Twelve Years A Slave, Illustrated Edition -
Solomon Northup 2014-04-08
Kidnapped and sold into slavery in the American

South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing

unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

The Oxford Handbook of the Canadian Constitution - Peter Crawford Oliver 2017

The Oxford Handbook of the Canadian Constitution provides an ideal first stop for Canadians and non-Canadians seeking a clear, concise, and authoritative account of Canadian constitutional law. The Handbook is divided into six parts: Constitutional History, Institutions and Constitutional Change, Aboriginal Peoples and the Canadian Constitution,

Federalism, Rights and Freedoms, and Constitutional Theory. Readers of this Handbook will discover some of the distinctive features of the Canadian constitution: for example, the importance of Indigenous peoples and legal systems, the long-standing presence of a French-speaking population, French civil law and Quebec, the British constitutional heritage, the choice of federalism, as well as the newer features, most notably the Canadian Charter of Rights and Freedoms, Section Thirty-Five regarding Aboriginal rights and treaties, and the procedures for constitutional amendment. The Handbook provides a remarkable resource for comparativists at a time when the Canadian constitution is a frequent topic of constitutional commentary. The Handbook offers a vital account of constitutional challenges and opportunities at the time of the 150th anniversary of Confederation.

Dissenting Social Work - Paul Michael Garrett

2021-03-03

This book, from one of international social work's leading radical educators, provides a richly compelling argument for the profession to become more critical and dissenting. Addressing the troubled times in which we find ourselves, Garrett's book examines a broad range of theoretical frameworks and draws on diverse writers, such as Marx, Foucault, Brown, Zuboff, Rancière, Wacquant, Arendt, Levinas, Fanon and Gramsci. The author's panoramic vision encompasses Ireland, the United Kingdom, the United States, Algeria, Israel/Palestine and China. Timely, lively and accessible, this book speaks directly to some of the main preoccupations of our era. Readers will be

encouraged to relate developments in social work to key themes circulating around migration, the threat of neo-fascism, surveillance culture, colonialism, the Black Lives Matter movement and the COVID-19 pandemic. Imbued with a sense of hope for a brighter future, this book encourages a new generation of social work students to recognise and examine the importance of critical theory for understanding the structural forces shaping their lives and the lives of those with whom they work and provide services. This book is vital, indispensable and essential reading for social work students and other readers, throughout the world, seeking to make the connection between social work, social theory and sociology.

Upcycle This Book - Gavin Wade 2017-02-17

Upcycle this book. Rewrite it as a manifesto. Steal and take and copy and change this book. Upcycle these twenty-three texts just as I have upcycled so

many other texts and responded to many sets of existing conditions. Or unlike I have. Treat these words as existing conditions. Some of them are artworks. Some of them upcycle artworks by others. Some are barely texts at all. . . . Often the words are a script to be performed. Its useful to read words out loud in public. Gavin Wade is pragmatic utopian, an artist, artist-curator, artist-writer and one of the founding directors of Eastside Projects in Birmingham, UK. He has curated numerous exhibitions as well as written and published a number of bookssuch as *Has Man a Function in Universe?* (Book Works, 2008). *Upcycle This Book* was co-published by Book Works and Stroom den Haag in an edition of 1,000.

The Questions We Ask Together - Open Engagement 2016-02-20

The Questions We Ask Together assembles short essays by individuals within the practice of socially engaged art, written in response to one hundred questions on the practice generated by Open Engagement conference attendees. At the closing of OE 2013, an assembled group of conference participants generated one hundred questions that seek a sense of what is emerging, what people are thinking, and where conversations are headed within the world of socially engaged art. This session was inspired by Sister Corita's "quantity assignments" to generate one hundred questions

before embarking on intensive work and research. These essays first appeared as a blog preceding OE 2014, and now have grown into a published volume of one hundred critical responses from contributors from the field. *The Questions We Ask Together* features writing by Allison Agsten, Tania Bruguera, Joshua Decker, Claire Doherty, Pablo Helguera, Grant Kester, Mierle Laderman Ukeles, Stephen Wright, and many others.

Badly Repaired Cars - 2016-05-05

Beautiful Bentley's and Vauxhall van's are fixed in equally poor fashion in this book of quirky but poetic close ups of cars held together by tape and string from around the world. Ronni Campana, who specialises in powerful and detailed still life elevates the banal into something akin to abstract art. A strip of old tape across a car's broken headlight takes on a powerfully graphical form. Green plastic hanging from a door divides the frame like a Rothko colour wash. This is very much an art photography book but the accessible format, price and content give it mainstream potential.

A novel financial risk assessment model for companies based on heterogeneous information and aggregated historical data - Dan-Ping Li

The financial risk not only affects the development of the company itself, but also affects the economic development of the whole society; therefore, the financial risk assessment of company is an important part. At present, numerous methods of financial risk assessment have been researched by scholars.

However, most of the extant methods neither integrated fuzzy sets with quantitative analysis, nor took into account the historical data of the past few years. To settle these defects, this paper proposes a novel financial risk assessment model for companies based on heterogeneous multiple-criteria decision-making (MCDM) and historical data.

