographs.

Goode Chanel - Jean-Paul Goode 2020-05-19

A collector's dream, revealing Jean-Paul Goode's previously unseen drawings and sketches for the iconic perfume campaigns he created for Chanel.

For the first time, Chanel and Jean-Paul Goode reveal the drawings, collages, and sketches that

inspired Goude's iconic advertising campaigns for Chanel's world-famous fragrances, from Égoïste and Coco to Chanel No. 5. Inspired by a small gold birdcage in Coco Chanel's Paris apartment, Goude famously cast a young Vanessa Paradis as a Chanel Tweetie Pie, swinging on a trapeze to promote Chanel's Coco perfume. He went on to make Estella Warren the face of his Chanel No. 5 campaign, and he called for the entire facade of a Riviera palace to be built in Rio de Janeiro for the first Égoïste film, before capturing Karl Lagerfeld, Lily-Rose Depp, and the ghost of Coco Chanel herself. A must-have for Chanel

lovers, Goude: The Chanel Sketchbooks also allows creatives and advertising enthusiasts to discover the imagination and creative process at work behind these unforgettable images.

Fornasetti - Patrick Mauriès 1998

Piero Fornasetti used illusions, architectural perspectives and a host of personal leitmotifs, such as the sun, playing cards, fish and flowers to create a style that was his own. This book

documents Fornasetti's life and art, and Ettore Sottsass provides a personal tribute.

Piero Fornasetti - Patrick Mauriès 2015

Piero Fornasetti was a master of the decorative imagination. His motifs conjure up the illusionism of Arcimboldo, the grand architectural fantasies of Piranesi and Palladio, and something of the wit of Pirandello or even Picasso. Fornasetti's decorations transform furniture, created in collaboration with Gio Ponti, into art objects touched by trompe l'oeil humour. His designs endure in an astonishing variety of forms: chairs, desks, screens, pianos, plates, masks and other

objects all present the artist's timeless vocabulary. Fornasetti's endless invention is celebrated here in a book published to coincide with a major retrospective exhibition in Paris. His visual puns and decorative devices are set out in the context of his paintings, little considered until now. Bibliophilia occupies centre stage, with graphic schemes, designs for imaginary libraries and bookcases set in ironic interiors. The book gathers a plentiful array of his famous Themes and Variations, a series of plate designs drawing on over 500 variations on the face of a famous operatic beauty. A full chronology of Fornasetti's

life and work accompanies the text.

Piero Fornasetti - Brigitte Fitoussi 2005

Piero Fornasetti is often described as a visionary. A Milan artist, Fornasetti was at the same time a painter, sculptor, designer, craftsman, and an engraver of art books. In his lifetime, he created

more than 11,000 items, most of which are one-of-a kind. It is actually said that his production of objects and furniture is one of the largest in the 20th century. Perpetuating the workshop tradition today is his son Barnaba, who has revived his most popular pieces and created new ones. In an illustrated Memoire devoted to Piero Fornasetti's work, the book critically discusses his contribution to 20th century art and design.

Mid-Century Modernism in Turkey - Meltem Ö Gürel 2018-02-05

Mid-Century Modernism in Turkey studies the unfolding of modern architecture in Turkey during the 1950s and 1960s. The book brings together scholars who have carried out extensive research on post-WWII modernism in a global context. The authors situate Turkish architectural case studies within an international framework during this

period, providing a close reading of how architectural culture responded to ubiquitous post-war ideas and ideals, and how it became intertwined with politics of modernization and urbanization. This book contributes to contemporary scholarship to reconsider post-war architecture, beyond canonical explanations.

Design has an increasingly high profile - figures like Philippe Starck are as venerated and well known as more traditional artists. But where the

literature on fine art is vast, design is still comparatively ill-served. This encyclopedia provides an account of the still largely unknown story of design.

Fornasetti - Barnaba Fornasetti 2010-10-26

This elaborate volume, authored by the designer's son, is a splendid celebration of one of

the world's most inventive design minds. Combining whimsy and elegance, Piero Fornasetti (1913–1988) transformed everyday objects like cups, scarves, and screens into works of art featuring his idiosyncratic leitmotifs, such as the hand, the female face, and luminescent fish. Additionally, he created a wide range of works, including idealized architectural fantasy drawings, book designs, and provocative nudes, as well as the decor for the luxury liner Andrea Doria. Perhaps most famous for dazzling pieces of trompe l'oeil furniture, Fornasetti was rediscovered in the 1980s and has remained

much sought-after by collectors worldwide. Featuring 2,800 illustrations, many never before published, the monograph is designed to be an "artist's book" that reflects as faithfully as possible Fornasetti's own approach to design.
