All Souls' Day - Cees Nooteboom 2011-07-22  
Arthur Daane, a documentary film-maker and inveterate globetrotter, has lost his wife and child in a plane crash. In ALL SOULS' DAY we follow

Arthur as he wanders the streets of Berlin, a city uniquely shaped by history. Berlin provides the backdrop for Daane's reflections on life as he plans his latest project - a self-funded film that will show the

world through Daane's eyes. With a new circle of friends - a philosopher, a sculptor and a physicist - Arthur discusses everything from history to metaphysics, and the cumulative power of remembered images and philosophical musings on the meaning of our contemporary existence comes to permeate the atmosphere of the book. Then one cold, wintry day, Daane meets the young history student Elik Orange and his world is turned upside down. Whenever this mysterious woman beckons, Daane is compelled to follow. ALL SOULS' DAY is, finally, an elegiac love story in which the personal histories of the characters are skilfully interwoven with the history of the countries in which they find themselves. It is also the poignant and

affecting tale of a man coming to terms with his place in the world.

The File - Timothy Garton Ash 2015-10-01  
SHORTLISTED FOR THE ORWELL PRIZE In 1978

Timothy Garton Ash went to live in Berlin to see what that divided city could teach him about tyranny and freedom. Fifteen years later, by then internationally famous for his reportage of the downfall of communism in Central Europe, he returned to look at his Stasi file which bore the code-name 'Romeo'. Compiled by the East German secret police, with the assistance of both professional spies and ordinary people turned informer, it contained a meticulous record of his earlier life in Berlin. In this memoir, he describes rediscovering

his younger self through the eyes of the Stasi, and then confronting those who had informed against him. Moving from document to remembrance, from the offices of Britain's own security service to the living rooms of retired Stasi officers, *The File* is a personal narrative as gripping, as disquieting, and as morally provocative as any fiction by George Orwell or Graham Greene. And it is all true.

## **Waterways and the Cultural Landscape** -

Francesco Vallerani  
2017-09-11

Water control and management have been fundamental to the building of human civilisation. In Europe, the regulation of major rivers, the digging of canals and the wetland reclamation schemes from the sixteenth to nineteenth centuries, generated new typologies of waterscapes with significant implications for the people who resided within them.

This book explores the role of waterways as a form of heritage, culture and sense of place and the potential of this to underpin the development of cultural tourism. With a multidisciplinary approach across the social sciences and humanities, chapters explore how the control and management of water

flows are among some of the most significant human activities to transform the natural environment. Based upon a wealth and breadth of European case studies, the book uncovers the complex relationships we have with waterways, the ways that they have been represented over recent centuries and the ways in which they continue to be redefined in different cultural contexts. Contributions recognise not only valuable assets of hydrology that are at the core of landscape management, but also more intangible aspects that matter to people, such as their familiarity, affecting what is understood as the fluvial sense of place. This highly original collection will be of interest to those working in cultural tourism, cultural geography, heritage

studies, cultural history, landscape studies and leisure studies.

### **Encouragement Makes Good Things Happen** - Theo Schoenaker 2011-01-07

Available in English for the first time, Encouragement Makes Good Things Happen is a translation of the bestselling German book Mut Tut Gut. It describes a courageous and encouraging style of living and focuses on the belief that human encouragement is the most important natural ingredient for the healthy development of human beings. Written in an engaging and conversational tone, the book first explores the negative consequences of discouragement on the individual and on

society as a whole. It then discusses what encouragement is, why it is important in people's lives, and how a person can encourage both himself and others. Several exercises are also included to help guide readers in the encouragement of others. Mental health practitioners of all disciplines and in any setting will find that both they and their clients will benefit from the insights garnered and tested by the author of this engaging and compelling book.

