Commentary on the Book of Genesis: Bible Study Notes and Comments - David Pratte 2018-12-20

Bible study notes and commentary on the Old Testament book of Genesis. Emphasizes understanding the text with practical applications. Intended to be helpful to all Christians, including teachers and preachers, while avoiding an emphasis on technical issues. Written from the perspective of faith in the Bible as the absolute, inerrant, verbally inspired word of God. Comments include discussion of these topics: * Are Bible accounts of creation and the flood literal history? * Can organic or theistic evolution be harmonized with Scripture? * Are the days of Genesis 1 literal or symbols of long ages? * Were Adam and Eve the first man and woman? * How did sin and death enter the world? * Was Noah's flood worldwide or local? * What promises did God make to Abraham, Isaac, and Jacob about the nation of Israel? * How did Joseph interpret Pharaoh's dreams and save his family in Egypt?

Dogmatic Constitution on Divine Revelation - Pope Paul VI. 1965

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Called by the Gospel - Michael Paul Middendorf 2007-07-15

Called by the Gospel is the title for a series of introductory theological textbooks written from a distinctly Lutheran perspective. In keeping with the predominant place of the gospel in Lutheran theology, this introductory volume on the New Testament carries the same title as the series, Called by the Gospel. Readers will find within its pages a high view of the Christian Scriptures, explanation of keys texts with careful attention to the historical and cultural contexts, particular focus on the presentation of Jesus by the various texts, and a conversational style that seeks to convey the message of the text for contemporary times. Although the book was written with university students in mind, any Christians who seek to deepen their grasp of the New Testament will find within its pages helpful and challenging insights. This book builds on material presented in the first volume of the series, Called to be God's People, and supplements its contents with maps, photos, suggested readings, discussion questions, and a glossary. Together these two volumes

prepare the university student for an in-depth consideration of Christian doctrine in Called to Believe, Teach, and Confess.

The Existence of God - Richard Swinburne 2004-03-25

Richard Swinburne presents a substantially rewritten and updated edition of his most celebrated book. No other work has made a more powerful case for the probability of the existence of God. Swinburne gives a rigorous and penetrating analysis of the most important arguments for theism: the cosmological argument; arguments from the existence of laws of nature and the 'fine-tuning' of the universe; from the occurrence of consciousness and moral awareness; and from miracles and religious experience. He claims that while none of these arguments are deductively valid, they do give inductive support to theism and that, even when the argument from evil is weighed against them, taken together they offer good grounds to support the probability that there is a God. The overall structure of the discussion and its conclusion have been retained for this new edition, but much has been changed in order to strengthen the argumentation and to take account of Swinburne's subsequent work on the nature of consciousness and the problem of evil, and of the latest philosophical and scientific writing, especially in respect of the laws of nature and the argument from fine-tuning. This is now the definitive version of a classic in the philosophy of religion.

Together the collection represents the current state of an important, ongoing discussion. The contributors are Ehud Ben Zvi, Diana Edelman, Mignon R. Jacobs, Mark Leuchter, Martti Nissinen, Mark O'Brien, Raymond F. Person Jr., Thomas C. Römer, Marvin A. Sweeney, and Rannfrid Thelle.

Good News for Women - Rebecca Groothuis 1996-12-01

"Most evangelical discussion of the gender issue has been spent in feverish debate over the exegetical intricacies of the traditional prooftexts," writes Rebecca Merrill Groothuis. And though faithful exegesis is certainly crucial, a "myopic fixation on a handful of controversial biblical texts will not ultimately resolve the gender debate." In *Good News for Women*, Groothuis looks at the Big Picture, the overall outline of biblical teaching on relationships between men and women. This provides the foundation for examining the passages specifically relating to gender issues. Written with the razor-sharp insight that prompted critical acclaim for Groothuis' first book, *Good News for Women* shows that:

- the broad sweep of biblical thought aligns more readily with gender equality than gender hierarchy
- traditionalist prooftexts do not present an open and shut case in favor of universal male authority
- the traditionalist agenda on gender issues is neither helpful nor healthy for Christian women today