Polyamorous Love Song - Jacob Wren 2014

Fiction. From interdisciplinary writer and performer Jacob Wren comes POLYAMOROUS LOVE SONG, a novel of intertwined narratives concerning the relationship between artists and the world. Shot through with unexpected moments of sex and violence, readers will become acquainted with a world that is at once the same and opposite from the one in which they live. With a diverse palette of vivid characters--from people who wear furry mascot costumes at all times, to a group of 'new filmmakers' that devises increasingly unexpected sexual scenarios with complete strangers, to a secret society that concocts a virus that only infects those on the political right--Wren's avant-garde POLYAMOROUS LOVE SONG (finalist for the 2013 Fence Modern Prize in prose)

will appeal to readers with an interest in the visual arts, theatre, and performance of all types.

Sissy Dreams: From Boyfriend to Girlfriend - Paul Zante

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

David Maisel - 2004

For more than two decades, David Maisel has photographed civilisation's aggressive advance across the American landscape. The sites he has pursued, the subjects he has discovered, and the abstract beauty he has confronted are all the more unfamiliar and disarming because of their aerial perspectives. Looking down from low-flying aircraft banking steeply over the terrain, Maisel constructs skewed landscapes that seem at times to have no horizons, no up or down, and no near or

far. 'The Lake Project' documents Maisel's work around Owens Lake. This arid expanse, located just east of the Sierra Nevadas, is for the most part a desiccated bed of mineral deposits. Drained for the water needs of Southern California, beginning in 1913, it now contributes carcinogenic particles to the atmosphere during 'dust events'. These are not normal landscapes, for they lack nearly all scale references that might ground the viewer into comprehensive geographical co-ordinates. There is no foreground, middle ground, or background. There is only the ground as seen from a low-flying aircraft, a surface teeming with malignant colours that one can almost taste, incredibly complex textures that one can almost feel, and delicate mineral traces that resemble organic arteries.

Auberon - James S. A. Corey 2019-11-12

Manifesta 10 - Kasper König 2014

Published on the occasion of Manifesta 10, the European Biennial of Contemporary Art in St. Petersburg, Russia, this illustrated volume collects artworks, concepts, and essays that invite the reader to explore the possibilities of contemporary art in deeply historical settings. For the first time, Manifesta is hosted by a museum, uniting the State Heritage Museum's 250th anniversary and Manifesta's twentieth anniversary as a nomadic biennial. This book, which is structured like a classic catalogue, reflects the intuitive and playful nature of Kasper König's exhibition. Contemporary art stands alongside the historical and cultural heritage of the Hermitage, and many projects create a unique homage to it and to the city of St.

Petersburg. New works claim their place in ways that are often subtle and surprising, inviting viewers and readers to grapple with the endless ways in which contemporary art questions, complements, or even dovetails with tradition.

The Lost Salt Gift of Blood - Alistair MacLeod 1993

The stories in *The Lost Salt Gift Of Blood* are remarkably simple—a family is drawn together by shared and separate losses, a child's reality conflicts with his parents' memories, a young man struggles to come to terms with the loss of his father.

The 8-Hour Diet - David Zinczenko 2013-12-03

A paradigm-shifting diet plan that allows you to eat anything you want, as much as you want—and still strip away 20, 40, 60 pounds, or more. After conducting extensive research at the Salk Institute and the National Institute on Aging, poring over copious amounts of new research in intermittent fasting, and engaging 2,000 people for a test panel,

bestselling authors David Zinczenko and Peter Moore determined that people can lose remarkable amounts of weight eating the foods they like best—as long as they eat within a set 8-hour time period. Fasting is, of course, an ancient spiritual and health practice, but it's also a way to sidestep many of the ills of the modern world—including diabetes, heart disease, and cognitive impairment. Zinczenko and Moore demonstrate how simply observing this timed-eating strategy, even just three days a week, will reset your metabolism so that you can enter fat-burning mode first thing in the morning—and stay there all day long. And by focusing on eight critical, nutrient-rich Powerfoods, you can build in a second layer of protection against Alzheimer's, heart disease, and even the common cold. In the book, you will find motivating strategies, delicious recipes, and an 8-minute workout routine to maximize calorie burn. The 8-Hour Diet promises to

strip away unwanted pounds and give you the focus and willpower you need to reach your goals for weight loss and life.

Sneaking a Look at God's Cards - Giancarlo Ghirardi
2021-09-14

Quantum mechanics, which describes the behavior of subatomic particles, seems to challenge common sense. Waves behave like particles; particles behave like waves. You can tell where a particle is, but not how fast it is moving--or vice versa. An electron faced with two tiny holes will travel through both at the same time, rather than one or the other. And then there is the enigma of creation ex nihilo, in which small particles appear with their so-called antiparticles, only to disappear the next instant in a tiny puff of energy. Since its inception, physicists and philosophers have struggled to work out the meaning of quantum mechanics. Some, like Niels Bohr, have responded to quantum mechanics'

mysteries by replacing notions of position and velocity with probabilities. Others, like Einstein and Penrose, have disagreed and think that the entire puzzle reflects not a fundamental principle of nature but our own ignorance of basic scientific processes. *Sneaking a Look at God's Cards* offers the general reader a deep and real understanding of the problems inherent to the interpretation of quantum mechanics, from its inception to the present. The book presents a balanced overview of current debates and explores how the theory of quantum mechanics plays itself out in the real world. Written from the perspective of a leading European physicist, it looks extensively at ideas from both sides of the Atlantic and also considers what philosophers have contributed to the scientific discussion of this field. *Sneaking a Look at God's Cards* sets out what we know about the endlessly fascinating quantum world, how we came to this

understanding, where we disagree, and where we are heading in our quest to comprehend the seemingly incomprehensible.