**Wild Romanticism** -  
Markus Poetzsch  
2021-03-30  
Wild Romanticism consolidates contemporary thinking about conceptions of the wild in British and European Romanticism, clarifying the emergence of wilderness as a cultural, symbolic, and

ecological idea. This volume brings together the work of twelve scholars, who examine representations of wildness in canonical texts such as Frankenstein, Northanger Abbey, "Kubla Khan," "Expostulation and Reply," and Childe Harold's Pilgrimage, as well as lesser-known works by Radcliffe, Clare, Hölderlin, P.B. Shelley, and Hogg. Celebrating the wild provided Romantic-period authors with a way of thinking about nature that resists instrumentalization and anthropocentrism, but writing about wilderness also engaged them in debates about the sublime and picturesque as aesthetic categories, about gender and the cultivation of independence as natural, and about the ability of natural forces to resist categorical or literal

enclosure. This book will be of great interest to students and scholars of Romanticism, environmental literature, environmental history, and the environmental humanities more broadly.

**The Yule Tomte and the Little Rabbits** - Ulf Stark 2014

Grumpy the Yule Tomte lives all alone, which is exactly how he likes it! He's waiting for Christmas to arrive when all of a sudden a gust of wind steals his mittens from the washing line and his hat from his head. That's the last straw -- he won't be the Yule Tomte any more! Binny and Barty, the rabbit children, live with their family in the forest. They've never heard of Christmas, or the Yule Tomte, until the wind brings them some strange gifts... All the animals in the forest prepare

for the arrival of Christmas. They make presents, bake sweet treats and even write a song. But will the Yule Tomte ever bring Christmas to the big forest? This charming and funny Christmas story of a grumpy tomte and the hopeful little rabbits is told over twenty-five chapters -- one for each day of Advent -- with delightful festive illustrations. Perfect for families to share together.

*Escape from Leipzig* - Professor Harald Fritzsch 2008-02-01  
With a foreword written by G \*'t Hooft In the 1960s, Leipzig was the center of resistance in East Germany. Harald Fritzsch, then a physics

student, contemplated escape. But before he left, he wanted to demonstrate to the government that they had gone too far when they destroyed St. Paul's Church in May 1968. He accomplished that by unrolling a protest transparency in spectacular fashion. Despite the great efforts of the secret police, the STASI, the government was unable to find out who was responsible for this act. Soon after, together with a friend, Fritzsch began his journey to Bulgaria in order to escape into Turkey by traversing the Black Sea in a folding canoe. This was a daredevil endeavor, never done before. In this book, Harald Fritzsch ? now a world-renowned physicist ? portrays in captivating detail an authentic picture of the East

German regime and the events of the late 1960s. Today, 40 years later, he critically takes stock of the events since German reunification. Contents: Autumn 1967 Rheinsberg In the Bay of Danzig ? Summer of 1967 As a Scout in Bulgaria ? November 1967 Spring in Prague Destruction of the Church ? **The Three Dimensions of Freedom** - Billy Bragg  
2019-04-30

At a time when opinion trumps facts and truth is treated as nothing more than another perspective, free speech has become a battleground. While authoritarians and algorithms threaten democracy, we argue over who has the right to speak. To protect ourselves from encroaching tyranny, we must look beyond this one-dimensional notion of what it means to be free and, by reconnecting liberty to equality and accountability, restore the individual agency engendered by the three dimensions of freedom. Doctors Of Infamy: The Story Of The Nazi Medical Crimes -

Alexander Mitscherlich  
2015-11-06

With 16 pages of photographs One of the most shocking aspects of the Nazi treatment of their prisoners was the wanton cruelty of the doctors assigned to the concentration camps that were dotted throughout occupied Europe. In an ironic perversion of their Hippocratic oath doctors, such as the infamous Mengele, carried out horrendous experiments on their captive victims in the name of science. As part of the Nuremberg trials the Nazi medical establishment was called to account for these crimes against humanity. Alexander Mitscherlich was the doctor assigned to carry out a full investigation into the crimes across all of Europe; in his report embodied in this book, reported on the awful scale and complicity of

the Nazis. The terrible details have to be read to be believed in this shocking book.