This is how we are, what makes us laugh, and this is how we fall and how we somehow, amazingly, stand up again' Maya Angelou Maya Angelou's poetry - lyrical and dramatic, exuberant and playful - speaks of love, longing, partings; of Saturday night partying, and the smells and sounds of Southern cities; of freedom and shattered dreams. 'Her poetry is just as much a part of her autobiography as I Know Why the Caged Bird Sings and the volumes that follow.' Kirkus 'It is true poetry she is writing . . . it has an innate purity about it, unquenchable dignity' M. F. K. Fisher

Theology of John Calvin - Karl Barth 1995-11

This historically significant volume collects Karl Barth's lectures on John Calvin, delivered at the University of Göttingen in 1922. The book opens with an illuminating sketch of medieval theology, an appreciation of Luther's breakthrough, and a comparative study of the roles of Zwingli and Calvin. The main body of the work consists of an increasingly sympathetic, and at times amusing, account of Calvin's life up to his recall to Geneva. In the process, Barth examines and evaluates the early theological writings of Calvin, especially the first edition of the Institutes.

Thoughts on Death and Immortality - Ludwig Feuerbach 1980

Never translated before, 'Thoughts on Death and Immortality' was the first published work of Ludwig Feuerbach (1804-1872). The scandal created by portrayal of Christianity as an egoistic and inhumane religion cost the young Hegelian his job and, to some extent, his career. Joining philosophical argument to epigram, lyric, and satire, the work has three central arguments: first, a straightforward denial of the Christian belief in personal immortality; second, a plea for recognition of the inexhaustible quality of the only life we have; and third, a derisive assault on the posturings and hypocrisies of the professional theologians of nineteenth-century Germany.

It is less academic than a traditional commentary and can be read cover-to-cover, used in personal devotions, used to lead small group studies, or used for sermon preparation.

The Sociology of Health, Illness, and Health Care - Rose Weitz 2001

Traditionally, medical sociology texts have been written from a medical perspective, focusing primarily on health issues as they have been defined by doctors, and often reading much like health education textbooks. Weitz, instead, adopts a critical perspective, sometimes challenging medical perspectives, sometimes raising broader issues beyond those of interest to the medical world. This perspective, which is more thoroughly sociological, is now more common among instructors than the older medical perspective.

Lectures on the Essence of Religion - Ludwig Feuerbach 2018-06-21

This book, translated for the first time into English, presents the major statement of the philosophy of Ludwig Feuerbach. Here, in his most systematic work,

Feuerbach's thought on religion and on the philosophy of nature achieves its full maturity. Central to the thought of Feuerbach is the concept that man not God is the creator, that divinities are representations of man's innermost feelings and ideas. Philosophy should turn from theology and speculative rationalism to sound factual anthropology. "My aim in these Lectures," writes Feuerbach, "is to transform friends of God into friends of man, believers into thinkers, worshippers into workers, candidates for the other world into students of this world, Christians, who on their own confession are half-animal and half-angel, into men—whole men."

How the Bible Became Holy - Michael L Satlow 2014-04-15

In this sweeping narrative, Michael Satlow tells the fascinating story of how an ancient collection of obscure Israelite writings became the founding texts of both Judaism and Christianity, considered holy by followers of each faith. Drawing on cutting-edge historical and archeological research, he traces the story of how, when, and why Jews and Christians gradually granted authority to texts that had long lay dormant in a dusty temple archive. The Bible, Satlow maintains, was not the consecrated book it is now until quite late in its history. He describes how elite scribes in the eighth and seventh centuries B.C.E. began the process that led to the creation of several of our biblical texts. It was not until these were translated into Greek in Egypt in the second century B.C.E., however, that some Jews began to see them as culturally authoritative, comparable to Homer's works in contemporary Greek society. Then, in the first century B.C.E. in Israel, political machinations resulted in the Sadducees assigning legal power to the writings. We see how the world Jesus was born into was largely biblically illiterate and how he knew very little about the texts upon which his apostles would base his spiritual leadership. Synthesizing an enormous body of scholarly work, Satlow's groundbreaking study offers provocative new assertions about commonly accepted interpretations of biblical history as well as a unique window into how two of the world's great faiths came into being.
